THREE WORLDS

Our ills are like an atomic "chain reaction". The top gripes among the citizenry are high taxes; inflation; Communism; regulations; bureaucracy; corruption; indebtedness; social, political, religious and economic trends, etc. All of our troubles stem from one factor -- Interventionism.

Woodrow Wilson, the professor, the dreamer, gave birth to the idea that we were destined to become leaders of the world -- financiers of the world -- the bread basket for the world -- the policemen of the world -- we should launch a program to stuff our way of life, religion, government, down everybody's throat, whether they liked it or not. That was the turning point. Up until then we went forward, we prospered, we grew to be a first-rate power in the shortest period of time in History, we were born and raised under the Monroe Doctrine, we attended to our own business, we lived in humility and dignity, we followed the Golden Rule, we adhered to the Constitution, the individual citizen's opinion was the rule of the land, and we were ever mindful of the fact that the Monroe Doctrine was just as binding in reverse.

The Human Being has an innate quality - GREED - which is the root of all evil. Big corporations, which have no heart, spread their exploitations around the Globe, cognizant of the fact that they could influence the Government Foreign Policy so as to protect their interests. Rightfully, they should not take advantage of Power Politics and the Romance of Youth to protect their investments while their sons become chauffeurs at the Pentagon.

Since Wilson's dream of One World Power through interventionism, we have had Three World Wars under Three Democratic Presidents and we have been going downhill steadily. Foreign Policy is the crux of the evil. All other issues are side-shows, they are merely "chain reactions" that automatically alleviate as soon as we change back to our original Foreign Policy.

Instinctively, whether we believe it or not, or like them or not, all English speaking peoples are one and the same. We have no other dependable friends. Our welfare is definitely tied up with Britain's. Our policies are geared with theirs. The primary reason for sending six divisions to Europe is to prepare for the THIRD GO-ROUND to save Britain's hide. We felt our greatest jeopardy during the LULL when Hitler reached the Channel.

With all of our efforts, -- loss of the flower of our manhood and 400 Billions of Dollars, England has deteriorated to a Fourth-Rate Power and we are going down rapidly with her and don't realize it.

England is stewing in the legends of the past, with no thought of the future. The Balance of Power in Europe, their influence on the Continent, their mastery of the seas, their colonial possessions, and their trade with the Dominions are no more.

We have tried every conceivable Foreign Policy to no avail -- viz., League of Nations, United Nations, Disarmament, Peace Treaties, World Economic and Religious Conferences, International Law, One World, SHAPE, NATO, Balance of Power, Marshall Plan, Schumann Plan, etc.

They have all failed because of weaknesses of the Human Being at this stage of civilization. Ways of Life, Government, Religion, etc., cannot be forced upon other peoples, it has to come from the heart, by example. Probably in the year 2052 the World may be ready to adopt those Utopian Plans.

We can arrive at the answer to the Global situation by studying the behavior of people in any locality. They segregate into neighborhoods, so that those who think, act, and worship alike can associate. To insure harmony and order, there is a police force to enforce the law of the land. There is less chance of fighting among peoples who think and act alike.

This solution occurred to the writer in 1939 when the clouds of World War II were gathering -- forwarded same to both Houses -- realizing the futility of World War I. England should move the bulk of their population and industries to Canada and we should return to the Monroe Doctrine. The Western Hemisphere, from Pole to Pole, is the domain of the English Speaking Peoples -- The Invincible New World.

Just like water seeks its own level, the English Speaking Peoples divide into Three Worlds -- Three Spheres of Influence -- The Western Hemisphere, Europe and Asia -- controlled by Three Master Nations, the English Speaking People, Germany, and Japan.

RECORDED
INDEXED

EX-130

outstanding peoples of each sphere.

In retrospect -- if Wilson had not given birth to the World Leadership Dream, we would not have engaged in the Three World Wars, we would not have lost our boys and dollars in vain, we would be the outstanding nation on the face of the earth, Germany would be the master nation of Europe, and China of Asia. Russia would be contained behind the Iron Curtain as a low-grade, atheistic, inconsequential race, whereas our blundering, subversive diplomacy and interventionism have merely muddled the picture, caused a delayed reaction which will sooner or later come about, -- killed the Goose that Laid the Golden Egg -- aided and abetted our mortal enemy, -- and made them the powerful Scourge of the Universe which they are today.

It is impossible to retain intelligent peoples under the iron heel. China and Germany will throw off the iron yoke and assert themselves as the rightful masters of Europe and Asia. They are virulent, intelligent, nationalistic, God-fearing people with civilizations older and maybe better-founded than our own. They are our natural and rightful allies.

By this Three World picture with natural barriers, -- the possibilities of war will be reduced to a minimum. We should at all times "speak softly and maintain the Big Stick". Then if one or both of those major powers wish to test our strength, it will be welcome to defend our own shores and have graveyards in America, for a change.

We were lined up for the Great Debate on this issue, (which puts all other issues in the shade), when the McArthur side-show got into the Center Ring. Nothing is more important than a thorough "hashing" of this matter, so that Public Opinion can be brought to bear, and the results will be the same as when we voted down the League of Nations.

We have more than fulfilled our obligations and commitments to other peoples, Three World Wars have accomplished nothing, we have received no cooperation under the United Nations, NATO, SHAPE, etc. It is high time to return to our original Foreign Policy, bring our boys home from Asia and Europe, charge off our Bad Debts, and work hard to get our own House in Order.

The situation in Washington is muddled because we have been sold in Reverse. Rightfully, the Republicans should be the Interventionists and the Democrats the Monroe Doctrinists; however, Wilson, a Democrat, set the pattern, and his two Democratic followers, Roosevelt and Truman, merely followed in his footsteps.

Regardless of party, the citizenry will cast their lot with the man who will stand on his hind feet and proclaim to the World that we are fed up with Interventionism, Worldwide Policing, Financing, etc., and we will pull in our Horns, administer our own affairs, and make the Western Hemisphere the abode of the Free Way of Life, the Invincible New World.

THREE WORLDS

America, Wake Up - THINK! We have been off on a tangent for 35 years - we have been DUPED, - we are bleeding ourselves white physically and financially - we are bogged so deeply in the same Foreign Policy Rut, throughout Three World Wars, under Three Democratic Administrations, that we cannot visualize a solution on the horizon. We have many ailments but Interventionism is the cancer. 11-55
Cm

America the CHAMP from 1776 to 1917 - America the CHUMP from 1917 to 1952.

Hot or cold, we are in the middle of the Greatest Revolution of all time, - and Uncle Sam is the Prime Factor. It is a revolution of principle or way-of-life which effect every nation on the face of the Earth. Our experimentation in Interventionism has only muddled the picture and retarded civilization many Generations.

Truth, Reason and Justice, versus Force, Fear and Reward - Freedom vs. Slavery - the Individual vs. the State - Religion vs. Paganism - Haves vs. Have-Nots. Regardless of your perspective, the alignment is the same.

The Prime Motives of Civilization are Individuality, Dignity, Humility, Independence and Freedom of Thought and action. We came to the New World and fought two wars, in order to rid ourselves of Foreign Entanglement and Influence. We prospered like no other nation in History until the "absent-minded professor", the "idealist", Woodrow Wilson, had a vision - that Civilization had attained Perfection; now ready for the Brotherhood of Man; and that Uncle Sam was the self-appointed leader of the World - the World's Benefactor, the World's Bread Basket, the World's Policeman - the ONE WORLD concept.

He reversed the Foreign Policy of our Forefathers and we have been going downhill ever since. The Democrats have been Power-Mad and Slap-Happy, - F.D.R. - H.S.T. and ADLAI merely carried on, in the same Foreign Policy Rut, oblivious of the rise and fall of Empires. Consider the backgrounds of those Presidents, (whose decisions have been to the best of their knowledge and belief) - you will readily see why their perspectives are opposite those of Lincoln, Hoover, Rogers, etc., who came up the hard way, earned their own "salt", created and paid off mortgages, rubbed elbows with the common man - made decisions based on Truth and the Benefit of all instead of Patronage Politics, Selfishness and the Benefit of the Selected Circle.

Why should we continue to spend our substance around the Globe, with a Foreign Policy laid down by a SCHOOL MARM instead of following the advice of a Great American - Herbert Hoover? His Chicago speech will be our Guidepost to the Future.

The DIE HAS BEEN CAST - the November 4th election is of no consequence. We have again been duped by the Rockefeller Internationalists and Deweyites. They care not whether a Democrat or Republican is elected so long as there is no change in Foreign Policy - their selfish motives will not be impaired. The twelve men who run the Country, who have pyramided their power thru interlocking Boards of Directors, have seen to it that their Nominee on the Republican Ticket, in every election, had the same Foreign Policy of Internationalism. It has boiled down to "Heads I Win, Tails You Lose".

There is no Two-Party System - it is not the Democratic Party vs. the Republican Party - it is Americanism vs. Internationalism.

The Democratic Party is oblivious of the fact that they are "barking up the wrong tree". They are rightfully the "America First" party. Proof, is the split in the Republican Party over the Nomination and the vote on sending of the SIX DIVISIONS to Europe.

Taft was forced to take up the opposition. However, had he stressed the Foreign Policy of Herbert Hoover, he would have been nominated and elected by a landslide. He would have secured 3/4ths of the Republican votes and 1/2 of the Democratic votes.

Foreign Policy is the only issue - all other issues, in comparison, are negligible. Merely change the course of our Ship of State, and we will have smooth sailing henceforth.

The answer can be found in retrospect - suppose the Dreamer had not had the Vision - and we had never deviated from our original Foreign Policy and the Monroe Doctrine - the English Speaking Peoples would be the Power and Light of the World, - in the World, our Home Area. 62-96678

We could have remained neutral in World War I, - we were duly warned not to ship War Waters. We could and should have retaliated "in kind" after Japan devastated Pearl Harbor. We could and should have maintained the "status quo" in Asia prior to the Korean War. In each instance we were "drawn" into Three Wars, to their own in their own back yards, immediately putting us at the great disadvantage of supply lines and acceptance of their mode of warfare.

67 OCT 21 1952

We had no business in those Three Wars and we accomplished nothing thereby. In fact, it was worse than nothing, - for the aggression of our Military and our subversive, bungled Diplomacy at the Conference Tables merely "Killed the Goose that laid the Golden Egg" and abetted the present Scourge of the Universe.

It just so happens that peoples everywhere of their own free will and accord segregated into neighborhoods with others who think and act alike - it makes for Peace, Harmony and Prosperity. We have not yet reached that stage of Civilization, whereby a Police Force may be dispensed with. In each neighborhood (city, state, nation, continent or sphere of influence) the Rightful Leader is that man or group or nation with the most extensive background of culture, Power and History for Community Service.

Civilization is not yet ready for the ONE WORLD concept of Wilson, Wilke, Dewey, etc. Way-of-Life has to spread slowly from within, from the Heart, - by example. It is against the laws of Human Nature to Exploit, Occupy, Force one's self upon another, or subjugate. England has degraded because she endeavored to build an Empire based on those Principles. Russia is just a "Flash in the Pan" for the same reason. America has squandered millions of Boys and Three Hundred Billion Dollars because we deviated from the Truth - or policies laid down by men in Truth. Wilson was in Truth, in his limited way but his followers and their advisors had ulterior motives. Another motivating factor for our engaging in Three World Wars was based upon an un-Truth - "Save England so as to save Ourselves".

It so happens that there are three God-Fearing, Powerful, Virulent, Nationalistic Peoples with Extensive, Outstanding Backgrounds in Three Distinct Neighborhoods or Spheres of Influence - viz. The English Speaking Peoples, Germany and China, in the Western Hemisphere, Europe and Asia respectively.

Had Uncle Sam not intervened and muddled the picture, this THREE WORLD concept would be in effect today - Peace and Harmony would be prevailing throughout.

The atheistic Russians would be purging themselves insignificantly behind the iron curtain, instead of being a World Power.

England would have realized that their influence on the continent is NIL - their Exploitations of so-called backward people are not right - Hong Kong should never have been - their Dominions now have their own factories - their natural resources are depleted, they are vulnerable to attack and blockade by sea, water and air, and that the only logical solution is to move their seat of Government to Ottawa, move their Peoples and Industries acre for acre to the Western Hemisphere as we did and join hands with their American cousins. Remember the LULL when Hitler reached the channel? Retain the Isles as a military base, like Singapore.

To prove that our Diplomacy has been wrong, we are now arming Germany as an ally and would like to buy China back.

If we will revert to our original "America First" Foreign Policy, this Three World Concept will come about just "like water seeks its own level". Sooner or later Germany and China will throw off the Russian Yoke and declare their rightful places under the Sun - creating this Three World Picture in our Lifetime.

This THREE WORLD Plan was originally submitted by the writer in 1938, - realizing the futility of World War I - entitled "What England Should Do". It was re-submitted in 1941 as a Post War Plan entitled - "The Invincible New World".

If we had accomplished some degree of success, cooperation and appreciation for our efforts in Three World Wars, Three World Conferences, U.N., NATO, SHAPE, there possibly would be some logical reason for continuing Interventionism. Without that cooperation, we are "biting off more than we can chew", physically and financially. Rather than be Pushed into this Picture, it would be better to not fool ourselves, and do everything within our power to create this Picture.

Our First Line of Defense should be the "Strings of Islands" off the coasts of Europe and Asia. We established the Western Hemisphere as our Home Area under the Monroe Doctrine. However, we broke faith with that Doctrine when we landed our troops on Foreign soil. We also broke the Golden Rule, for actually that Doctrine covers aggression out of as well as into the Western Hemisphere.

The Western Hemisphere covers one-half of the Globe - including two continents and four oceans. Surely no one - even the Millionaire who wants to become a Billionaire, could stoop so low as to call this vast area, including our natural "notes" and our First Lines of Defense - isolationism. In fact, with England's help we will have our hands full maintaining our First Lines of Defense.

We would be throwing no one to the Wolves for we have proved our Invincibility, Generosity and Willingness to aid. We have received no cooperation in Asia

It is high time we mind our own affairs and permit Germany and China to rule Europe and Asia. They will tell Russia where and when to get off.

We should resign from the United Nations as we did the League of Nations. We should return our Boys from Asia and Europe. We should open the Doors of Freedom in the New World to our English Forefathers and advocates of Freedom of other Nationalities. We should "round-up" all of the Pinks, Reds, and other "off color" brands and deport them from our shores.

This Plan will come into effect by one of the following means:

1. If an outstanding citizen of proven ability and integrity would declare this Plan as a Third Party Platform, he would be elected Nov. 4th, 1952 or 1956 without question. All he has to do is "tell the facts" - Parents are fed-up "by these periodic shipments of their Boys around the Globe, with or without the consent of Congress, with no purpose or result.
2. Both Houses could hold the proposed but pigeonholed GREAT DEBATE, weigh all of the advantages and disadvantages in the balance and arrive at the right decision based upon Truth, Reason and Justice.
3. England could wake up and decide that the only solution to their dilemma is to move to Canada.
4. The Russian armies could decide to march, which would rid Europe and Asia of our Footsoldiers, like Dunkirk. Our Big Brass in the Pentagon are oblivious to the lessons of History. Napoleon and Hitler endeavored to conquer Russia with footsoldiers - yet they are confident of our success with 4,000 mile supply lines. Armies and Navies are just as outmoded as the bow-and-arrow. We should devote all of our funds, and ingenuity to the creation of the greatest and most effective air force in the World, preferably Amphibious, with corresponding missiles. Gen. Billie Mitchell and Three World Wars proved that beyond doubt. Then as T. R. said "Speak softly, but carry the big stick". In War, Time is of no importance and occupation accomplishes nothing.

There will be no war between these two diametrically opposite Ways-of-Life. We are not an aggressor Nation and Russia well knows the futility of endeavoring to conquer and occupy vast populations in vast areas. Russia has acquired more from within, than any other nation in History from without. They fear our ingenuity and productivity in Air Power and Missiles.

This is Planned Security and Planned Economy. The possibilities of War, as a means to an end, within the Three Spheres of Influence and between them will be reduced to a minimum.

Ports and Airports throughout the Globe will be open Free Trade and Travel. They need our Trade and Travel more than we need theirs.

The raw materials in the Western Hemisphere are unlimited and unexplored comparatively speaking.

If our Foreign Trade and Travel is curtailed we can produce substitutes and synthetics. It would be well to devote our funds and attention to South America. We have lost prestige and friendship by ignoring our Good Neighbor Policy.

The Constitution is the greatest document on Government and Way-of-Life ever conceived in the minds of men. "The proof of the Pudding is in the eating". Our record speaks for itself.

To get down to brass tacks, our Forefathers were greater Thinkers and Greater Americans than we are. We are now in the greatest jeopardy in our History, due primarily to one fact - we deviated from the Constitution as follows:

1. We permitted ourselves to become involved in Foreign affairs and alliances, wars and conferences.
2. We permitted the Executive Dept. to usurp the powers of the Legislative and Judicial Departments.
3. Without consent of Congress we engaged in the Korean War and sent Six Divisions to Europe.
4. We permitted the packing of the Supreme Court.

If we will forget Greed and Snobishness, conduct ourselves with Humility and Dignity, comply with laws of the Land and Human Nature, Good Ole Ship America will "come-about" on an even keel, and Peace on Earth, Good Will Towards Men will again prevail.

There has been no Republican Party since F.D.R. took the helm and there will be none henceforth. It is the minority party to start with. Whenever an election comes up they "SPOT the Democrats 6 holes, in a round of golf". Then on top of that, the Rockefeller Internationalists, readily saw that F.D.R., H.S.T. and A.E.S. would follow in the same Foreign Policy "rut", reversely established by W. W., which was right up their alley, they knew real well that the Republican Party would be split because all

would not adopt the opposite - so they concocted the idea of running Internationalists like Wilson, Dewey and Eisenhower, every four years, to insure continuation of the same Foreign Policy

There is no Opposition Party, because both candidates have the same Foreign Policy which is 99 44/100% of the Platforms.

Since F.D.R. endeavored to help Labor - the pendulum has swung too far - now they run the Party.

A very weak spot in our Republic is the fact that the vote of an ignorant "ditch digger" has the same value as that of an educated conscientious citizen capable of "thinking through" the issues for the Welfare of all.

Since there is no Opposition Party - millions will not go to the Polls. Eisenhower does not have the appeal, background and persuasiveness to overcome all of these handicaps, without an opposite view on Foreign Policy. If it were not for the CASE-HARDENED glint acquired through his single-minded Military career and if he had the business experience and the global perspective of Hoover, the sales appeal and ability of F.D.R., - he could reverse the Ticket, and secure all of the Democratic votes and none of the Republican votes and be elected hands down. The Citizenry are not aware of the Facts and Politicians withhold them. In fact, every vote cast for Ike aids and abets the Democratic Party.

The only way to break up this combine, for the continuation of Internationalism, other than a depression or a military catastrophe, is the formation of an American First Party, - tell the Public the Truth and the Facts. Then, as it should be, Public Opinion will "run the show", through their Representatives in Washington. All we have to do is let Congress make the Laws, the Policies of the Land, - and let the Three Branches of Government function smoothly as set forth in the Constitution.

Intentionally and/or otherwise, we have arrived at the CROSS-ROADS in our short and outstanding History, through the following chronological series of blunders, dupes and mis-conceived ideas of individuals, during the past 35 years, whereas the policies and decisions should have been formulated by the Congress, backed by Public Opinion:

1. The Professor's "Dream" of Internationalism was 5000 years too soon. He awakened on T.R.'s side of the bed.
2. Uncle Sam, - the self-appointed World Leader, Feeder, Financier and Policeman.
3. The Monroe Doctrine is a TWO-WAY DEAL - the Golden Rule.
4. We should have remained NEUTRAL in World War I - we were warned and had no cause to declare War other than selfish motives of the FAVORED FEW.
5. William Allen White's "Committee to defend America by aiding the Allies" - a DUPE.
6. We won the War and lost the Peace TWICE.
7. Lend-lease to Russia, the scourge of the Universe - made our Mortal Enemy
8. We "Killed the Goose that laid the Golden Egg" - the Germans TWICE and China ONCE - the Rightful Leaders of the Old Worlds.
9. We packed the Supreme Court and by-passed Congress with Executive Orders.
10. We killed the Opposition Party by running ONE WORLDERS on the Republican Tickets.
11. Public Opinion has been asleep and bewildered - Wake Up - THINK-ACT-VOTE.
12. Pinks and Reds infiltrated our Government - we need a Constitutional Amendment to put them permanently out of circulation.
13. We were out-maneuvered at Yalta and Teheran.
14. We gave Labor an Inch and they took a Mile - they're now TAKING us.
15. We hitched our Foreign Policy to a "Sitting Duck" - England's situation is impossible "as is", yet we have engaged in Three World Wars to save England in order to save ourselves. Bring them over here and the problems of the World become solved over night.
16. Since F.D.R., we have become a ONE PARTY - SOCIALISTIC STATE - and we will remain so until Public Opinion is aroused, enlightened and asserts itself. Without an OPPOSITION PARTY, America is not a Republic.
17. Kill the U.N. as we did the League - it supercedes the Constitution and will gain us nothing.
18. The "hit and run play" at Pearl Harbor should have been "retaliated in kind", 10 to 1 - instead of being duped into a foot-soldier war to their making and liking.
19. We endeavored to buy friendship by giving eleven billions to each Russia, China and Europe - try to find a friend among them.
20. The White Paper with Red Ink established our Asiatic Policy - the Wedemeyer Report was pigeon-holed.
21. Marshall "dropped the ball" on a "Fielders' Choice" in China - Acheson was the Fielder.

22. The undeclared war in Korea, without Congressional action.
23. Six Divisions to Europe, without Congressional action.
24. Crossing the 38th parallel without authority from Chiefs of Staff.
25. Racing to the Yalu, predicated on the hypothesis that the Chinese Reds would not dare strike Uncle Sam.
26. Intentions to extend the War into the Asiatic Mainland, predicated on the hypothesis that Russia would not dare strike Uncle Sam.
27. The Big Brass has squandered our substance in Foot-soldiers and battleship while Billie Mitchell and Three World Wars proved that all of our efforts should be devoted to Air Force and Missiles.
28. There is so much corruption, greed, selfishness, snobbishness, inflation and alcohol in our system - John Q. Public is unaware of just how sick Uncle Sam is. Intervention cancer has Uncle Sam "on the ropes".
29. We cannot anticipate perfection in Government, for neither party is sprouting "WINGS" - In 20 years, the Democratic Bureaucrats have increased the National Debt from 16 to 300 Billions.
30. In reality the Domestic affairs are immaterial - there is nothing of more consequence as the needless waste of a DOUGHBOY, - filled with Flaming Youth and the Spirit of Americanism - oblivious of the above.

It matters not whether the above decisions and policies were influenced by selfish or subversive motives, History has proved that they are WRONG. In the words of T. R. - "Success requires at least 51% correct decisions" - it behooves us to get "ON THE BEAM".

There is no use "crying over spilt milk" - we will accept our losses of life values and dollar values and charge it up to a lesson well learned.

We have discharged our obligations to UN-SHAPE-NATO, ETC., on the Battlefields, and otherwise. We have endeavored to be World Leaders, Feeders, Financiers, etc., but without cooperation or appreciation. We cannot do it alone - therefore the other signers have broken the agreements - we have discharged our obligations. If the other nations do not have the WILL to defend and help themselves, our efforts are useless.

It is a sad state of affairs, when our very existence is dependent upon policies, and decisions conceived in the minds of Acheson, Hiss, Jessup, Latimore, etc., when we have the Words of Truth from Washington, Jefferson, Lincoln, and Hoover to follow, their Policies are applicable now and forevermore.

It may be wishful thinking to Pray for the following at this particular time, although they will come about; and any one will reverse our Foreign Policy.

1. England moving to Canada.
2. Germany and China throwing off the Russian Yoke.
3. The Russian People throwing out the Communists.
4. Creation of an Opposition Party or American First Party.
5. Unification of the Republican Party under our original Foreign Policy.
6. The Democrats could realize that Interventionism is not to their best interests.
7. We are "sailing the ship alone".
8. A Military defeat on Foreign soil.
9. Reach the end of our Financial Rope.
10. Reach the realization that we have bitten off more than we can chew.
11. An aroused Public may sober up, - cast aside the "ME TOOERS" and the "MIDDLE OF THE ROADERS" - "PATRONAGE PANHANDLERS" - and adopt a policy of AMERICA, FIRST, LAST, AND ALL THE TIME - before the sky falls in on us, literally and figuratively.

However, in the ultimate analysis, the Future rests on Your shoulders and my shoulders. There is no higher title on Earth than "A Christian American Citizen". The Individual is all powerful. All of the above may be that which we Hope for, but here is something TANGIBLE which you and I can and must do for the preservation of our Family, Home and Homeland - THINK, ACT AND VOTE. Think this most important matter through, advise your Representatives and Delegates of your thoughts, and vote on every occasion, starting with your Precinct, to the best of your knowledge and belief That is not only your Right but primarily your Duty as a Citizen. In America, the Government is the Servant of the People.

On Dec. 4th, 1950 - TIME MAGAZINE quoted as follows:

"THE SHIP MIGHT NOT SINK"

Since the war, many austerity-worn but patriotic Britons have rejected the lure of emigration, told themselves that every departure weakened the nation. Last week, Sir Frank Whittle, famed jet-propulsion engineer, declared that the opposite was true. Whittle launched a campaign to persuade a million of Britain's 50 million people to go to the Dominions. His argument was based on the fact that the

Era of Emigration, if that mass emigration now would greatly strengthen the United Kingdom, especially if war should come. Britain's fundamental weakness, Airman Whittle believes, is its vulnerability through starvation if atom-bombed or blockaded. Declared Whittle of would-be emigrants: "They have felt they would be guilty of leaving a sinking ship, whereas the truth is that if they leave, the ship might not sink."

Whittle believes Britons are fast coming to his way of thinking, citing answers to a recent Gallup poll question: "If you were free to do so, would you like to go and settle in another country?" Some 35% said yes, 60% said no, 5% "don't know."

No treaties are necessary. This plan is strictly our own business and we have fulfilled all commitments and obligations - this is a natural course of events. It is natural for peoples to desire to live in Neighborhoods of their kind and it makes them stronger. It is practical to have a Federal Police Force by the Three Master Nations to keep the Peace in each of the Three Worlds. If within our power to include the chain of Islands from Alaska to Australia; and the British Isles in our Sphere of Influence - as our First Line of Defense - so much the better. If we can maintain the neutrality of Africa so much the better. With our help, England could develop Canada within 10 years to our status after 100 years, for they have the manpower and machinery and we have the money to finance the move and set the pattern. The English Speaking People would again be the most potent factor in the World, Physically, Financially, Culturally and otherwise.

Our first President, George Washington, laid down the following Foreign Policy in 1796, the Foreign Policy upon which this Great Nation was founded and prospered. It is just as true today as rededicated by our greatest living statesman, Hon. Herbert Hoover. If we had never deviated from it, the English Speaking People would be the strongest Power on Earth. If we will re-adopt this policy, we will become so:

"Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalry, interest, humor or caprice?...

Against the insidious wiles of foreign influence...the jealousy of a free people ought to be constantly awake, since history and experience prove that foreign influence is one of the most baneful foes of republican government... 'Tis our true policy to steer clear of permanent alliances, with any portion of the foreign world."

In addition to the multicolored Flamingos in our Political Zoo we have many large spotted Birds, of the Wallace, Marshall type, Patriotic but DUMB.

It has been 30 years since the last GREAT DEBATE on this issue. Both Houses and Public Opinion voted down Internationalism by refusing to become a member of the League of Nations - yet Alger Hiss re-concocted the ONE WORLD concept (United Nations) and we jumped in with both feet and our eyes closed.

The GREAT DEBATE was lined up for Congressional Approval to send the SIX DIVISIONS to Europe when the MacArthur Incident took over the center ring. It was again expected between the Presidential Candidates - instead, the McCarthy-Marshall Debate is "in vogue". The Public are clamoring for facts and information on Foreign Policy. Immediately after Taft's address in Houston, 7000 people yelled in unison - "What is your Foreign Policy". The Democratic Leaders want to keep the Public in the dark, for fear it may be discovered that rightfully they are not ONE WORLDERS. The DEWEY-ITES and WALL STREET gag their ONE WORLDER candidates for fear TAFTITES might "splinter off". The TAFTITES "pussyfooted" on Foreign Policy for fear of being called an "isolationist" - F.D.R. in his persuasive manner made that word sound like a plague - whereas it was our daily diet for 141 years and we were well off.

TELEVISION is the only approach to the People. While Ike, Adlai, and Harry are making Whistle stops, and SOFT-SOAPING the citizenry - if Taft, Russell, Bridges, McCarthy, Kennedy (or any other prominent citizen of proven ability and integrity) will appear on the screen daily, let his hair down, talk in plain words, and present all of the facts regarding only one issue - Foreign Policy - he will be the first candidate for the "American First" Party and next President of the United States on November 4th, 1952.

It is glaringly apparent that the Democratic Party has been a FAILURE on the Domestic Front, for reasons with which we are all familiar. They have created a ONE PARTY Socialized State, - they have almost bankrupted the Nation - their policies are behind doors and under the tables, with only one thought in mind - Perpetuation in office. America's TWO-PARTY SYSTEM of DEMOCRATS VS. REPUBLICANS, is no more - henceforth it is the TWO-PARTY SYSTEM of AMERICANISM VS. INTERNATIONALISM. It is glaringly as apparent that they have been a Failure on the Domestic Front. They admit the MESS in Washington but that is a ... in the back ... around the ...

Let's vote a change on BOTH FRONTS.

Adlai tendered his opinion that those of this concept are "afraid". That is a rather narrow opinion of America, - dedicated to this concept - yet followed W. W., F.D.R., H.S.T. and now A.E.S. down to almost oblivion in their experimental dreams in the International Field. This is further narrowed when expounded by one, completely GAGGED by Jacob Arvey, Phillip Murray, I.P.R. and the A.D.A. Engaging in TWO WORLD WARS and carrying 90% of the load in Korea, proves we fear no Nation nor Group of Nations.

Ike advised that the big white teeth of the Red Wolves would be gnashing at us from the far sides of the Atlantic and Pacific. From one who spent his life in the Military, experienced only in Warfare, with the threat of Court Martial over his head (remember Billie Mitchell) what more could we expect.

Adlai and Ike are Democrat and Republican in name only - They are waltzing together as ONE WORLDERS, on ONE TICKET, (the International Ticket) and many Real Americans will have no part of either at the Polls.

If we do not have time to elect an American First President by Nov. 4th, 1952, Public Opinion has an ace in the hole.

CONGRESS - the VOICE of the PEOPLE - the sole owner of the PURSE STRINGS and the POWER to DECLARE WAR.

We have been mis-lead since W.W. by three mis-conceived ideas, viz;

1. America was destined by the Almighty to lead, feed, finance and police the World.
2. Save England in order to save ourselves. England has reached the end of her rope. Their only salvation is to follow our Pattern.
3. Meddling in Other People's Business, which is none of our business. Had we not, Germany and China would now have their House in Order, and the English Speaking Peoples would be devoting their efforts to the "Invincible New World".

We are fast approaching the Principles of our adversary, - FORCE, FEAR AND REWARD - a FORCED policy based on the GAG rule, a ONE WAY TRAIN for FEAR of Court Martial, and a REWARD of Patronage, Mink Coats and Ice Boxes.

Wake up America - THINK, ACT AND VOTE - for the Principles of Americanism - TRUTH, REASON and JUSTICE.

Constructively yours,

THREE WORLDS

Mr. John Q. Public:

What's next -- another Korea, World War, Depression or Peace? We are being taken for a ride. Our Route, Destination and Drivers are unknown to the average citizen. For 36 years our Foreign Policy has been fostered by International Bankers, abetted by Subversive Minorities and cajoled by Idealistic, Power Happy, and Party Mad Presidents - all in one continuous rut - INTERVENTIONISM.

The handwriting is on the wall, we are going downhill fast, the "12 men" at the wheel are not Americans, but Internationalists, their Banner is not Star-Spangled, their Capitol is not Washington, D. C., they follow not the teachings of OUR SAVIOR, they place Dollar Value ahead of Life Value. They are the "12 men" who through manipulations and connivances have usurped control of our money. They claim, "allow us to control the Money of any Nation and we care not who makes the Laws." -- They have an International Plan for World Domination laid down in 1848. They infiltrate and dominate by this means, then perpetrate Revolutions, Civil Wars, World Wars, Aggressions, Depressions, and Chaos. They sell their wares through Propaganda Media, Schools and Churches. Communism and Socialism are merely their pawns. 105 years ago they endeavored to "take over" Germany, but found it impossible because of the strong Nationalistic Pride of the German People, so they "moved in" on Russia and found a fertile field to bore from within. By 1917 this small Minority had usurped control of the entire Nation. They fomented and financed the Russian Revolution and demolished all Churches of Christendom. Since 1917, they of the Same Stripe have been the advisers to our Presidents, Brain Trusters, New Dealers, Fair Dealers, etc., getting their cues from the "12 men" of Power and Wealth, obtained through interlocking Boards of Directors and International Bankers. In retrospect, we now realize that our Foreign Policy has been playing into the hands of our enemies by subversive elements in high places. The same breed have shown up in Spy Rings. They are Anti-Christ, Anti-American, and ANTI-EVERYTHING that we stand for. What is good and right for them is just the opposite for Mr. Average Citizen. We need a Constitutional Amendment, whereby we can put them completely out of circulation, when they will not declare and prove allegiance to America. We need another amendment, whereby the President or his Confidential Advisor cannot involve this Great Nation in a War costing us 150,000 casualties, and send Six Divisions to Europe without authority from Congress.

Let's profit by our past mistakes in Foreign Affairs, so as to formulate a sound Foreign Policy henceforth. Foreign Policy is the Cancer that is bleeding us white -- all other issues are minor ailments.

1. We came over here and fought two wars in order to be free of foreign entanglements and dictates. We founded the Constitution, Bill of Rights, Declaration of Independence and Monroe Doctrine, under which we prospered like no other nation in history. We established a Way-of-Life, Power, Dignity and Humility which was the Guiding Light of the World. If we had never deviated we would command that Prestige in World Affairs today, the Flower of our Manhood would be running the show, instead of being uselessly plowed under foreign soil, and we would not be in debt to the tune of 272 billions. We came over here for a Purpose -- let's get back to that Purpose.

2. What license did Perry have to force open Japanese harbors in 1853? We did not feel the sting of hate until Pearl Harbor.

3. By what right did we brandish our Naval Might at Tripoli?

4. In the fateful year of 1917, Woodrow Wilson and Joe Stalin

threw off the traces and launched upon International Plans for World Domination based on diametrically opposite Concepts. The College Professor deemed that the Monroe Doctrine was outmoded -- we should break the Golden Rule -- we should become Aggressors and invade foreign fields with our troops, yet hold the Monroe Doctrine inviolate as far as invasion of the Western Hemisphere by foreign troops is concerned. The Western Hemisphere Periphery is the Home Area of the English Speaking Peoples. Our first line of defense is the Strings of Islands off the Coasts of Asia and Europe -- including Attu-Japan, Phillipines, Formosa, Hong Kong, Singapore, Malaya, and Australia in the Pacific; and the British Isles and Iceland in the Atlantic. One-third of the Earth's surface, including two Continents, two Oceans and two Poles is not Isolationism. It is the "INVINCIBLE NEW WORLD" (published in 1941 by the writer).

5. Democrat Woodrow Wilson, the "Dreamer", awoke on the wrong side of the bed with the Republican Foreign Policy. The Republican Party is the Party of Wealth, who have foreign investments and commitments to protect with Uncle Sam's Army and Navy. F. D. R., H. S. T. and ADLAI followed W. W. blindly in the same RUT. The "12 Big Shots" were quick to take advantage of this break in their favor, and in order to be doubly sure that Internationalism would prevail, they saw to it that a ONE WORLDER was placed on the Republic Ticket every four years --viz., Landon, Wilke, Dewey and IKE. Of the eight, Ike is the only "Down to Earth" solid citizen, with some flexibility in his make-up, who is anxious to formulate the Right Domestic and Foreign Policies for the welfare of America as a whole.

If it were not for his military background, in my humble estimation, he would be a "Jeffersonian Democrat", as exemplified by Hoover, Taft, and the sixty-two Senators of the Bricker faction. I firmly believe that he will come around to that Concept.

If Taft had lived, Ike would be in that "camp" today, instead of "The Middle of the Road".

Ike has considerable knowledge of our Physical and Financial sacrifices during the past 36 years, endeavoring to fulfill Wilson's Dream of World Leadership. There is no use crying over "spilt milk", but often the answer can be found in retrospect. Ike is in position to visualize and realize what our situation and the World situation would be today had we never violated the fundamental Principles and Purposes upon which this Great Nation was founded. We came over here to get away from Foreign Entanglements, and adopted the Western Hemisphere as our Home Area, under the Monroe Doctrine, and Good Neighbor Policy. We have never permitted Foreign Troops to invade this Hemisphere; and that principle is just as inviolate regarding shipment of our Troops out of this Hemisphere.

We have learned that World Wars I and II, as well as the Korean War accomplished nothing.

We fought wars with the expressed purposes of liberating Poland and Korea. The purposes were not accomplished. We can now see that our foes of yesterday, Germany and China, are rightfully our friends. We are now endeavoring to re-adopt them as Allies by helping them to unite and rearm. Uncle Joe, our former bedfellow (now our mortal enemy) has both divided.

Ike formulated NATO-EDC-SHAP and he fully realizes the lack of Cooperation we have experienced in Europe and Asia. Ike knows well how we were out-manuevered at Potsdam, Breton Woods, Teheran and Yalta. Why should we continue to plan meetings with our adversaries, when we know well that the agreements are not worth the paper on which they are written? Thousands of Aeroplanes and Bombs are the only kind of Conference and agreement they understand, respect, and are entitled to. Ike is well aware of the fact that occupation accomplishes nothing.

Ike is a rugged individualist. He will not be influenced by the Big Brass, who think only in terms of Pink Teas, Social Prestige and Special Service Privilege. He knows well that they should have followed, instead of crucifying Billie Mitchell. He is aware of the outmoded usefulness of Battleships, Carriers, Tanks and Foot Soldiers in modern warfare. He knows that the only "Big Stick" at this particular stage of Civilization is the Aeroplane.

When Ike realizes that his Foreign Policy of Internationalism is playing into the hands of the Dewey Striped Republicans, the W. W., F. D. R., H. S. T., and ADLAI Democrats; the International Minorities who have infiltrated High Government Places; the so-called Brain Trusters; the Advisers to Presidents, as well as our Adversaries (who would like to see and apparently are abetting the "Rise and Fall of Empires"), he will return our Six Divisions from Europe, adopt the Bricker Amendment, revise the 5th Amendment, get out of the United Nations, and revert to the policies of our Forefathers, viz., The Constitution, the Bill of Rights, the Declaration of Independence, and the Monroe Doctrine.

6. Undoubtedly the aforementioned EIGHT Presidents and Candidates, all with the One World Concept, were Loyal Americans who made every decision to the best of their knowledge and belief, for the best interests of America. However, because of their "School Marm", "Silver Spoon", "Pendergast", "A.D.A.", "Money Changer", and "Military" backgrounds, they did not have the down to earth perspective of Mr. Average Citizen. The right perspective would come from such outstanding citizens as Hoover, Rogers, Taft, Bricker, Root, Wheeler, Borah, Hiram Johnson, Cabot Lodge, Lindbergh, etc., men of accomplishment through their own efforts, men of individual thought and action, men who could not be influenced, men who need no "advisers", men who would "Chase the money changers from the Temple." Old "Fire-side Chat" branded birds of that feather "Isolationists" -- enemies of the State. He made this policy, our American Heritage, sound like a plague.

We know that the 1929 crash was the result of deliberate manipulations by the Money Mongers for ulterior motives and beyond the control of Herbert Hoover. We now realize that he is the greatest living statesman in the World today. His Chicago address, at the 1952 Republican National Convention, was the greatest since Gettysburg, and is our Guide-post to the Future. No one is better qualified to outline our Foreign Policy. He is personally familiar with every principal Nation on the Face of the Earth. He is a self-made, highly successful Engineer. He has no political ambitions. He accepted no remuneration while in office. His perspective is "on-the-beam" because of his background. We would do well to rededicate his address and follow it out to the letter NOW, instead of carving it in marble in 2053. The Hoover, Taft, Bricker Republicans of today are the Jeffersonian Democrats of yesterday.

7. We had no business becoming involved in World War I. We were amply warned regarding shipping in War Waters. We (and England) were forewarned that our interests lay on the side of Germany. We can now see that Germany is the Rightful Ruler of Europe, they are the most Nationalistic Nation on the Continent, our kind of people, Christian Caucasians with generations of background, and the only nation on Earth in which Socialism, Communism, Zionism or any other "ism" cannot get a foothold. They will rise again and assert their right, regardless of our bungled diplomacy. We accomplished nothing, merely "killed the Goose that laid the Golden Egg". We entered the War for the self-determination of Nations and ended up by handing them to our Mortal Enemy.

8. Thank Goodness we had some staunch Americans at that time. They "stood on their hind feet" and voted down the League of Nations. 28 years later we sat around in cocktail parties, while HISS, ADLAI, Stetinius and H. S. T. reconcocted the same deal (United Nations) -- without permitting the proposed Great Debate (Nationalism vs. Inter-

nationalism) to come into being. This "deal" in reality supersedes the aforementioned Documents laid down by our Founding Fathers. The Great Debate was side-tracked, lest the Public be awakened to the Facts.

9. The Bricker Amendment -- the most Constructive Legislation in Foreign Affairs, in our Lifetime, was "pigeon-holed" by IKE for the same reason. This Amendment will restore our Constitutional Rights.

10. We had no business becoming involved in World War II. Henceforth, rather than be drawn into a foot-soldier war, to our enemy's liking, on the LAND MASSES and against the preponderous POPULATION MASSES of Europe and Asia, every time they make a sneak attack, we should adopt a policy of RETALIATION -- 10 for 1. When they dropped 100 Bombs on us at Pearl Harbor, we should have dropped 1,000 Bombs on them, and let it go at that.

11. We now know that Hiss & Co. had their fingers in the pie at Yalta, Teheran, and Potsdam, and the policies adopted were not for the good of America.

12. What right did we have to give Baltic States, Northern China, the Ryukyu Islands of Japan, and Outer Mongolia to Russia?

13. By what right did we create the 38th Parallel dividing Korea at the waist perpetrating the Korean War? By what right did we divide Trieste, China and Germany?

14. We permitted subversive and incompetent elements in the State Department (Lattimore, Acheson, Vincent, Hiss and Marshall) to sell China down the river while we were endeavoring to buy their loyalty with a 12 Billion Dollar Gift. In Asia and Europe, we fought our rightful friends (China and Germany) for the benefit of the Scourge of the Universe. The above individuals proved to our State Department that China should be divided into Farms, and turned over to the Agrarian War Lords. Morgenthau and/or Harry Dexter White, made the same plan for Germany. Alger Hiss, et al., sold us on Plans, just as UN-American at San Francisco and Foreign Conferences.

15. Rightfully, only Congress can declare War. Yet, because the U.N. supersedes the Constitution, one man (H.S.T.) could take the responsibility of Life and Death on his own little shoulders, to involve this Nation in the Korean War, (which was an impossible situation, with any degree of imagination); and to send Six Divisions to Europe.

16. We know from History that it is impossible to defeat a Nation of Vast Area and Population with foot-soldiers. Napoleon and Hitler tried and failed. They merely back up, leave the scorched earth and/or absorb the enemy. Yet we engage China and Russia, the World's largest standing armies, on the Planes of Asia and Europe, without allies or cooperation.

17. If any enemy would come racing up the Florida Peninsula with live ammunition, I feel confident that we would meet them at the Georgia Line in full force. We should have foreseen China's entrance at the Yalu, our greatest military blunder. Yet our Commanding General advised "They will not dare to strike the United States of America; our boys will be home by Christmas".

18. If a Corporation would continually "go in the red", they would change their policy. We have given Internationalism a fair trial for 36 years. Three Wars and One Depression have accomplished nothing but Death, Debts, and Taxes. Furthermore, we have received no cooperation or appreciation from our so-called Allies in this Great Experiment. Our biggest Ally traded War Materials with the Enemy, while we were carrying nineteen-twentieths of the Korean War, physically and financially. We have endeavored to BUY Allies and

Friends fruitlessly thru the Marshall Plan, Lend-Lease, etc.

19. We have geared our Foreign Policy to England, predicated on the hypothesis "save England in order to save ourselves". Well, England is at the end of her rope and doesn't know it. Her factories no longer manufacture for the Dominions; her Influence and Balance of Power on the Continent are no more; her Sovereignty over and exploitation of so-called Backward Nations has been discontinued. In fact, she is situated on a "derelict airplane carrier" mired off the coast of Europe, subject to starvation by blockade and destruction from the Land, Sea and Air. England has deteriorated to a second class power and we are being carried down with her. We are in reality, one and the same people.

20. We have allowed the Big Brass of the Army and Navy to unduly influence the selection of our offensive and defensive weapons, because of the possible loss of special service privileges and social prestige. Every stage of Civilization has invented a more effective means of warfare than the preceding. At the present time, the Aeroplane (in connection with the Atomic and Hydrogen Bombs) is the most effective means of waging War, offensively and defensively. Other means of warfare are just as outmoded as the Bow and Arrow. Billie Mitchell was court-martialed for proving it in World War I. Actual events proved it in World War II. Russia could march to the Atlantic and Pacific without opposition. They would do so except for their fear of American inventive and productive capacity of Planes and Bombs. It would be well for us to put all of our money, brains and man-power into the construction of the greatest Amphibious Air Armada in the World, equipped with the largest Stock Pile of Bombs. There is no need for the heavy landing gear, and the expensive, vulnerable landing strips. The Western Hemisphere will then become the Invincible New World. As T. R. said, "Speak softly, but keep the Big Stick". Why should we live out our lives in constant fear of a Russian attack? They will not attack. Their procedure is to bore from within; control the money, propaganda, and policies; cause depressions, bankruptcies and divisions among the People. Furthermore, they well know that an attack would bring us to our senses, - stop the cocktail parties, pink teas, Big Brass Special Privileges, - jail their Fellow Travelers, - and revert our Foreign Policy to Monroe Doctrine. They desire that we spend our substance on Internationalism; they will manipulate another depression; they will foment the minorities against us. They will endeavor to separate the British Empire from us; they will trade with South America, while we attempt to buy Friends in Europe and Asia. They will then infiltrate the South American Governments as a means of isolating the United States. Many Citizens have been led to believe that Monroe Doctrine is Isolationism, whereas, if the facts were known, they will realize that our original Foreign Policy is our salvation. We will have our hands full to maintain the Peace within the Western Hemisphere Periphery and if we continue down hill much longer under Internationalism, we may find it too late.

What is the Solution? --- Revert to the Monroe Doctrine, and the Constitution - NOW.

How can this be brought about?

1. On a strictly business basis, dismantle the Industrial plants on the British Isles and rebuild them in Canada. The first boatload will start the ball rolling, - a Bridge of Ships will follow. Suppose we had spent for this Plan, the 12 Billions we gave to each, Russia, China and the Marshall Plan. We would now have an established, powerful, friendly Nation to our North, which is our Achilles Heel. Because they already have the Plants, Knowledge, Markets and Population they could accomplish in 5 years what we accomplished in 177 years. We have set the pattern. We could assist through Bond Issues and tie in with their economy. There are unlimited Water Power, and Natural Resources in Canada. The habitable area is greater than the United States. It would be well to have one unit of exchange. We

are in reality one and the same people. We can overlook each other's idiosyncrasies.

2. The Democratic Party could awaken to the fact that their fundamental interests are best satisfied by Monroe Doctrinism, -- America first, last, and all the time. They should realize by now that World Government and the One World Concept are not to their best interests.

3. The Bricker Faction in the Republic Party could bring Public Opinion to bear through the often mentioned Great Debate, Radio, Television, Education, Moving Pictures, as a means of reverting to our original Foreign Policy. We should express our wishes at the Polls, by careful selection of candidates for Legislative, Judicial, and Executive Offices. Constitutionally, Public Opinion should formulate the Policies, and not the "Hidden Ball Pay" of "12 men", representing off-breed Minorities, jockeyed into high places.

4. A financial crash for Uncle Sam or John Bull would bring into broad focus the realization that the New World is the Home Area of the English Speaking Peoples. If we had never meddled on Foreign Battlefields or in Foreign Conferences, Germany would be the Master Nation in Europe, China in Asia, and the English Speaking Peoples in the New World. (THE "THREE WORLD" concept, first published by the Writer in 1948.) If we will discontinue meddling now, the two Factions in Germany and China will join hands and throw out the Russian Bear. When Hitler reached the Channel, the SEVEN DAY LULL was the turning point in History. He could have readily caused the change of the Seat of Government from London to Ottawa by crossing the Channel. During the LULL it was within an Ace of Reality. He had made a Pact in 1939 with Stalin, however, he feared the Bear jumping on his back, so he about-faced. Our slow English Cousins are so engrossed in their Legends, they cannot see the handwriting on the wall.

5. One or two more Dunkirks and Koreas will bring the English Speaking Peoples to the realization that they have no dependable friends on the Continents of Europe and Asia. They will become many times more Powerful, living in the same neighborhood. In any city on Earth, you will find that people who think, talk, act, and worship alike segregate into neighborhoods. It is also apparent that authority is necessary for the maintenance of Peace, viz.-- the Municipal, State, and Federal Police Forces. For those reasons it is logical for England to follow in our footsteps and assist us in the maintenance of Peace in the New World under the Monroe Doctrine, the Pan-American Union and the Good Neighbor Policy. Then Germany and China will put their houses in order, and Russia can purge themselves behind their iron curtain. The writer first published this plan in 1938, visualizing the futility of World War I, and the possibility of World War II (entitled "What England Should Do"). In 1950 Time Magazine advised that Sir Francis Whittle is advocating a similar plan in Britain entitled "The Ship Might Not Sink". According to a Gallup Poll, 20 millions are willing to emigrate if given the opportunity.

This THREE WORLD Plan will not eliminate wars; however, it will reduce the possibilities of WORLD WARS to a minimum (three). Africa will remain neutral.

There will be Freedom of the Seas, Freedom of the Air, and Freedom of Trade because Europe and Asia need our business more than we need theirs.

If not, North and South America have vast, unexplored mineral resources and we have unlimited capacity for synthetics.

We will become a soft Nation of hypochondriacs if we live in constant fear of annihilation every day that the sun comes up. There are two Powerful, yet Antagonistic Ways-of-Life in effect in the

World today, however, both are aware of the impossibility of War as a means to an end, because of distances, areas, populations, inventive and productive capacities, and retaliation. Peoples come and go, but Principles, based on Truth, go on forever. In order for Ways-of-Life to propagate, it is necessary that peoples adopt them of their own free will and accord requiring generations of slow, steady processes. For that reason, Civilization is not yet ready for the One World concept, the Brotherhood of Man, the One-Way-of-Life, the Millenium. 177 years under the Monroe Doctrine, without a War in the Western Hemisphere, is ample proof that Civilization is ready for the THREE WORLD concept.

Fellow Americans, all we have to do is THINK. Think the matter thru, and express your OPINION to your Representatives in Washington and go to the Polls. We cannot legislate morals nor can we obliterate the off-breed minorities within our shores, but we can keep them out of high places by proper legislation. All we have to do is to exercise our God-given and Constitutional Rights to Think and Act for the welfare of our Home and Homeland, Fear Nothing, and have absolute Faith in our Way-of-Life Here and the Hereafter.

It would be an ideal state of affairs if the UN - EDC - NATO - SHAPE and all the other fruitless plans which have been tried, were successful. It so happens that they are impractical and/or too idealistic at this particular stage of civilization. It would be wonderful if Wilson's dream of World Leadership was workable. It so happens that we lack the capacity and facilities. The "Fireman" lacked the capacity to extinguish the first little flame in Korea. What would our Big Brass do if fires broke out in Trieste, Iran, Korea, Germany, South America, etc., simultaneously? It would be great if the Free World could ring or isolate Russia. It so happens that we tried and failed. It is not as if we did not engage in the Great Deviation or the Great Experiment, but the results of 36 years of Internationalism speak for themselves.

Today I saw America on the march. 8000 College Cadets passed in review. The Kremlin would like to see those boys plowed under Flanders Fields. If one of those birds of the Hiss-White-Greenberg feather would put his foot in College Station he would not have to open his mouth, those boys could smell him. Yet they can ply their wares in High Government Places, get promotions and congratulatory letters.

If only every citizen could have seen that collected determined look on those Cadets' faces. They represent the Flower of our Manhood, the leaders of the next generation. Everyone wears the same uniform, no fraternities, every one on the level, obligated to introduce themselves upon approach and to speak upon passing. They know only the Christian-Democratic Way of Life. They have not yet learned of weaknesses of the Human Being--Greed, Snobbery, Envy, etc. They do not know that Monied Interests, International Bankers, International Minorities, and Subversive Elements influence our Foreign Policy based upon ulterior motives, depending upon our Forces to carry thru. They do not know that we have no dependable friends in the World (England is our closest ally, yet we do not see eye to eye). They are not aware of the fact that they are under the jurisdiction of U.N. and not the Constitution.

Those boys do not yet realize that we are pulling the other fellow's chestnuts out of the fire in these continuous wars. They are entitled to full Information and their Constitutional Rights. We are not meeting them half-way, when we take advantage of their Loyalty, Spirit of Romance, and Unadulterated Youth by permitting their lives and destinies to be squandered by the Rat-infested United Nations, instead of by an Act of Congress.

Undoubtedly our Three War Presidents (W.W., F.D.R., H.S.T.) were loyal Americans, but they were Idealistic, Power Happy, and Incompetent, respectively. Undoubtedly they played into the hands of

the International Bankers and International Minorities, who are ANTI-EVERYTHING that we stand for. Whether or not they were influenced by Brain-Trusts, with too many Degrees, or whether the smart, subversive elements pulled the wool over their eyes, or whether they put Personal Grandizement, Personal Power, or Party, above the welfare of the Nation is immaterial and beside the point, the results speak for themselves. We are involved in a terrible dilemma, primarily from within, and to an extent far greater than we realize. It is later than we think, when we study the extent of infiltration since 1917.

The above War Presidents have wasted our Youth and Wealth, and we end up in the greatest jeopardy in our History as a result. They threw our substance to the Four Winds of the Earth, but those Boys' Wholehearted Love of Family and Homeland can never be plowed under, trampled under foot, or blotted out. Their Spirit will go on forever, and some day permeate the Earth.

Those boys are the "LAST WORD" in the American-Way-of-Life. They represent the Cream of the Crop. Unless they have ability and aptitude for leadership they are not accepted. They pull together as a Team throughout their College and Business Careers. Promotions are based entirely on merit. They believe and follow the Golden Rule. They have not yet learned that such factors as Politics, Ulterior Motives, Underhanded Tactics, Subversiveness, etc. are "on the loose" in the World. They closely resemble the Brotherhood of Man; and represent the sentiments of all American Youth. Without a word of resentment or fear they stake their lives for the protection of their Family, Home and Homeland. They deserve every protective measure at our command. We learn the TRUTH from the "Mouths of Babes".

While we are endeavoring to do the impossible in the International Field, without allies or cooperation, while our Presidents are playing Party Politics, while our Big Brass is playing Society, and England is stewing in the legendary juices of the 10th Century, our Citizenry has become smug, complacent, and drunk with false economy, and are oblivious to the fact that we are running headlong into the "Rise and Fall of Empires".

We are not in jeopardy from without, but we are from WITHIN.

While we have followed the Foreign Policy of Dreamers, Brain Trusts, Advisers to Presidents, Minorities (who are in effect Internationalists, yet want the benefits of Americanism), and Subversive Elements, we are being undermined, not only in Washington but in Columbia, Ecuador, Guiana, Argentina, Guatemala, and Port Arthur, Texas.

We have no one to blame but the Citizenry. We have ceased thinking and acting, thereby voiding Public Opinion, which is rightfully the foundation of our affairs, policies, elections and welfare.

We voted unqualified men as Presidents and Vice Presidents. Had we studied their backgrounds we could have foretold the results.

Henceforth, let's elect high officials based upon: (1) Made his mark thru own efforts from the bottom up, (2) Successful family man, (3) Overcame hardships and paid off mortgages, (4) Down to Earth regular solid citizen, with his feet on the ground.

Instead of sitting around waiting for something to happen, to jolt us into our senses, or to force us back to Monroe Doctrinism, it is preferable to start Thinking, Talking, Writing and Voting NOW.

Instead of lowering our dignity, by continually inviting nations to confer with us, (our instinct should tell us that they do not care to, that we could not come to agreement, and if so, it would be worthless), let's think this matter thru, demand the Great

Debate by Congress, weigh all of the advantages and disadvantages in the balance, come to a definite conclusion as to whether we should retain our International Foreign Policy or return to the Defense of the Western Hemisphere. Then let's unite, put all shoulders to the wheel, in an all-out effort, to place America in her rightful place under the Sun.

Undoubtedly we will ultimately decide to recreate the "Invincible New World", with the "Big Stick".

We should put the U.N. outside of our Home Area; return our Troops from the Continents of Europe and Asia; pull out of EDC - NATO - SHAPE, etc.; call off any further Conferences; adopt the Bricker Amendment; revise the Fifth Amendment; devote our attention to the Good Neighbor Policy; reinforce our First Line of Defense; make our own plans with Dignity and Determination; and let the rest of the World solve their own problems. The other Nations will respect us, and will be awed by our might, wealth and authority. As it is, we are dangling like a Puppet, to the Strings of the U. N. and Rhee; abiding by the whims of Moscow and other Capitols as to whether or not they wish to (or intend to) do this or that. In the field of Diplomacy and Foreign Conferences, we have come out the Loser every time. As soon as we quit meddling in Foreign Affairs, the two factions in Germany and China will join hands, tell the Bear to go home, from the European and Asiatic Good Neighbor Policies and become the Master Nations in their respective Spheres of Influence -- the "THREE WORLD" concept.

When we realize the enormity and rapidity of the growth of the Communist Camp (600 Millions today), it shows up in broad focus that our Foreign Policy has been aiding the enemy. We were amply warned by Hess that we should not align ourselves with the Scourge of the Universe, which was created and propagated by a Minority Element, (the same Minority Element which plans to overthrow our Government).

We were amply warned by Chiang Kai-shek that the Chinese War Lords were not Agrarian Farmers. We now know that Russian Sympathisers advocated the de-militarization and de-industrialization of Germany and China by establishing Farming Communities.

That same Minority element has secured control of France, Italy, several South and Central American Countries, and have made considerable headway in Britain and America. What have they to offer to attract certain elements of our society, even a few American soldiers? They have no wealth, religion or standard of living. The Poor and Ignorant class are susceptible - "what have we got to lose". The Youth is a target thru the Schools and Churches. Many over-educated Citizens become atheistic and naturally follow their lead. (Birds of a feather flock together.) The Minorities are push-overs because of being oppressed Outcasts. Many swing over because of Snobbery and Egotism of our Elite. Many fall in line because of the mutual Hate for the Germans. Some were sold on Communism as the only solution to the ills of the world, some because of frustrated homes and class hatred.

They were unable to get a toe-hold in Germany. Why? Because the Germans are rugged, individualistic, Nationalistic, God-fearing peoples, with a background of many generations of pure Caucasian Blood. That Minority Element and the atheistic Russian Slavs, hate and fear the Germans worse than a rattlesnake; thereby aligning them in the same camp. This alignment was cemented tighter when we changed Russia from friend to foe, and Germany from foe to friend. They plan to Mongrelize the Caucasian Race with the Yellow, Brown and Black Races, if the opportunity presents itself. However, the Asiatic Hordes cannot compete with Brains and Modern Warfare.

The English speaking Peoples are First Cousins of the Germans and proud of them. Rather than knock them down TWICE, we should

have been fighting with them shoulder to shoulder or at least remain Neutral. They were fighting for their rightful supremacy in the European Sphere of Influence because England had lost her Balance of Power on the Continent. England would have been forced into the Western Hemisphere. The Germans made another bad decision when they designated Japan, instead of China, as their Ally, and Master Nation in the Asiatic Sphere of Influence. Like Britain, Japan has no room for expansion on the Isles.

What can we do about it? We are too humane to use Hitler's tactics. We alone are to blame for bringing the off-breeds to our shores; we have to live with them and make the best of it.

It is not in accordance with the teachings of the Master to hate or annihilate any of God's children. The Constitution gives everyone within our shores equal opportunity and privileges. However, we can surely select our friends and neighbors, and maintain the principles and purposes for which we came to the New World. Thousands of years of amalgamation and fraternalization will ultimately absorb the Minorities into the Race. Until then, they will be happier and we will be happier if we will devise means to keep them "out of our hair" - probably separate facilities will solve the problem.

Some think, "It can't happen here". There is no use "crying over spilt milk" - however, considerable, and valuable information has been stolen and placed in the hands of our enemies. We have no fear from this source because we can conceive new ideas and put them into effect in greater quantities than they can. We don't need to steal from anyone.

We are in jeopardy from WITHIN. If and when it reaches sufficient proportion to overthrow our Government, whether in this or subsequent generations - upon awakening the next morning, we will find the majority of the Minorities, Aliens, South and Central Americans, Off-Breed and Off-Color Factions (now "basking" under the American Banner) glaring at us from the camp of the enemy.

Who is to blame for this situation? YOU and I. We voted weaklings into the Three Branches of Government, who were so engulfed with personal power, that they permitted this Great Nation to drift from the original tenets and purposes for which it was formed. Instead of Public Opinion running the Government, the Government is running us.

So let's settle down to some serious Thinking, Voting and Acting.

We will find that the advantages of Nationalism far surpass those of Internationalism.

Therefore, it behooves us to elect Government Officials of the Nationalist Background and Perspective. Then give all our effort to putting our House in Order.

History will repeat itself - there will be Wars and Rumors of Wars - Empires will Rise and Fall - we will have economic cycles of Inflation and Deflation -- WHY?

Because civilization is far afield from the teachings of the Master - the Golden Rule - the Brotherhood of Man. The Human Being has inherent weaknesses of Greed, Egotism, and the desire to Over-Indulge, Over-Spend and Over-Speculate.

The Economic cycles and Domestic Trends are immaterial, in fact, they are healthy for our well-being. If life were a Bed of Economic Roses we would become a Nation of Softies. In fact, to be born with a "silver spoon in your mouth" or to ride thru life on someone else's coat-tail, or on the payroll of an Institution or Government, produces an individual with an "up-in-the-clouds" per-

spective. You and I are to blame for not selecting our officials properly and for not thinking the matter thru, and for not expressing our views to our Representatives in Government.

Henceforth, if we will elect only Rugged Individuals, who came up thru the Stations of Life, by their own bootstraps, our Ship of State will get on an even keel.

Remember T. R. and the Real Americans who punctured W. W.'s League of Nations Balloon? Where were those Americans of this Generation, when Hiss, Adlai, Stetenius, and Co. stuffed the same Balloon (U.N.) down our throats?

We have squandered the Flower of our Manhood in Three Wars under a Foreign Policy of Internationalism, based upon Greed, Egotism, False Premises, pulling the other fellow's chestnuts out of the fire, and protection of exploitations by the International Bankers. If the women of America were aware of same, the softies in Washington would be besieged by Cyclonic Action. The American Woman has no ax to grind, no Boss to set the pattern, no ulterior motive, and no gag.

When we realize the encroachment of Zionism, Communism, Socialism and all other "isms" since Fateful 1917, in our Home Area, in our Government, and in our Way-of-Life, we can visualize what it will be 36 years hence, unless we change our Foreign Policy to its original status.

Look back thru our History. Whenever the Federal, State and Municipal Police Forces were not adequate to cope with situations, the Citizenry would take the matter in their own hands. Remember the Vigilantes? Remember the Black-Hands in New Orleans? Remember after the Civil War, when the South was destitute, the Carpetbaggers turned the affairs over to the Negroes, and the K.K.K. recaptured same? Those situations, and in fact all of our ills, stem from Minorities. Unless the Federal Government manages the affairs of State in a better manner, we will experience a big swing back to States Rights and pressure from the A.L.-V.F.W.-M.N.-S.A.R.-D.A.R. and other Patriotic Organizations.

The above situations are "child's play" compared with our present dilemma. The Minority that has undermined our Constitution and Way-of-Life is not only vast in scope, and definite in plans, and successful in procedure for 105 years; but they have brains, they take advantage of weak spots in the Constitution, and have gotten control of our Wealth, Propaganda, and Industries.

What are we going to do about it -- THINK, VOTE, TALK, WRITE and FIGHT, for AMERICA -- FIRST, LAST AND ALL THE TIME.

While we are living off of the fat of the land, under a pre-meditated false economy, oblivious to the fact that we are riding for a fall, they are organizing all Minorities, Laborers and Lower-Salaried Employees. Think of the ratio in numbers -- the Haves against the Have-Nots.

While we are building Television Net Works, they are building Radar Net Works in Russia.

As citizens, we are obligated to think the matter thru individually and act accordingly. There is no such thing as the "middle of the road". It is not to your best interests to "let George do it". Your elected officials are no better qualified to think than you are - as expressed by Senator McCarran, "I am sure I will regret to my dying days that I ever voted for the United Nations Charter."

While busy on other matters our Representatives in Washington did not read the "FINE PRINT" in the U.N. Charter. They undid what it took us 169 years and MANY WARS to do. The Internationalist

Framers of the U.N. took advantage of a loop hole in the Constitution: "ALL TREATIES shall be the Supreme Law of the Land". They hoodwinked and soft-soaped us into ratification of the most outlandish TREATY ever perpetrated upon this Nation. The U.N. supersedes the Constitution. TREATIES and EXECUTIVE AGREEMENTS made in International Affairs now govern our Internal Affairs.

The Bricker Amendment will protect our Constitutional Rights against, and prevent recurrence of, such drastic matters as the following:

1. Korean War (so-called Police Action) - Only Congress can declare War -- not H.S.T. alone.
2. Six Divisions to Europe, without the approval of Both Houses (again H.S.T. alone).
3. Such secret, far-reaching and disastrous Executive Agreements as Teheran, Yalta and Potsdam.
4. Approximately 200 Treaties now drafted, or in the process of being drafted, in the U.N. to further usurp our Constitutional Rights and undermine our Way-of-Life.
5. Any one or more of the following UN-AMERICAN "dead horses" could be resurrected from the closet:
 - A. Lend-lease
 - B. Marshall Plan
 - C. White Paper
 - D. Morgenthau Plan
 - E. Baruch Proposal
 - F. Genocide Convention
 - G. International Covenant on Human Rights

The basic issue confronting us today, is simply the issue of the kind of Government under which the American people wish to live. Regardless of whether you consider the uneasiness, fear, turmoil and jeopardy in our affairs of a Religious, Economic, Social, or Physical nature the alignment is the same, the effect is the same, and the same solution will cure all. There is no such thing as "Middle of the Road" -- "straddle the fence" -- "Play both ends against the middle" -- or, "Blow Hot and Cold" -- get on one side or the other as follows and give it "all you've got":

Christ	vs.	Anti-Christ
Republic	vs.	Totalitarian State
Government of Law	vs.	Government of Men
Constitutional Government	vs.	Government of Unrestrained
of Restraint	vs.	Executive Power
Government of, by, and for	vs.	Government of, by, and for a
the people	vs.	Dictator
The Individual	vs.	The State
Haves	vs.	Have-nots
Freedom	vs.	Slavery
Nationalism	vs.	Internationalism
Monroe-Doctrinism	vs.	Aggression
THREE WORLDS	vs.	ONE WORLD
Isolationism (1/3 of		
Earth's Surface)	vs.	Interventionism
Strength thru Good-Neighbor		
Policy	vs.	World wide spending of Substance
Big Stick Policy in the		
Home Area	vs.	Policy of Aggression Abroad
Truth, Reason and Justice	vs.	Force, Fear and Reward

So what can the individual citizen do?

1. Study the matter from all angles so that you will know where you stand, so that Public Opinion will run the show.
2. If you wish to cast your lot with Monroe Doctrinism, Jeffersonian Democracy, and Christian-Americanism:
 - A. Impress upon your Representatives the importance of passing the Bricker Amendment.
 - B. Advocate revision of the Fifth Amendment.
 - C. Advocate not alone firing, but putting out of circulation forevermore any so-called American Citizen who is unwilling to so proclaim.
 - D. Advocate resignation from the United Nations.
 - E. Advocate Air Power as our Big Stick.
 - F. Invite your English Cousins and Business Associates on the Isles to join us in the New World for Economic, Social, and Protective Reasons.
 - G. Go to the Polls and elect Solid Citizens to represent us in Government.
 - H. Be on the alert for Subversive Rats who are organized to overthrow our Government as they have done for one-third of the World's population to date.
 - I. The Home under the Guidance of the Church is the backbone of the Nation. Keep it inviolate.
 - J. By means of the Ballot, replace Pompousness, Greed and Party-Power-Politics with Humility, Dignity and Peace.

We have been asleep; we have become complacent; we are not familiar with the issues; we are not aware of what is going on --
WAKE UP, AMERICA.

Constructively yours,

THREE WORLDS

Conclusion:

Could there be any doubt in anyone's mind that we have been "pushed around" since fateful 1917 by the same minority element which overthrew the Russian Government, when we consider the following un-American Activities:

1. Federal Reserve Act. It is not a Federal protective agency as the name implies, but a Private Corporation of International Bankers.
2. Discontinuation of the Constitutional right of Congress to print our money.
3. Instead we issue Bonds and pay interest to the International Bankers.
4. Spy Harry Dexter White in powerful Treasury Post, Monetary Control, and Dumbarken Oaks.
5. Unsound Keynes theory of manipulated currency.
6. Graduated Income Taxes to kill initiative and Free Enterprise.
7. Encroaching Socialism.
8. Printing of US money by Russia, in Russia, with US plates, ink and paper.
9. Lend-lease, Marshall Plan, etc. designed to bleed us white financially and at the same time strengthen Russia.
10. Foundations controlled by International Bankers.
11. Packing of the Supreme Court.
12. Side-tracking of Congress.
13. Glorification of labor leaders.
14. Promotion of financial and military crises for personal aggrandizement, as well as to usurp our Constitutional Rights.
15. Whitewash of the Amerasia Case.
16. Middle East Policy which alienated 400,000 Moslems, Hindus and Arabs.
17. The "White Paper" and "Agrarian Farmers" which changed 400,000 Chinese from friend to foe.
18. The Morgenthau Plan to de-militarize and de-industrialize Germany, our rightful friend, relative, and the Outstanding Nation of Europe, by division into farming areas.
19. The Nurnberg Trials gained us nothing but hatred and set a dangerous precedent.
20. Propaganda thru Schools, comics, motion pictures and T.V.
21. It was not to the best interests of America to deviate from the Monroe Doctrine as laid down by our Founding Fathers and under which we prospered like no other Nation in History. When we launched into Interventionism we met our Waterloo. It now appears that we were "pushed" into World Wars I and II as well as the Korean Police Action by the said Minority Element and/or International Bankers as a means of strengthening USSR while weakening U.S.A., with one purpose in mind - Overthrow of Government.
22. Sell-outs and Give-aways at Potsdam, Yalta and Teheran.
23. Permits the hiding behind the 5th Amendment.
24. Suave Salesmanship, and ambiguous language in the "fine print" caused ratification of the U. N. charter by a "half-asleep" senate as well as Public. Nine years later we are awakening to the fact that we have signed away our Birth Rights. The same minority element (A. H. & Co.) wrote the charter, with one thought in mind - Overthrow of Government.
25. Genocide Covenant.
26. Covenant of Human Rights.
27. Opposition to the Bricker Amendment which restores the Constitution as the Law of the Land, and prohibits future Yaltas.
28. Opposition to McCarthy, Jenner and Velde, who are successfully routing the rats.
29. Opposition to MacArthur and his Plans-an Outstanding American, of enormous dignity, capacity and integrity.
30. Making of loans to so-called Ally, who traded with the enemy during wartime, while Uncle Sam was carrying 19/20ths of the

62-96648-3

load. It is difficult to reconcile how and why Ike's right-hand-bower (J.F.D.) could be for Numbers 25, 27 and 30 not so long ago, whereas today he has reversed his stand regarding Numbers 25 and 27. Our policies seem to have no definiteness of purpose. We are entangled in a state of confusion beyond the comprehension of Public Opinion.

31. Infiltration of South and Central America.
32. Typical of the change of American viewpoint from 1917 to 1954 is the Great Henry Cabot Lodge and his grandson. Civilization just does not change that fast, and Principles based upon Truth never change. The former killed the League of Nations, the latter runs the United Nations. The former is of the Taft-Bricker school of thought, the latter of the Dewey School. The former would have voted for the Bricker Amendment and the latter against it. Jr. wishes to continue Yaltas, Teherans and Potsdams without ratification by Congress. Jr. wishes U.N. to be the Law of Our Land, superseding the Constitution. Jr. wishes to get out of Politics "I have had enough of it", whereas Sr. stayed right in there and pitched until the end. The Democrats follow the "hook" of the Internationalists, oblivious to consequences, so long as their high standard of living is maintained by the false economy. All you have to do is look around and study the Caliber and Nationality of the audience during meetings of the two schools of thought at any level. This is the Great Debate. We are all in the same boat. We will all sink or swim together. Study the issues. Know where you stand, and express your Opinion, in accordance with your Constitutional Rights, to your Representatives in Government, and at the Polls.
33. The F.B.I. files are closed even to Senate Investigating Committees. The Supreme Court is so-called Liberal. Our Washington Representatives are playing Party Politics. Our Citizenry is bewildered, smug, and willing to let "George do it". We can only read between the lines and judge by results.

You can rest assured that the so-called Americans, who hide behind the 5th Amendment are smart, awake, boring continuously.

We are unaware as to the extent of their headway, but based purely on results, in our Domestic and Foreign Affairs, as well as the fact that approximately one half of the World's population is under their influence, it is reasonable to believe that "it is later than we think".

It should behoove us to sit up and take notice and change our policies to the welfare of America, first, last and all the time.

Solution:

1. Disengage ourselves from all foreign entanglements, commitments, treaties, etc.
2. Dispose of all Rats who advocate overthrow of our Government.
3. Withdraw our Troops and supplies into the Western Hemisphere Perimeter.
4. Devote our attention to the building of Trade and Good Will under the Good Neighbor Policy.
5. Develop the natural resources of the Western Hemisphere.
6. Create the largest and strongest Amphibious Air Force (with A and H Bombs) in the world.
7. Build Radar Net-works and Guided Missiles so that there will never again be a "Pearl Harbor".
8. Every Plan requires action. The action of this Plan is to HIT FIRST with a KNOCK-OUT if and when we deem it imperative and to our best interests to do so.

Fellow Americans:

Would it surprise you to know from facts and/or circumstantial evidence, that You are not what you think you are; the Law of the Land is not what you think it is; the Lives of our Sons and Wealth of our Nation have been uselessly wasted for Purposes other than what you think; through the stealthy, premeditated connivances of a certain Minority Element, (hereinafter designated as INs. - INTERNATIONAL NOMADS), who advocate the Overthrow of our Government. The same, INs. who "took over" Russia, China, and many other Nations comprising one-half of the earth's population, as of now.

It is the culmination of a well thought out plan, laid down hundreds of years ago, by oppressed Peoples without a Homeland, for World Domination through infiltration, subversion, chaos, unrest, revolutions, wars, depressions, division, etc.; based on the hypothesis "If we can control the money of any Nation, we care not who makes the laws".

The U.S.A. was a Paradise, under the Constitution, Declaration of Independence, Bill of Rights and Monroe Doctrine. The greatest documents of Government and Way of Life ever conceived by man. They are based upon the teachings of the Master; and interlaced with Principles formulated in the minds of men, thousands of years ago. Our Forefathers came to the New World and fought TWO WARS in order to preserve same for us.

Up to that Fateful Day of Infamy when we opened our doors to indiscriminate alien emigration, no man commanded more Freedom, Dignity, Humility, Respect and Power than the Christian Citizen of the American Republic. All of our Ailments stem from that DAY and are caused by that Group. That was the beginning of the "Fall of Washington". There is only one issue involved, should we relinquish our American Heritage, and adopt the ONE WORLD, ONE CITIZENSHIP Concept of the INs. Henceforth, we should permit only those with favorable backgrounds to enter our shores, and not permit them into "High Places" until the fourth generation.

They shackled us with the Federal Reserve Act in 1915, bled us white with Three Unnecessary Wars, while making their Puppet (the Sleeping Russian Bear) a World Power; put on the strangle hold at San Francisco in 1945; Stabbed us in the back in FIVE Foreign Conferences; then with their bellies full and draped with the Star Spangled Banner they put on their Fifth Amendment Masks.

NOT RECORDED

Today, the U.N. is the Supreme Law of the Land and you are a Citizen of the World. We signed away all of the above, with one stroke of the pen. We have become a Part of an Idealistic Dream, the pre-mature Millenium. Civilization is not ready for the One World Concept, but can and will adopt the Three World Concept.

Germany is the mortal enemy of the INs. WHY? Because the Germans are the Strongest Peoples Nationally on the Face of the Earth. They are Christian Caucasians, with generations of Historic Culture and Accomplishments. They are the ONLY Peoples who would not sell out

their Birth Right to them (Germany was their test case in 1848). We were amply warned to not become involved in World Wars I and II. Germany was merely asserting her rights as the Leading Nation in Europe as we did in the Western Hemisphere under the Monroe Doctrine.

They next found a fertile field in destitute, ignorant Russia, after learning that the stern character of the pure German people, would not submit to their Isms and Tactics.

They financed Wilson's election with the understanding that he would ratify the FEDERAL RESERVE ACT. There is nothing Federal about the F. R. Act; there is nothing Reserve for Uncle Sam; and it is the most Insidious ACT ever perpetrated. It is a PRIVATE CORPORATION, created by and/or interlocked with the House of Rothchild, the Fabian Society, and the International Bankers. By reason of the fact that they control our money, they are more powerful than the Legislative, Judicial and Executive Branches of our Government so long as we have weak sisters in the President's Chair, i.e., Presidents who need ADVISORS and the HOT AIR of the PRESSURE GROUP to inflate their ego. With the F.R. Act and the U.N. in effect our position will never improve, but our American Way-of-Life will continue to deteriorate until eventually it will be lost forever.

In accordance with the Constitution, we should print our own money; establish our own credit and monetary evaluations based on Gold and/or Silver. Instead we issue Bonds and borrow money from the INs. We have nearly bankrupted ourselves and played into their hands through interest and principal required to finance their premeditated Wars, Depressions and Doles.

They financed and abetted the Russian Revolution in 1917 and turned 180 Million God-Fearing People into an Anarchistic, Atheistic State. They apparently influenced W.W. and F.D.R. off of the Monroe Doctrine, onto Globaloney as a means of causing Christians to fight Christians to accomplish three purposes, viz, (1) weaken ourselves to hasten the Take-Over; (2) strengthen themselves and their puppet (Russia) by abstaining; and (3) liquidation of their nemises (Germany, our First Cousin).

Likewise, they jockeyed us into a Third War with another God-Fearing Nation, China, our rightful friend and ally, by means of the so-called U.N. Police Action.

They are Anti-Christian, Anti-American, Anti-Republican, and Anti-Everything for which we stand.

They manipulated in the 1929 Crash, to foster their cause, by withdrawing money from circulation.

They wrote the U.N. Charter and had it ratified while we were basking obliviously in a false economy and the Senators overlooked the fine print. Senator McCarran said "I will regret to my dying day, ever ratfying the U.N.Charter". They found a loop-hole in the Constitution, "All Treaties shall become the Supreme Law of the Land".

They sat between FDR, HST and Uncle Joe at Yalta, Teheran, Pottsdam, Bretton Woods and

Dumbarken Oaks and engineered the SELL OUTS.

They wrote the UNESCO, Genocide Covenant, Convention of Human Rights, and 200 other bills designed to reduce us to Serfdom. They want all of the benefits of our way-of-life, yet hold allegiance to another Flag.

They Termitted into high Government places and transmitted our most valuable inventions and information to our enemy. They transmitted Plates, Paper and Ink to Russia for printing of American Dollars. They connived the Keynes theory of manipulated currency. They use Communism and Socialism as a means to an end. They have demolished all Churches of Christendom in Russia and their Satellites. They eliminated GOD from the U.N. They administered three Eleven Billion Dollar Gifts to each, China, Russia (Lend Lease), and Europe (Marshall Plan). They control the Mammoth Tax Free Foundations. They packed the Supreme Court and Side-tracked Congress. They glorified the Labor Leaders and turned all off-breed minorities against us. They whitewashed the Amerasia Case. They formulated the Middle East Policy to alienate 400 million Moslems, Hindus, and Arabs. They wrote the "White Paper" which changed 400 Million Chinese from friend to foe. They evidently planned the Nurnberg Trials for spite, because we gained nothing except the establishment of a bad precedent. They concocted the un-American Morgenthau Plan and Baruch Proposal. They control Motion Pictures, T.V., Radio and News Syndicates as propaganda media. They have accomplished a purpose of considerable magnitude by causing us to "plow-under" the Flower of our Manhood in Three successive wars in one generation, thereby placing the burden of running our affairs onto "broken-down" shoulders.

They advocate the lending of our money to Nations who trade with our enemy while our Soldiers are dying on the field of Battle.

They oppose the Bricker Amendment, Joe McCarthy and all other activities designed for the best interests of America. How could IKE be so naive, to criticize McCarthy and Manion, on matters so close to the hearts of the Citizenry? Why don't you speak for yourself, Mr. President?

They infiltrate South and Central America in our Home Area, while we are spending our substance in the Great International Experiment as the World's Financier, Policeman, Fireman, and Breadbasket.

We have nothing to fear from WITHOUT, but it is later than we think from WITHIN. Based entirely on the record it should behoove us henceforth to be Extremely Careful in voting at ALL LEVELS. Because of the backgrounds of our Presidents (viz, Professor, Silverspoon, Pendergrast and Military) they have not had the perspective of a well-rounded solid citizen, with the ordinary run of the mill responsibilities, mortgages, and success through individual thought and effort. We voted for colorful Personalities instead of the Real Americans, -Hoover, Taft, Bricker, and Nixon. F.D.R., HST and A.S. followed along in W.W.'s Dream of World Domination

because they were Idealistic, Power-Happy, Party-Mad. The INs. were quick to see that the Democratic Foreign Policy was playing into their hands (if not fostered by them). To make doubly certain, they ran a ONE WORLDER on the Republican ticket every four years (viz, Landon, Wilke, Dewey and Ike). Our Actual Presidents have been E. M. House, Harry Hopkins, Bernard Baruch, and Sherman Adams. Half of our population have "followed the leader" for 37 years in this International Experiment in Foreign Policy oblivious of the fact that the Fellow Travelers are in the same Rut.

Throughout History, whenever situations get beyond the control of Government, the People take over. Remember the Vigilantes, Black Hands, K.K.K., Hitler, etc. It seems as though all stem from Minorities. If the Federal Government does not pass Legislation to preserve our Constitutional Rights, the States will begin to assert their Rights.

It so happens that the German People did not put into power a typical German when they elected Hitler. He was not well balanced and corresponded to our Capone. If he had have been half-smart, he would not have stated "All Russians are my enemy" when he crossed the line. If he had announced that "he was headed for Moscow to clean out those INs. the Russians would have welcomed him with open arms, and marched with him. If he had designated China instead of Japan as the Rightful Leader of Asia, there never would have been a Pearl Harbor or a Stalingrad.

The turning point in History was the seven DAY LULL when he reached the channel. Had he gone across, the Seat of Government of the British Empire would have immediately moved to Ottawa, and World Affairs would have been settled for generations. Germany, of the Bismark Clique is the Rightful Leader of Europe, China of Asia, and the English Speaking Peoples of the Western Hemisphere. Thereby, the possibility of World War would be reduced to a minimum - THREE. If we will now mind our own affairs, the TWO FACTIONS in Germany and China will join hands, tell Bear to go Home, and adopt Good Neighbor Policies similar to our own. Our Home Area comprises the Western Hemisphere Perimeter. Our First Line of Defense is the Strings of Islands off the Coasts of Asia and Europe - Attu, Japan, Philippines, Formosa, New Zealand, Australia, Iceland, British Isles, etc.

All of our brains and resources should be devoted to AVIATION. We should build the greatest and most effective Amphibious Air Force in the World, with the largest stock-pile of A and H Bombs and Guided Missiles. Footsoldiers, Battleships, Airplane Carriers, Tanks, Occupations etc. are just as outmoded as the bow-and-arrow. Furthermore, the heavy landing gear, expensive runways, and vulnerable air-ports can be eliminated by designing planes light enough and strong enough to land and take off from the Lakes, Rivers, Harbors, and Oceans. We now know that Billie Mitchell and Lindbergh were right, but were Crucified by the INs. We now know that Hiram Johnson, Burton K. Wheeler, et als, were right when they Killed the League of Nations. Our Policies seem to be "Close the door after the horse has left".

What is the solution to our Dilemma:

1. Repeal the Federal Reserve Act.
2. Withdraw from U.N.-E.D.C.-N.A.T.O.-SHAPE and all other Foreign Entanglements.
3. Pass the Bricker Amendment.
4. Repeal the Fifth Amendment.
5. Finger-print and Boycott those who advocate or belong to organizations that advocate overthrow of Government. They will wither like leaves on a vine and depart from our shores. The Boycott is now on our foot, we are gagged, lest we lose their Advertising, Business, or get our Loan Called.
6. Move the Seat of Government of the British Empire from London to Ottawa. Also move the essential industries and population from the Isles to Canada. This plan was first advocated by the writer in 1938 "What England Should Do" and rededicated in 1941 as a Post-War Plan, "The Invincible New World". It is natural for peoples who think, act, and worship alike, to live in the same neighborhood for Self-Preservation, Power, and Happiness. That will be the best Shot-in-the-Arm to stem Depressions. The first boatload will start the "Bridge of Ships". Retain the Isles as an Aviation Base.
7. Withdraw Troops and Technicians to the Western Hemisphere Perimeter (Comprising one-half of the Earth's surface - we will have our hands full administering same).
8. Devote our efforts to the building of Trade and Friendship under our Good Neighbor and Pan-American Policies.
9. Develop all resources of the Western Hemisphere.
10. Rout out all of the INs. who have infiltrated South and Central American Countries.
11. Duplicate facilities for Minorities who will not assimilate and fit into our way-of-life or who we feel have not yet progressed sufficiently to be accepted as social equals. They are here to stay. We have no one to blame but ourselves. Even though costly, it is the only way to get them out of our hair.
12. Think, Act, Talk, Write, and Vote to the best and fullest of our ability.
13. We came over here for a Purpose. Unless we get back to that Purpose, you will also be a "Man Without a Country". Revise the Emigration Act with proper screening. It opened the door to 241,000 more last month. Why? Because of pressure brought to bear by the INs. His "Middle of the Road" policy is not in the cards. Eventually he will have to get on the Bricker or the Dewey Bandwagon. The citizenry is entitled to know definitely whether he is a Nationalist or an Internationalist.
14. Create and maintain the Greatest Air-Force (with stockpiles) in the World. As T.R. said "Talk softly but always keep the Big Stick".
15. Build Radar Net-Works and Guided Missiles, so that there will never again be a Pearl Harbor.
16. Every Plan requires ACTION. The ACTION of this PLAN is to be ever alert and prepared not only for Retaliation, Ten for One; but to HIT FIRST with a KNOCK-OUT, if and when we deem it imperative, and to our best interests to do so.

If you are undecided as to where you stand, you may rest assured that the smart crafty INs know which side their bread is buttered on. The basic issue confronting us today, is simply the issue of the kind of Government under which the American people wish to live. Regardless, of whether you consider the uneasiness, fear, turmoil and jeopardy in our affairs of a Religious, Economic, Social, or Physical nature the alignment is the same, the effect is the same, and the same solution will cure all. There is no such thing as "Middle of the Road" -- "straddle the fence" -- "Play both ends against the middle" -- or, "Blow Hot and Cold" -- get on one side or the other as follows and give it "all you've got":

Christ	vs.	Anti-Christ
Republic	vs.	Totalitarian State
Government of Law	vs.	Government of Men
Constitutional Gov. of Restraint	vs.	Gov. of Unrestrained Exec. Power
Gov. of, by, and for the people	vs.	Gov of, by, and for a Dictator
The Individual	vs.	The State
Haves	vs.	Have-nots
Freedom	vs.	Slavery
Nationalism	vs.	Internationalism
Monroe-Doctrinism	vs.	Agression
THREE WORLDS	vs.	ONE WORLD
Isolationism (1/2 of Earth's Surface)	vs.	Interventionism
Strength thru Good-Neighbor Policy	vs.	World wide spending of Substance
"Big Stick" Policy in the Home Area	vs.	Policy of Aggression Abroad
Truth, Reason and Justice	vs.	Force, Fear and Reward

Constructively yours,

THREE WORLDS

Mr. American Dupe:

*Key to abbreviations

Permit me to appeal to your sense of reason, before it is manipulated, pre-meditated false economy, everything appears to be a bed of roses; hair down for a few minutes, analyze the manifold issues as well as results of monces, and you will find that our WOL is being slowly undermined and snuffed out from Within. Let's think this matter through to a logical conclusion. We are in the same boat. We all have the same purpose in life - the preservation of Family, Home, Church, Estate and Government.

Prior to our Date of Infamy, December 23, 1913, when the ITS gained control of our affairs through the FRA this Nation was divided horizontally into a Two-Party System, by the Mason-Dixon Line; Republicans to the North and Democrats to the South. Those two parties have actually ceased to exist. Today this Nation is divided vertically into a Two-Party System - Conservatives to the West and Liberals to the East, as follows:

Conservatives	vs.	Liberals, Progressives, Communists and AACs
Citizen of US	vs.	Citizen of World
Christ	vs.	Anti-Christ
Republic	vs.	Socialistic
Government of Law	vs.	Government of Men
Constitutional Gov. of Restraint	vs.	Gov. of Unrestrained Exec. Power
Gov. of, by, and for the people	vs.	Gov. of, by, and for a Dictator
The Individual	vs.	The State
Have	vs.	Have-nots
Freedom	vs.	Slavery
Nationalism	vs.	Internationalism
Monroe-Doctrinism	vs.	World Leadership
THREE WORLDS	vs.	ONE WORLD
Hemispherical Isolationism	vs.	Interventionism
Strength through Good-Neighbor Policy	vs.	World wide spending of Substance
"Big Stick" Policy in the Home Area	vs.	Policy of Aggression Abroad
Constitutional Government	vs.	U. N. Government
Constitutional Rights	vs.	U. N. Rights
Right Wing	vs.	Left Wing
America First	vs.	World First
Capitalism	vs.	Communism
Free Enterprise	vs.	Socialism
Red.Blooded Americans	vs.	Dupes, Morons, Minorities and Sympathizers
Anti-Administration	vs.	Administration
President of U.S. under Constitution	vs.	President of the World under U. N.
Democracy	vs.	Totalitarianism
Americanism	vs.	Globolony
Truth, Reason and Justice	vs.	Force, Fear and Reward

Regardless of whether you consider these recurrences, Religious Wars, Economic Wars, or Wars based upon diametrically opposite Ways of Life, the above alignment is the same. Depressions are the necessary result of over indulgence and are healthy, but Wars are useless, and can be curtailed by adopting the THREE WORLD plan outlined herein.

The writer holds no ill will against any of the Lord's Children, regardless of Race, Creed or Color; however, these remarks are aimed at the Invisible Conspiracy, the "12 men" who have been running this Country for 41 years and let the chips fall where they may. We will not tolerate Treason. Unless we wrest from them the control of our Domestic and Foreign affairs, and place same in the hands of Congress, Supreme Court and Executive Department with proper checks and balances as prescribed by the Constitution, we will experience the Fall of Washington as surely as the Sun will rise tomorrow morning. You may consider it "shooting in the dark" to pin point the roots of our cancer within the FRA and "wishful thinking" to state that all of our Wars, Depressions, and UnAA stem therefrom. However, I can assure you that it is not an impulsive decision. It is the culmination of sixteen years of exhaustive study of the Congressional Records, Histories, Constitution, Bill of Rights, Monroe Doctrine, Treaties, Foreign Conferences, "Witness", "Out of Bondage", "Web of Subversion", "Lightning Over the Treasury", as well as the lives and concepts of such Great Americans of this generation as Hoover, Taft, Bricker, Billie Mitchell, Lindbergh and Wheeler as compared to WW, FDR, HST, ADLAI, Willke and Dewey. This treatise is a concise correlation of all important facts pertaining to the affairs of this Nation in order to arrive at a definite solution for our sad state of affairs. It is not only a study of the facts; it is reading between the lines; a study of who instigated the plans and the results thereof; a study of motives. After dove-tailing and weaving the unexplained facts, motives and concepts into a composite picture, the solution was arrived at by logical deduction,

based upon truth, reason and justice. Everything in the picture; in the maze of UnAA; in the web of subversion; points directly to the FRS, predicated upon the hypothesis, through the control of the money they control the policies of the Nation!

The intent of the above alignment is not to brand all Administration advocates as Liberals and all One-Worlders as Anti-Christers; but you may rest assured that the reverse is true. Just in case you are confused and not certain as to your concept, place yourself in each shoe on both sides of the fence, evaluate yourself on each issue listed on Page 1, then total your own score. Never be side-tracked by the Communist Brain-Washers, who are the Fifth Columnists in this Country today.

You may be assured that our Invisible Enemies are not confused. They are better posted and smarter than we are. Since a Handful of men overthrew the Russian Government in 1917, they have corralled two-thirds of the World's Population into their orbit, evolved their Puppet into a World Power, the Scourge of the Universe, without firing a shot (relatively). In the same year WW was influenced by the same Handful of men, to overthrow the MD; to launch upon an impossible plan of aggression for World Leadership, so as to weaken ourselves and strengthen their main Puppet and Satellite USSR. During that span of years we have spent our substance in THREE WARS which accomplished nothing for ourselves. We have plowed under the Flower of our Manhood, and squandered our Wealth to no avail. What is a Boy worth? More than all of the gold buried at Fort Knox. Therefore, in the conduct of our affairs we should place Life values ahead of Dollar values.

The following is an approximation of the alignment within our shores:

Voters on the Liberal, International, One World, or Globolony Administration Ticket -	
2,000	Dangerous Communists.
25,000	Card carrying Communists - Reds.
25,000	Communist Sympathizers - Pinks.
25,000	Communist-Front Organizations.
30,000,000	Minorities - 1st, 2nd and 3rd Generation Minorities of various hues and odors, who are inherently One Worlders, who would not stand in the way of the proposed overthrow of our Government by force and violence, because of oppression, Religion, and alienation to foreign flags.
20,000,000	(Dupes) Farmers and Laborers who follow the Leader (usually a sympathizer).
10,000,000	(Dupes) Republicans of the Dewey Stripe.
10,000,000	(Dupes) Democrats of the Stevenson, Lehman, FDR, Jr., Morse Stripe.
Total	<u>70,077,000</u>
Voters on the Conservative, Nationalist, Constitutional Government, Anti-Globolony or Anti-Administration ticket -	
20,000,000	Republicans of the Hoover, Bricker, Mundt, Dirksen, Velde type.
20,000,000	Democrats of the Byrd, Byrnes, Shivers, Kennon, George type.
20,000,000	Farmers and Laborers who are tired of the useless waste of Boys' lives in the Great Experiment of Interventionism.
Total	<u>60,000,000</u>
	29,923,000 (Dupes) Who don't know, don't care and don't vote.
Total	<u>160,000,000</u>

This message is specifically addressed to the 69,923,000 Dupes, who represent a vast cross-section of our Land; who are unwittingly traveling in the same RUT with the ITs; and upon whose shoulders the pendulum will swing back to Americanism or complete Communism, depending upon the amount of intelligent effort exerted by the two factions in the form of education. Many solid citizens are playing into the enemies' hands because they have not familiarized themselves sufficiently to formulate a clear cut concept. All they have to do is look around at their meetings. Many are AACs which places them in the Enemy Camp. Often the high-hat, braggadocious, Bit Shot, Big Brass, Big I little You attitude will chase some into the waiting arms of our adversaries.

One weak spot in our form of Government is the fact that the ignorant citizen, who knows nothing of the problems involved, whose vote can be bought and/or coerced, has the same weight at the Ballot Box as the substantial business man who knows what is good for the welfare of America. The morons are oblivious to what is going on, smug in their false values and earnings, glassy-eyed from cocktail parties and stagnated when it comes to deep thought.

One Dangerous Communist in the right place, at the right time can do more damage than a Regiment of soldiers. The Traitors have stolen our A and H Bomb formulae. They delayed production of the H Bomb seven years and three months so that Russia could beat us to the punch in four years. They stole eight buckets of fissionable material, which can be

made into bombs in an ordinary machine shop, equipped with proper knowledge. It is possible and quite likely that the material was stolen for that purpose.

You might ask - has this matter progressed to serious proportions in this Country as of now? The majority of our people are knowingly or unknowingly thinking, acting and voting right along with the INs. The Country is in dire circumstances when we could not elect a man of Taft's caliber, background and concept. It is later than we think.

We are in great peril when we could not pass the BA. To that extent the Great USA has been taken over. However, the so-called Conservative Party has grown from a small group of determined Americans, headed by Bob LaFollette, who tried to keep us out of WWI, Burton K. Wheeler, Henry Cabot Lodge, Nye, Hiram Johnson, Elihu Root, Borah, Reed, etc., who killed the League of Nations; to the millions who backed Bob Taft in 1952. That is a healthy condition and their continued growth is the salvation of this Nation.

Either due to our foolheartedness or subversive influence those staunch Senators of foresight as well as hindsight were denounced as "Isolationists". General Billie Mitchell, our greatest military strategist, was branded a "maniac" and Court-Martialed. Col. Charles A. Lindbergh, the greatest aviator of this generation was branded a "Copper-head" and demoted. All have since been vindicated.

It would be well for the HAVES to donate 1/4th of their net worth for the education of the Dupes, Morons, AACs, and non-voters, 1/4th to finance the CICs, and bequeath another 1/4th to the liquidation of our National Debt. Our estates will be valueless, with 40 more years of Treason under the FRA and UN.

You may dismiss from your minds the possibility of Bombs raining out of the sky, or Asiatic Hordes marching over us, or overthrow of Government by revolution. They fear retaliation and have learned the art of suffocation from Within, while we sleep. You are now getting the full treatment of suffocation, in slow steady doses from WITHIN. You may rest assured that the 1/3rd of our Citizens who understand what is taking place, will be in there fighting and pitching until the end, regardless of whether or not the end brings them out all right. It is just a question of whether our words based on Truth, Reason and Justice can be heard and understood sufficiently by the Dupes and Morons to overcome the confusion, subversion, and brain-washing based on the new diet, Force, Fear and Reward.

Who is our Enemy? It is not Russia. Prior to 1917 the Russians were and still are just plain, peaceful, God-fearing people. It is the Invisible Conspiracy within our shores. In fact, they are the same clique who have created unrest, riots, revolutions, and wars, wherever they have migrated. They are the "12 men" who run this Country and not one in a million know who they are. We know who their stooges are, because they are the advisers, speech writers, perpetrators and expeditors of the deliberate UnAA mentioned herein. We know what, where, why and how they are, but not who they are.

The Nation is like a very sick man, with hundreds of aches and pains, but Cancer alone is killing him. We might as well dismiss, as immaterial, all of our minor issues - Taxes, Tariffs, Tidelands, Flood Control, Statehood, etc., and operate on the root of the Cancer - the FRA. Then the Reds, Pinks and all other alien minority shades will wither like leaves on a vine. The roots of our cancer are not in the Kremlin but in Wall Street, the financial center of the World. All of our UnAA stem from this root. We will never again breathe the fresh air that was once America's so long as the FRA is in effect.

Hundreds of years ago a Sect of INs (Men without a Country) laid down a plan to control the World by means of controlling the money. Their motto is, "Let me control the finances of a country and I care not who makes the laws." They use Communism, Fabianism, and Socialism as merely a means to an end, a vehicle, a front; and they ride into power on the crest of the waves.

Upon close scrutiny of these birds' feathers (the IAs, IBs, ICs, INs, ITs, IZs, and the 12 men) you will find them to be of one and the same stripe. Birds of a feather flock together. They are migratory birds. They hover about the World Bank wherever it might be located, like bugs about a light. They are leeches and scavengers on society. They do not inter-marry or fit into the WOL of any Nation. They will not till the soil or create wealth. They foster themselves by underhanded stealthy connivances. Herewith they will be referred to as INs. It just takes a dozen in control of the money to run and ruin any Nation - remember Russia, The Balkans, etc.?

The writer has it in for the INs and intends to do everything within his power to clip their wings. The CIC is the quickest and most direct means of ferreting them out. They will be found in Wall Street, in control of the FRS. They cannot be detected by sight

because they are too cunning, nor by ear because they are too suave. The only means of detection is SMELL, as Richard Nixon did with AH. It will have to be boiled down to cause and effect; a study of their actions - the results of their actions - their motives.

Their first Fort of Call was Germany in 1848 and they were bumped out in short order. The World will have to take their hats off to the Germans, as being the Furthest, and most Nationalistic Race on the face of the Earth. They never have and never will permit infiltration, subversion and the like. From the dawn of History there is no greater hate among peoples. It again showed its face in Hitler's time. It is now apparent that this was the motivating factor, the retaliation, behind our annihilation of the Germans in WW1, WW2, the Nurnberg Trials, the Genocide covenant, and the Morgenthau Plan. To further substantiate this concept, we are today endeavoring to arm Germany as our ally. The INs were powerful and clever enough to cause Christian Caucasians to kill Christian Caucasians (our First Cousins) in order to make their star Puppet USSR a World Power. We were warned to keep out of War Waters prior to our entrance into WW1. Hitler and Hess told us we were aligned on the wrong side prior to our entrance into WW2. All we had to do after Pearl Harbor was to retaliate in kind ten for one. In like manner, we were pushed into the KW where we had no business, could gain nothing, nor win. In this instance they used their rat-infested UN to by-pass Congress - calling the third greatest casualty list in our History, a Police Action. The Morgenthau Plan to de-militarize and de-industrialize Germany is another of their hate schemes. Just think how stable Europe would be today with the Bismarck of Old, as the Master Nation, maintaining Peace and Order. Hitler was not a typical German. He was a Bavarian and corresponded to Al Capone. The 1939 Truce was another indication of their Fear of the Germans. If Hitler had been half smart when he crossed the line - instead of saying, "Every Russian is my Enemy" -- had he said, "Let me pass to get at those INs in the Kremlin" -- he would today be the Hero of the Age. It is not conceivable in retrospect that the following baseless trumped-up slogans could have been the underlying reasons for our participation in three Wars within 25 years: "Make the World Safe for Democracy" - "Freedom of the Seas" - "Self-determination of Poland" - "Four Freedoms" - "Save England in order to save Ourselves". It was the connivance of the Invisible Conspiracy for selfish motives.

It now appears that the INs provoked the sinking of our ships as a means of involvement without appearing to be aggressors in WW1; the Japanese bombing of Pearl Harbor; and the North Korean attack below the 38th Parallel immediately after the withdrawal of our troops.

Even though our Three Democratic War Presidents were Egotistical (WW), Power Happy (FDR) and Party Mad (HST) they were loyal Americans, and could not have steered us into the multiplicity of acts of War, Monetary Acts, sell-outs at Foreign Conferences, relinquishment of our Constitutional Rights, etc., unless they were unduly influenced by some powerful, invisible hands. It is apparent that the INs control our affairs through the control of our money. They accomplished their purposes - to chop down their mortal enemy (Germany) twice, to sap Uncle Sam physically and financially so as to hasten the take-over, and to strengthen their stronghold (USSR).

It is "rough" to believe that our Boys were sent into battle under such circumstances; or even to protect the foreign exploitations of our Billionaires; or to pull the other fellow's chestnuts out of the fire. It is not right to take advantage of the Romance of Youth. They are entitled to all of the facts, when their lives are at stake.

Hitler's second mistake was the selection of Japan, whereas China is the rightful Master Nation of Asia, because of her background, population, raw materials, and room for expansion. The English Speaking People are the rightful Master Nation in the WH. Then the Three World Concept would have been in effect and the USSR would have been of no significance. This Concept will not eliminate Wars, but it will confine them to within the Three Spheres of Influence, in which the respective Master Nation is responsible for Peace and Order. As far as World Wars are concerned, the possibilities are reduced to THREE (between the Master Nations themselves). Some people feel that Hitler planned to cross the Atlantic, to conquer us and the World. If so, he would have changed his mind in short order had he invaded the WHP. Remember the difficulties he encountered when he endeavored to cross the English Channel?

When London was the Money Market of the World, the INs were Termiting there as here. The Fabian Society and the Keynes theory of Manipulated Currency were of their vintage. England chased them out as did Germany. When the Dominions built their own factories, the Backward Nations demanded their independence, the Balance of Power in Europe was no more, and England's influence in World Affairs waned, the INs could see the hand-writing on the wall; so, they headed Westward. In 1938 the writer advocated moving the seat of Government of the British Empire from London to Ottawa, "What England Should Do", also the dismantling of their Industrial Plants and their re-establishment with their employees, acre for acre, in Canada. That move will create this Three World Concept over night. It

will pay US to issue Bonds for same. Realizing the possibility of another useless WW2 this Plan was re-dedicated in 1941 entitled, "The Invincible New World".

The INs' first and most insidious act was to finance the election of the Great Idealist, the Great school-marm, Professor WW, with the proviso that he would ratify the FRA. Their second infamous act was to finance and foment the Russian Revolution. Their third squeeze play was the writing and selling of the UN Treaty. Senator McCarran said, "Until my dying day I will regret ever ratifying the UN Treaty." When we attempted to rectify the error by means of the BA, the INs again brought pressure to bear upon the Administration to veto it. That was the most momentous bill to confront our august Senate body and the Administration in our lifetime (the Great Debate - Nationalism vs. Internationalism). Those great advocates of Constitutional Government were voted down. That alone shows the seriousness of our situation.

Prior to 1913 we prospered like no other Nation in History. Why? Because we adhered to the greatest Documents of Government ever conceived in the minds of men. They were men of Purpose - imbued with Christianity as well as man-made Cardinal Principles laid down thousands of years ago. We were the shining light of the World and have been going downhill ever since. This Nation will never fall from Without because of National Pride, our Inventive and Productive Capacities, and our Natural Mo'tes on either side. However, it can and will fall from Within unless this ingenuous, fictitious, usurpation of the control of our money and policies is repealed.

The INs hood-winked us with the misnomer - "Federal Reserve System". The Citizenry is led to believe that it is a Federal Government Protective Agency, controlled by the Government for the protection of our monetary matters and the welfare of the Country. It is nothing of the sort. It is a group of 12 private Corporations of IBs; which they own and control as they so desire. Through the control of our money, they control our Policies. They have funnelled and centralized the Wealth and Power of the Nation into Wall Street. They have usurped our Constitutional Rights regarding money matters. Whereas the printing of our money, the establishment of credits, valuations and exchange rates, and the handling of the purse strings should rightfully and Constitutionally be in the hands of the Congress, the IBs have taken over. We instead print Bonds for collateral and borrow the money from them.

The original Board of Governors consisted of five members, viz., three Bankers, the Comptroller of Currency and the Secretary of the Treasury ex-officio. Effective August 23, 1935 the latter two were eliminated, thereby giving the IBs 100% control. There are twelve Federal Reserve Banks throughout the Nation. The twelve Presidents may well be the "12 men" who run the country. Each Bank is a private Corporation, controlled by a Board of Directors of nine men, viz., three Bankers, three Business men, and three men selected by the Federal Reserve Board of Governors. Corporate structure is such that one man is in absolute control. It is a Proprietary Concern. He can mismanage and manipulate as he so desires.

It matters not whether the INs influenced and/or formulated our Foreign Policy of Interventionism because of their Hate and Fear of the Germans, or to protect their Foreign Investments, or to Bleed us white with Wars, Depressions and Give Away Plans, or to strengthen USSR, or to change us from Citizens of the US to Citizens of the World, or to further their own Plan for World Control. All reasons are Un-American in Purpose. As far as America is concerned, the intent is immaterial and the Results are the same regardless, viz., Deaths, Debts and Taxes.

The FRA is the Root of our Evil. We have several weapons with which to kill same, viz., Congressional Investigating Committees, Public Opinion, the Ballot, Decentralization of Wealth and Power, Re-Declaration of States Rights, and as a last resort the People themselves (remember the Vigilantes, KKK, and Black Hand Episode). Throughout our History, whenever the authorities are unable to cope with a situation, the People rise up and devise a means to correct same. There will be no hiding behind the 5th Amendment. There will be no changing of jobs to cover up.

To prove the inadequacy of information for general consumption, we have voted into the President's Chair, in this Generation, only one America-Firster, only one man of individual thought and action, only one man who needed no adviser and would not yield to influence, only one man not drunk with the self-imposed World Leadership Dream - Herbert Hoover - the greatest living American today. His Foreign Policy, as laid down in Chicago in 1952, should be immortalized and put into effect today, instead of carving it in marble after the horse has gone out of the door.

We voted into office three unqualified Democratic Presidents, who got us involved in three unnecessary Wars - WW-FDR-HST. We have no one to blame but ourselves. We

are impulsive. Instead of studying their platforms and their Backgrounds we were swayed by their colorful Personalities. However, we really had no choice. After the INs influenced Wilson to break away from the MD and the Foreign Policy under which we prospered for 141 years, it was "duck soup" to promise FDR the Presidency of the World under the UN. Once the Die of Interventionism was cast, and the false economy created, HST and ADLAI followed along in the same RUT, oblivious to what was happening to America. The INs made doubly sure that this Globolony would prevail, by putting a ONE WORLDER on the Republican Ticket every four years - London, Willkie, Dewey and DCE. Bob Taft was our only hope. Had he not been gagged on Foreign Policy, he would have been elected even though he was not a glamour boy. He was a GIANT American. Had he lived, IKE would be in the Conservative Camp today.

Can there be any doubt, in view of the aforementioned and following UNAAAs that we have been pushed around by an "Invisible Hand". Admitting that we elected Presidents who were up in the clouds, and Secretaries of State who represented International Clients, thereby placing Dollar Values ahead of Life Values, they could never have conceived of this treachery so glaringly opposed to American Interests. The following Indictments are against the Liberals; primarily the Democratic Liberals because our last 3 Wars occurred during their Administration - their platform was to keep us out, yet they permitted the INs to push us in:

1. Deviation from the Constitution to formulate the Federal Reserve Act.
2. Taking advantage of a weak spot in the Constitution to formulate the League of Nations and the UN treaty. The Constitution provides, "All Treaties shall become the Supreme law of the land."
3. Taking advantage of the Fifth Amendment to cover up their Treason.
4. Getting back into Foreign Entanglements - NATO, EDC, SHAPE, ANZUS, SOFT (Status of Forces Treaty), whereas our purpose for coming to the New World was to get away from same. Today we have troops in fifty countries and cemeteries around the Globe.
5. Reversion of our Foreign Policy by WW to aggression and interventionism after 141 years of successful operations under the MD and minding our own affairs within the WH.
6. It is well established that they brought about the 1929 crash for their own purposes by simply withdrawing money from circulation.
7. They concocted Encroaching Socialism and Graduated Income Taxes to kill initiative and Free Enterprise.
8. They sent Plates, Paper and Ink for the printing of American currency in Russia.
9. The Marshall Plan and Lend Lease were part of their Give-Away program.
10. The Supreme Court was packed, the Congress by-passed, and the Executive Department upset the Constitutional Checks and Balances by usurping all power by means of Treaties and Executive Agreements.
11. Labor Leaders have been glorified.
12. Promotion of Financial and Military crises for personal aggrandizement as well as to usurp our Constitutional Rights.
13. Whitewash of the Amerasia Case. The Tydings Committee placed Party above U.S. and were blinded as to the extent and consequences of the Invisible Conspiracy.
14. Middle-East policy which alienated 400 million Moslems, Hindus and Arabs.
15. "White Paper" which turned over 450 million Chinese to the so-called Agrarian Farmers.
16. The Morgenthau Plan to de-militarize and de-industrialize Germany forever by reducing them to minute farming areas was written by HDW.
17. The Baruch Proposal, to stock-pile our A and H Bombs in the hands of the UN.
18. The Nurnberg Trials, which gained us nothing but hatred and established a dangerous precedent.
19. Involvement in three unnecessary wars on the continents of Europe and Asia, where we had no business. We're now endeavoring to make allies of our former enemies.
20. Sell-outs at Yalta, Potsdam, Teheran, Bretton Woods, Dumbarton Oaks, and last but not least, San Francisco. Our Ambassador to Poland said, "As I looked over the Yalta Agreement I could not believe my eyes. Every line spoke of complete surrender to the Communists."
21. Pigeonholing of the Wademyer Report.
22. Court-martialing of Gen. Billie Mitchell - now vindicated. What became of the 1 1/2 million word transcript of the historical treasonable trial?
23. Demoting of Col. Charles A. Lindbergh - now reinstated.
24. Why did FDR and HST ignore the FBI Reports on infiltration? Why did HST close the files?
25. Why the rifts between the Justice Department and the FBI?
26. Why the Propaganda throughout the Schools, Churches, Comics, Newspapers, Movies, Radio, T.V., etc?
27. Why the Centralization of Power in Washington, thereby usurping our States Rights, by means of the New Deal and multiplicity of Bureaus?
28. Why did we Recognize Russia in 1933, which laid us open to espionage?

29. Why recognize Red China by giving them permission to attend the Big Five Geneva Conference?
30. Why were we influenced against Chiang Kai-shek in China and Mihailovitch in Yugoslavia?
31. Treasury Department Order No. 43, dated 12/15/41 (i.e. a week after Pearl Harbor) and signed by Secretary Morgenthau: "On and after this date, Mr. Harry D. White, Assistant to the Secretary, will assume full responsibility for all matters with which the Treasury Department has to deal, having a bearing on Foreign Relations".
32. On 2/25/43, Secretary Morgenthau supplemented the above by the following directive to HDW: "Effective this date, I would like you to take supervision over and assume full responsibility for Treasury's participation in all economic and financial matters, in connection with the operations of the Army and Navy and Civilian Affairs in the foreign areas in which our Armed Forces are operating or likely to operate. This will, of course, include general liaison with the State Department, Army and Navy, and other departments or agencies and representatives of foreign governments on these matters."
33. Why was HDW the Treasury Representative on many of the most significant wartime committees from the OSS Advisory Committee, to the Board of Economic Warfare, to the National Munitions Control Board?
34. Why was HDW the dominating figure at the Bretton Woods Monetary Conference that launched the International Bank and Fund?
35. On 4/8/47, Secretary of Treasury John Snyder wrote HDW as follows: "It is hardly necessary to say that your efforts while with the Treasury were responsible in no small measure for the creation of the International Bank of Reconstruction and Development and the International Monetary Fund."
36. In 1939 Lauchlin Currie (named a Communist under oath) was appointed Administrative assistant to the President, with special duties in Economics. Until his separation from the Government on 6/30/45, he handled Far Eastern Affairs, for the White House. Twice he was our special envoy to China. He arranged the famous trip that Henry Wallace made to wartime China and Siberia under the guidance of Owen Lattimore, John Carter Vincent and John N. Hazard. Within the White House, Currie also handled the affairs of the IPR which had its own close interest in Far East matters. The sub-committee on Internal Security reported: "The IPR was a vehicle used by the Communists to orientate American Far Eastern policies toward Communist objectives. The effective leadership of the IPR used IPR prestige to promote the interests of the Soviet Union in the United States. In 1941 Currie arranged Owen Lattimore's appointment as the President's special envoy to Chiang Kai-shek. Currie arranged for Earl Browder, head of the Communist Party in the US, to confer with the State Department, so that he might guide the betrayal of China."
37. We have had a taste of the slow process of suffocation of our Liberties by the Genocide Covenant, the Covenant of Human Rights, UNESCO, NEA, ILO and the other 200 Amendments to the UN which have been written and are ready to be stuffed down our throats in 1955. The Herald-Express, California's largest newspaper, carried on March 30, 1954, the following unbelievable statement. We must believe it, however, because the responsibility of this great newspaper as well as the responsibility of the writer stands behind its accuracy: "The United Nations Bulletin for March 1, 1954, says (on page 196) that the United States has signed the Genocide Pact. If this is true, it is the saddest moment in the history of western civilization. For it means that the freedoms and safeguards that the English-speaking people have fought for and died for, since the days of Magna Charta, have been destroyed, stealthily and treacherously, without the voice of one American official being raised in their defense. The Genocide Pact provides for the trial and punishment of anyone accused of causing physical or mental harm to any member of a minority. It does not define what constitutes mental harm. But you can be taken, anywhere in the world, and tried, without a jury for having committed it. The pact is retro-active - you can be tried for alleged offenses committed 20 years ago. The pact would enable any President or head of a state to suppress a free press. This pact has not been ratified by the Senate, so it must have been signed by executive agreement. Is this the reason the White House fought so hard to defeat the Bricker Amendment?" 200 more are ready for ratification.
38. Tabling of the Bricker Amendment.
39. Unsound Keynes theory of manipulated currency.
40. Tax Free Foundations controlled by IBs.
41. Opposition to CICs and closing FBI files to them.
42. Loans to England who was trading with our enemy in time of war, while we were carrying 19/20ths of the load physically and financially.
43. Infiltration of the FRs, Government, Defense Plants, Services, Central and South America.
44. Why did we fall from the pedestal in 1913 as the Shining Light of the World and continue on the decline ever since?

45. Why did it take us seven years and three months to complete the H Bomb whereas Russia only required four years? Did Oppenheimer have his finger in this pie?
46. Why did we give Nationalist China vast supplies of guns and other weapons, but no ammunition? Then we opened Kalgan Mountain Pass into Manchuria so that USSR could arm Communist China.
47. Why were the supplies to Patton held up?
48. Why was the ammunition to our Armies in Korea held up?
49. In 1948, Herbert Hoover stated that the arms of 71 of 89 American divisions had disappeared.
50. Why were our armies held up at the Gates of Berlin for days, to await Russia's arrival to take over?
51. Why were we given a part of Berlin without Ingress or Egress?
52. Why were the decoded Japanese messages withheld from the Navy prior to Pearl Harbor?
53. Why did we not retaliate in kind 10 for 1 immediately after Pearl Harbor, rather than be drawn into a foot-soldier war, to their own liking in their own territory?
54. Why were the Army Reports lost which identified the Soviets as perpetrators of the Kataym Forest Massacre?
55. Why did Acheson declare Korea outside of our Defensive Area, withdraw our troops, then immediately send them back in for our third largest casualty list, without an Act of Congress?
56. Why should we consider a duplicate stalemate in Indo-China?
57. Why did we hand Poland, the Balkans, the Kuriles, Outer-Mongolia and other Satellites to USSR?
58. Why did we give 13 Billions to each, Russia, China and Europe, with no strings attached?
59. Why did FDR wait until his dying day to realize and advise Joe Stalin that he had been betrayed?
60. Where did we get the idea that America is destined to be the World's Leader, Regulator, Policeman, Breadbasket and Financier?
61. Why was MacArthur, our greatest military leader, recalled? Why was Van Fleet stopped?
62. Gen. Bedell Smith advised that America's post war policy for Italy was to connive to bring Communists into the Italian Government, and to return Togliatti from Moscow.
63. Why did the White House rule that members of the Communist Conspiracy could act as radio operators on commercial or naval vessels?
64. Why the secret Army Directive authorizing the granting of commissions in the U.S. Army to members of the Communist Conspiracy?
65. Why the order to destroy the files on military personnel where the files showed he was a Communist?
66. Why did Acheson grant a 90 million dollar loan to the Communist-Controlled Government of Poland, while his law firm represented the Communists?
67. In 1945 Nationalist China needed guns and ammunition to fight off the Communists. At that time we had mountains of captured guns and ammunition. Gen. Eisenhower ordered this material sent to Chiang Kai-shek. Then an order written by Lauchlin Currie on White House stationery rescinded same.
68. Why would the acting chairman of the loyalty program of the Gov. Printing Office testify under oath that he was ordered not to discharge any employees merely because they were Communists? This order evidently applied to every Federal Agency because it came from the Chairman of the entire Loyalty Program (prior to 1952).
69. Why was the 7th Fleet ordered (1) sink any ship which attempts to go from Formosa to help those who are fighting the Communists in China, but do not molest or in any way interfere with the ships helping the Communists; (2) do not let the Chinese Navy on Formosa sink any Communist shipping?
70. Why did a Federal Grand Jury release the following 12/2/52: "Almost without exception these same subversive employees with the United Nations were formerly employed in various departments of our own Federal Government. They were transferred from one Federal department to another, finally ending up in key positions in the United Nations. The evidence shows this is not coincidental but part of a definite, planned pattern. It appears to result from the contrivance of certain highly placed officials who have surrounded themselves in each Government agency, and then in the United Nations, with personnel who share their disloyal convictions."

If you will study the documentary evidence, gather all facts pertaining thereto, ascertain the originator of the Plan or Idea, analyze the results, read between the lines, think the matter through to logical conclusion, you will find the same "12" fingers of the INs in every "Black" Berry Pie. Hitler put them under the ground - we permit them to go underground and hide behind the Fifth Amendment which was not written for that purpose. Their families did not come over on the Mayflower, nor did they sign the Declaration of Independence or fight for our Freedom. They are the Big Shots draped with the Star Spangled

Banner, yet laughing up their sleeves while doing everything within their power to overthrow our Government.

It is very possible that we have become decadent as a Nation. The Spirit of Liberty is waning. This Nation was a Paradise on Earth until we opened our doors to indiscriminate immigration, welcomed undesirable aliens by the millions and sent boats after another minority. We have not only mongrelized America but the Flower of our Manhood has been dissipated. We need a jolt to bring us to our senses.

We have made our bed and will have to live in it. However, there is nothing in the Constitution that says we have to live with IRs in our hair. The first and foremost are the IBs. HDW and AH were their stooges. Texas recently enacted Laws to put them out of circulation. The other 47 states will follow suit. The 48 states can and will exercise their States Rights in the decentralization of Power and Wealth.

The INs resurrected the same old deal (League of Nations) with a new shuffle (UN) and gave us the full "TREATYment" while the Senate was taking a nap and the Citizens were bathing in their lavish economy. The Senators did not read the fine print and did not realize their mistake until the Supreme Court of California ruled that "The Law of the Land is the United Nations". We should pass the Bricker Amendment immediately; because after 1955 it will be too late. The Amendment has no other purpose than the restoration of the Constitution as the Law of the Land as well as the restoration of the checks and balances between the Legislative, Judicial and Executive Branches as prescribed in the Constitution. Except by undue pressure from the Left Wing, how could our elected Officials veto such an amendment, when their oath of office requires that they uphold the Constitution of the US.

Ike is the finest man we have had in office since Hoover. His One World Foreign Policy is opposite to Hoover's because of his Military background. Had Taft lived Ike would be in the Conservative Camp today. In time he will come around, for he is a strong, solid, upright American. When he decided to run for President he was undecided whether to run on the Republican or Democratic Ticket. Now he is undecided whether he is a Conservative or Liberal. The people are entitled to know. There is no such thing as "middle of the road" or "Conservative under certain circumstances and Liberal under others", or "Blowing Hot and Cold", or "playing both ends against the middle". There is no such thing as playing politics in that position.

It is easy to conceive how Communism can readily control 1½ Billions of peons in Russia, China and India. They have nothing to lose - the Have-Nots may get something from the Haves. The Balkans and Satellites fall, merely from the force of the Red Army standing on their borders. A Nation like France, soft from debauchery and lost Nationalistic Pride is easy pickings. The USA is easier than Germany or even England because we are not a pure Race, and our Minorities manage our affairs.

The issues are varied and complicated. It is difficult to think the matter through the maze of confusion and subversion. If you are not careful it is very easy to get off on some "ism" side show, that in reality is immaterial. There is only one "ism" of importance - Americanism - regardless of Party, Creed, or Color.

There is only one-issue in the final analysis - do you wish to continue to live as a Christian American Citizen under the Constitution or change to an Atheistic Mongrel Citizen of the World under the UN. Unless we are able to educate the public on this issue and line up the great majority for America First, Last and All of the Time, our Estates will be worthless, our Liberties, Home, Church, etc., will be lost. It behooves us to wake up, sit up, take notice, and fight. Keep this issue uppermost in your mind at all times. Then you won't find yourself aiding and abetting the enemy by talking, thinking and voting along with the INs. The One World Concept is millions of years premature - in fact it is the Millennium.

The writer has mailed 20,000 copies of this Treatise to men of importance, Governments, newspapers, magazines, organizations, etc., throughout the World. Many individuals have replied favorably. However, not one newspaper or magazine saw fit to print. This concept has been anti-administration throughout our last three wars. The printers are gagged - they will not buck the administration, they will not back the conservatives, they are afraid of losing advertising accounts or having their loans called. Many individuals reply - "I pay taxes in order to pay the salaries of our elected officers, let them worry about those matters"; "I'll just rock along with the Administration"; "Times have changed - the concept of our Founding Fathers is outmoded"; "The Monroe Doctrine is out of date"; "Speed has shrunk the distances, therefore our policies need revision"; "Isolation will not work"; (They don't realize that we came to the New World and fought two wars to get away from the old - that this Nation prospered under Isolation for 141 years and decayed when we reverted to Interventionism - that the WHP comprises one-half of the Earth's surface); "My business was never better"; "25,000 Communists is a drop in the bucket"; "I

don't believe that their infiltration is of any consequence"; "Our standard of living was never better"; "Never have we had such enormous Bank Deposits". I feel like the Prize Fighter awaiting the bell for the tenth and final round. His seconds told him, "You're doing fine, he's not laying a glove on you." He replied, "Keep your eye on that referee, 'cause somebody is knocking hell out of me." While the millions of Dupes, Morons, Fellow-Travelers, Advisers and the off-breeds of all colors of the rainbow are shadow-boxing and brain-washing us the IBs are socking us in the solar-plexus. These views are so-called Conservative - the IBs probably call them Reactionary - thank Goodness they are not Revolutionary.

We have brought this dilemma upon ourselves by deviating from the tenets and purposes as laid down by our Founding Fathers:

1. According to the Constitution, Congress should print, evaluate and control our money. Since 12/23/13 the IBs have been doing so.
2. UN Treaty should have never been enacted. It supersedes the Constitution.
3. Executive Agreements (some secret) in Foreign Conferences should not have been made. They, likewise, supersede the Constitution.
4. Our engagement in Three Wars on the Continents of Europe and Asia are not in accordance with the principles of the Monroe Doctrine and Golden Rule.
5. Our engagement in the Korean Police Action without an Act of Congress is a deviation from the Constitution.
6. The IBs hiding behind the Fifth Amendment should not be permitted because the Amendment was not written for that purpose.
7. The IBs taking over Central and South American Countries should not be permitted under the Good Neighbor and Pan American Policies.

Most of our crime and corruption can be traced to certain minorities. They do not fit into our way of life. They are oppressed and looked down upon. We should deport from our shores all those who advocate overthrow of our Government. We should keep 1st, 2nd and 3rd Generation Aliens out of high places. Every Citizen should have equal opportunity and rights as prescribed by the Constitution. There is nothing in the Constitution that provides that we should treat them as equals socially. The best solution is segregation and duplication of facilities regardless of cost. They pretend to be loyal Americans, but if and when we ever experience the overthrow of Government by force and violence or otherwise, their attitude will be, "What have we got to lose", and will be beaming at us from the other side of the street.

When considering our downward trend since 12/23/13 and the 70 aforementioned UnAA, you may wonder what our status will be in the next 40 years if we remain in the same International Rut with the IBs in control. We will pass on to our children and their children a mere shell of the American Way-of-Life. Those two-faced Traitors have been taking us for a ride. We have been going down-hill mighty fast, yet we don't seem to realize it. They are very suave, cunning and smart. They wish to bask in our sunshine in our Home Area but at the same time are stabbing us in the backs at every turn.

Many Dupes ask, "Why all of these CICs when we have the FBI and the Department of Justice". In the first place they are provided for in the Constitution. The FBI has never been found wanting. They have been aware of and advising the Justice Department regarding the web of subversion for twenty years, and nothing was ever done about it. The FBI does not have the power to convict. Several Communist Underground Couriers broke with the Party and divulged much valuable information to the FBI, exposing many IBs in high Government Positions. On two occasions the names were brought to the attention of FDR. The first time (1938) he replied, "Tra La La", and the second time, "Jump in the Lake". The names were later brought to the attention of HST who replied, "Red Herring". The efforts of Martin Dies and Jack Tenny were of no appreciable consequence. It took the keen, unadulterated mind of Richard Nixon to smell a rat. Is there any wonder why the Citizenry want and demand CICs. We all know that formaldehyde and not perfume is necessary to fumigate rats. If any should happen to get on a real American he can testify, laugh it off, and it won't even make him sick. However, it is deadly to the Reds, Pinks and all other off-color blends - they yell bloody murder.

The CICs are just beginning to scratch the surface. The chances are, we will not go as far as Hitler did and Shivers advocated, but we will finger-print and earmark each and every one, and rout them out of Government, Armed Forces, Defense Plants, FRS, UN, Schools, Churches, Labor Unions, Propaganda media, etc. They will not be permitted to rely upon the Fifth Amendment. Those birds will have their wings clipped by taking away Social Security, Service Benefits, Passports, as well as all Freedoms and Benefits of Citizenship.

It would be well for the CICs to temporarily pass up the infiltration in the Armed Forces, Defense Plants and Government, by turning the reins over to the respective departments

established for that purpose. Then devote all of their attention to a very serious operation - our Cancer - the FRA. Our Constitutional form of Government will never be restored in this or any other Generation as long as that Act is on the Records and in operation. They will dig into the manipulations of the IBs; the Corporate Structure; and ascertain whether or not it is being carried on in accordance with the original intents and purposes. It will be found that through the IAs, IBs, and ICs, pressure is brought to bear upon our Government Officials in the formulation of our Foreign Policies, because they hold the purse strings and control our money. They will find it expedient to repeal the Act or replace it with a Federal Protective System controlled by Both Houses. They will restore Article I, Section 8 of the Constitution, "Congress shall have power to coin the money and regulate the value thereof". They will also restore the Constitutional Rights of Congress to formulate our Domestic and Foreign Policies as well as the Power to Declare War. They will ascertain WHO the 12 men are and cut them down to size. All Present and Future UnAA will wither and die, for they all stem therefrom.

The Committees will then turn their attention to the UN - the most dastardly Treaty ever put over a gullible, ignorant, pompous public. They will read the fine print. They will analyze their operations, past, present and future. They will advise the Public that actually the UN is the law of the land - that they are not Citizens of the US but of the World. There is only one answer - Get US out of UN and UN out of US.

We can now see the truth in bold perspective. The Germans are inherently the rightful rulers of Europe, just as the English Speaking Peoples are in the WH. They were merely asserting their rights to manage European affairs as we have done. They are our kind of people. We are today endeavoring to make them the Bulwark of Europe. They will become so, if we quit knocking them down and meddling.

Likewise Nationalist China, because of her History, Accomplishments and Nationalistic Pride is the rightful Master Nation of Asia. The INs used reverse tactics on China because the "sting of hate" was not in the picture. China was conquered from Within whereas Germany was conquered from Without. However, the results are the same. First we gave China 13 Billion Dollars, then we gave China and the Dollars to their Puppet.

The INs have learned that they can accomplish their purposes smoother and with less effort from WITHIN. It is not necessary to have Russian Revolutions and World Wars, they can take over by the slow steady pressure policy of suffocation of Liberty and Way of Life. Just think of all of their accomplishments during the past forty years. What will conditions be forty years hence unless we put a stop to this Scourge of the Universe. The best solution is Three Spheres of Influence. Let the Master Nation in each sphere do his own house cleaning.

Just like water seeks its own level, this THREE WORLD concept would be in effect today, if not for our bungled subversive diplomacy. It follows the laws of Human Nature. Whether or not we quit trying to regulate the World, the two factions in Germany and China will join hands, rise up and tell the Bear to go home and adopt good neighbor policies patterned after ours. We caused their predicament. Our continuous meddling accomplishes nothing except retard the day when Germany and China will stand upright and assert their rights in their respective neighborhoods.

In all cities people segregate into neighborhoods. People are happy and secure when living with friends and neighbors who think and act alike. It leads to more peaceful life. A police force is necessary to maintain Law and Order. All of the Federal, State and Municipal Police Forces of each nation will cooperate with the Master Nation and look to them for protection from Without under a Monroe (or similar) Doctrine. The most prominent citizens become the Governors, Mayors, etc. It is distinctly to the advantage of America and Britain to be neighborly, with both Capitols on the North American Continent. We are in reality, one and the same people and are big enough to overlook each other's idiosyncrasies. Because of our accomplishments, heritage, power and wealth, we are the rightful rulers of the WHF and acknowledged as such by all countries domiciled therein. Our first line of defense is the strings of islands off the coasts of Asia and Europe, including Attu, Japan, Philippines, Formosa, Malaya, New Zealand, Australia, British Isles, etc. We have established this New World as our Home Area, - the Cradle of Freedom. We have maintained it as such for 178 years.

We cannot turn the clock back or cry over spilt milk. Our doors have been opened to immigration, which form our minorities. We should hold no ill will toward them or look down upon them. They are here and all we can do is hope that they will eventually become 100% Americans. We should keep them out of important positions until then. The German immigrants have readily become outstanding citizens. Let's have more of them and less of the others.

We should build and maintain the greatest amphibious Air Force in the world with

the biggest stock pile of A and H Bombs and Guided Missiles. There is no need for the expensive vulnerable Air Ports and the heavy landing gears. The Armies and Navies may be reduced to minimums. We should construct a most modern and extensive Radar Network. As TR said, "Speak softly but keep the Big Stick". Wars of the future will be wars of retaliation. Occupation accomplishes nothing.

In the future, it would be preferable to not appoint Secretaries of State who are members of the big legal firms, who represent IBs, who have International Interests, and want their investments and exploitations protected with our Armed Forces. If that is what our Foreign Policy is predicated upon, the Boys should be so advised. Big lawyers are too prone to influence and to place dollar values above life values.

If our involvement in three wars in one lifetime was predicated on the hypothesis, "Save England in order to save Ourselves", we should float a Bond Issue and move her to Canada. England is sick and doesn't know the reason or the solution. This move has manifold advantages and no disadvantages, if they could only see through their maze of Legends.

If our Great Experiment in Interventionism was premeditated by the INs to weaken US and strengthen USSR, we should remove the reins from their hands. These are matters that can be ascertained and solved by CICs.

You can fool some of the people some of the time but not all of the people all of the time. The INs have taken advantage of several "weak spots" in our Constitution by construing them to mean other than their intents and purposes. The formulators could not have foreseen infiltration and subversion in its present form.

Here we stand on the threshold of another foot soldier debacle in Indo China. Where do we go from here? Wilson's Dream of World Domination or Regulation has cost us Millions of Doughboys, 274 Billions of Dollars and nothing on the credit side of the ledger. It has played into the hands of the INs to such an extent that they control our money, Foreign Affairs, Domestic Affairs, Elections, Propaganda, etc. Next year when the UN comes up for amendment, we will experience the last "throws" from the suffocation and suppression of Americanism from WITHIN (without even firing a shot). Time is too limited to endeavor to correct this situation by means of education and the ballot. Our salvation is the 496 Congressmen who represent a cross-section of the People. They cannot be bought, influenced or side-tracked. I heartily recommend that the CICs have full sway.

Mr. Dupe - admitting that all of the above circumstances are not factual; but based upon circumstantial evidence, by reading between the lines and studying the origins and results, does it surprise you to learn that:

1. Our last three wars were not fought for the purposes stated - "Keep the World Safe for Democracy" - "Self-determination of Poland" - "Collective Security" - "Four Freedoms" - "Freedom of the Seas" - "Police Action" - but were fought to protect the interests of the IBs; to pull England's chestnuts out of the fire; to subdue Germany forever (the mortal enemy of the INs); to bleed white the Christian Caucasian Races by causing them to kill each other, so as to make their Atheistic Asiatic Puppet a World Power; to bankrupt us financially in order to hasten the overthrow of Government; or to create a false economy for Political reasons.
2. In 1917 WW and Joe Stalin gave birth to the same idea or ideal - World Leadership. They represented two diametrically opposite Ways of Life, and they adopted two diametrically opposite approaches - the former from without and the latter from within. Where did WW and/or his Adviser, Colonel E. M. House, get the idea that the World's Newest Nation and one of the smallest was ordained to lead, control and regulate the world?
3. He broke a precedent of 141 years' standing - the Monroe Doctrine. The Golden Rule provides that Doctrines work both ways.
4. Overnight he changed our Foreign Policy from Nationalism to Internationalism and we have been skidding ever since. How could 100 million people rule 2 billion people? Why should we take upon ourselves the responsibility of guaranteeing the self-determination of all Nations, when we have our hands full maintaining order in the WH? Evidently these were dreams of an idealist, a school-marm, a man easily influenced - not a man who had paid the price, or a man of individual thought and action, or a man who had gone through the stations of life. He probably was unaware that he was being guided by ulterior means and motives. It is well established that the INs financed his election and exercised underhand pressure, in order to influence him to seal our doom by ratifying the FRA immediately.
5. FDR followed in the same Foreign Policy Rut of Interventionism because his background was similar and he was Power-mad. He was born and raised with a silver spoon in his mouth and had lots of ego. It now appears that he desired to be

- the First President of the World under the UN. He made a "bed fellow" of Uncle Joe.
6. HST followed in the same Rut, because he didn't know any better or any other. He placed Party above USA. He revelled in the false economy and was oblivious to corruption and/or subversion.
 7. That Ike is in the same Interventionism Rut. His VP and Secretary of State are setting the stage for another Dunkerque. Spending a lifetime in the Military and being on Uncle Sam's payroll through peace and war is not conducive to rugged individualism and free thought. He is a One Worlder and claims to be a Middle-of-the-Roader for Political reasons. Because of the fact that he is not in the same category as the above three weak sisters he will become a Conservative before the expiration of his term of office. He is basically and instinctively of that concept. The so-called weak sisters were loyal Americans, but were up in the clouds and ignorant of just what the Communist Conspiracy consisted of - its tenets and purposes. They unknowingly played into the hands of the INs.
 8. Don't you begin to wonder if the last four Democratic and Republican Presidential Figureheads were not hand picked by the INs. All had the same ONE WORLD stripes.
 9. That the FRS is not a Government Protective Agency designed to insure proper performance in monetary matters (as the name implies and you think it is) but is a Private Corporation, owned and operated by the IBs; who in turn control our finances and purse strings, and in turn control our Domestic and Foreign Policies.
 10. That they have taken the powers from Congress regarding the coining of our money and regulating the value thereof.
 11. That they deviated from the Constitution by causing us to print Bonds as collateral and borrow Federal Reserve Notes from them.
 12. That the original Board of Governors included two Government Officials, and that they have been discontinued since 1935.
 13. That our Foreign Policy has been formulated by the INs who bring pressure to bear on our rubber stamp politicians for ratification.
 14. That since 1945 you have relinquished your Constitutional Rights and have become a Citizen of the World.
 15. If the CIC finds the above to be facts, does that not prove beyond doubt the connivances of the Invisible Conspiracy?

You know how you Dupes are. You will get tangled in this web of confusion, Conversion, evasion, infiltration, treason and espionage - find it difficult to follow the right line through the maze, throw up your hands and say - "I'll go along with the Administration - they are honest men - Ike knows what he is doing". Surely they are honest and they have done a wonderful job in cleaning up the mess, but the surface isn't yet scratched, they have the same Foreign Policy, similar Secretary of State, and have all of the Reds, Pinks, One Worlders, Liberals and Dupes on their side. Doesn't that picture behoove you - doesn't it imply that something is wrong? It is just a question of having the wrong concept on account of a limited background. You will say, "Business was never better" - "We're getting along all right" - "Let George do it" - "It's all over my head" - "Let's go get a drink and forget about it". It's easy to wash your hands of the task and dismiss deep thought from your mind, but it's hard to restore our Heritage, once lost. Often you get off on tangents, side-shows, eddies, "isms", which do nothing but cloud the main issue. You may rest assured that the INs are well versed and trained in the art of brain-washing and their procedure is well charted.

It is high time for you Dupes to learn the facts; learn which side your bread is buttered on; and join the Great Crusade for Good Government. Express your views in the Caucuses and Precinct Meetings as well as to your Representatives in Washington. Be very alert and active at elections. By means of the Ballot you can and will elect staunch Americans who cannot be influenced against their will - men whose personal business and family affairs have been successful.

If you think that everything is a bed of roses, and that the above, if true, cannot possibly jeopardize your Home, your Estate, your WOL, and your Life itself, it would be well for you to take off those rose-colored glasses and look around.

If the Congress will not finance the CICs adequately the Citizenry will. They alone can and will smoke out the ITs and educate the Public by TV as to the real dangers from within and without, so that the Dupes will be in position to vote intelligently, and overcome the alignment against Americanism.

The CICs will investigate the Corporate Structure; the true function and control of FRA. They will study the purposes in light of the results. They will then give the Rat infested Nest at Lake Success the once over. Unless we do away with these two vicious Acts of Treason (FRA and UN) we will lose our American Heritage in our lifetime. All other issues are inconsequential in comparison and stem therefrom.

The US participates in 172 Multilateral International Organizations which are imposing Super-Statism, and moving both our National Government and Foreign Policy in directions which the old time policy makers could and would have avoided. Undoubtedly the decisions of our State Department, regardless of which party controlled the Government, have been of obscure origin.

The "Change over", if it comes completely, will not be by violence; but will be the culmination of a slow steady methodical strangulation process by the FRA and UN. We have already felt the Termites undermining our foundation - viz., usurpation of Constitutional Rights to print and control monetary matters; usurpation of States Rights; usurpation of undue authority by the Executive Department by means of Treaties and Executive Agreements; obliteration of checks and balances by packing the Supreme Court and side-tracking Congress; subversion in Government, Defense Plants, Armed Forces, etc.; jockeying us into the aforementioned UnAAs where we had no business; curtailing of our Freedom of Speech and Press; creation of crises; brain-washing; propaganda; attempt to teach that the Constitution, Bill of Rights, Family, Home and Church are outmoded; attempt to teach that the Monroe Doctrine is inoperative in this age because speed has made the Atlantic and Pacific like rivers; taking advantage of a sleeping Senate to hoodwink them with fine print (UN); the preview of what is to come next year when the UN comes up for amendment and lifetime ratification; - UNESCO, NEA, ILO, Genocide and Human Rights Covenants; Armed Forces under jurisdiction of Foreign Courts, etc.

If we do not see the handwriting on the wall, if we do not repeal FRA and UN, if we do not revert to our original Foreign Policy, and if half of the 200 UN Amendments are passed, the New World Cradle of Freedom will be a thing of the past. Dupes, Morons and Liberals, wake up, before it is too late.

Do not get the impression that the Russian People, the Kremlin or even Communism is the root of the evil. The roots are concealed in Wall Street.

America was born and raised under the Isolationist Concept. We came to the New World to get away from Foreign entanglements. We wanted and secured Freedom of Religion, Freedom of Speech, Freedom from Fear and Free Enterprise. We fought two wars in order to carve out our destiny as we so desired. We laid down our WOL in Documentary form. We allowed no one to meddle in the affairs of the WHP. What is good for the goose is good for the gander - we had no business meddling in other people's affairs outside of the WHP. We walked with Dignity and Humility with the Big Stick. Our Geographical location with two oceans on either side fits into our scheme of things. Most Dupes have the false impression that isolationism is to "shell up" within our shores, whereas it actually comprises half of the Earth's surface. In fact, as things now stand, we will have our hands full to curtail the infiltration in North, Central and South America. We have found it impossible to maintain Peace and Order under the One World Concept because of lack of cooperation from the Free Nations. As far as trade and travel are concerned, Europe and Asia want and need ours more than we do theirs. Freedom of the Seas, Air, Trade and Travel will prevail throughout the World. However, we have unlimited undeveloped minerals in the WH and there is nothing we cannot substitute or make synthetically. Africa will remain Neutral.

Nothing is more absurd than Dulles flitting from pillar to post, when we know real well beforehand what the outcome will be. We would not be in this "pickle" if our Diplomats had never attended Foreign Conferences. Our adversaries outsmart us at every turn. We would be better off just to stay home, look wise, retain our dignity, and keep the other fellow guessing as to our next move.

By withdrawing our Troops to the WHP we are not throwing our Allies to the wolves. Do we have any dependable and worthwhile allies? France was a liability in WW2. If our boys were fighting shoulder to shoulder with them today the majority of our casualties would be shot in the back. We have doubly repaid them for their assistance in our struggle for Independence. Dulles made a "great" contribution to our welfare when he secured France's approval to join EDC in exchange for US taking over their Colonial War in Indo China.

Is England an Ally when she trades with Red China while our boys are fighting their battle in Korea? Why should England demand recognition of Red China?

It is not as if we haven't given Collective Security a fair trial; or endeavored to buy friends and allies; or tried to put out the Communistic fires. Forty years under this policy has been a dismal failure and it behooves us to look around for another solution. Just compute our status, our potential, had we never engaged actively in wars on the mainlands of Europe and Asia, but fought the three wars from the WHP with our Air Force. Let's assume that the Kaiser had over-run Europe to the English Channel. It is extremely doubtful that he could have captured the Isles. Remember the LULL? The seat of Government was on the

verge of being changed to Ottawa, where it should be. Germany was doing nothing more than demanding their rightful leadership of Europe. Chiang Kai-shek would have asserted his rightful leadership of China. USSR would still be a negligible quantity.

If we now withdraw our Troops and Supplies to the WHP this Three World Concept will come into being. Germany and China will not permit the Bear to sit on them. If USSR should be so unwise as to over-run Europe and Asia, they will be spread out so thin they will collapse of their own weight.

Then we will not be called upon to put out fires about the Globe without assistance. Instead of USSR calling the shots, we will be in a position to strike with our Air Force from the WHP bases if and when we find it expedient. That is in line with Bob Taft's, "Go it alone" policy. That is in line with the Home Area as prescribed by Monroe and re-dedicated by Wheeler and Hoover. That is in line with the Military Strategy of Billie Mitchell, Lindbergh, and TR. That is in line with America First, Last and All of the Time. That is the line of the Conservative Party - the Band-Wagon for all Americans - No Fellow Travelers allowed.

Mr. Dupe, if you are on the Liberal Band-Wagon and don't realize it, get off. The INs are not confused, they know where they are headed, and the Liberal Band-Wagon is the only vehicle which will carry them to their destination.

It is imperative that we all band together to THINK, TALK, WRITE, ACT and VOTE for AMERICANISM.

Constructively Yours,

Big-hearted, gullible Uncle Sam for the last three wars without purpose. We had no enemies then, as well as now, from Without. Then and Now our Enemy was and is Within -- the International Zionists, who have steered our Ship of State from Wall Street, by means of Money Control. The adopted name, Federal Reserve System, would lead one to believe that it is a Government Monetary Protective Agency. It is nothing of the sort. It is a Private Corporation of International Bankers. Their motto is, "Give me the power to issue a nation's money; then I do not care who makes the laws." It is very easy to shrug your shoulders and say, "fantastic". It will require extensive research to arrive at that conclusion. You may take confidence in one who has done so.

We are not deserving of the name "Christian Americans", to sit behind rose colored glasses and permit a handful of IZ's to tear down 1954 years of constructive civilization. Their plans have been laid down and carried out half way to date, to control the world through the control of money. Because they own all Propaganda Media it is difficult to get the TRUTH through. What would your reaction be to awake to the fact that you are no longer an American Citizen with Constitutional Rights, but a Citizen of the World with rights as prescribed by the U.N. The Supreme Court of California has already so ruled.

They believe that they are God's chosen people and destined to lead the World. They believe that they have superior intellects regarding money matters, politics, science, research, etc. I will have to admit that I never saw a dumb one. However, their intelligence is misguided. They are continually conniving. They are anti-everything for which we stand. They fit into no part of our Way of Life.

The situation in Russia is typical of all countries behind the Iron Curtain. Their click represent 2% of Russia's population, yet 87% of them are in high places in government, business and professional circles.

Their plans for World Domination were laid down in 1848. They were kicked out and/or plowed under in every major country in Europe before finding a fertile field among the ignorant Russian Peons. By 1917 they were ripe for the picking. They annihilated the White Russian Government with Wall Street Capital. Jacob Schiff alone donated \$200,000,000 to their cause. That was 4 years after gaining control of our money as well as affairs through the DECEITFUL F.R.A.

Since that Date of Infamy, every war, depression, foreign conference, give away plan, treaty and covenant (League of Nations, U.N., NATO, UNESCO, NEA, ILO, ITO, NAACP, Genocide and Human Rights, etc.) have had only one motive -- destroy Uncle Sam and at the same time make Uncle Joe, their main Puppet, a World Power. They want you and I to fall into their scheme of things, under their anti-Christian Iron Heel -- and brother, they have almost succeeded. According to International Law they have accomplished their purpose.

There is one factor which they have overlooked in their foolhardy scheme; viz, the indomitable Spirit of the Freedom Loving Christian American which is everlasting. We have been asleep. The Truth has been kept from us. The TV broadcasting of Congressional Hearings was their Waterloo. One hundred million people saw with their own eyes that something is wrong. They learned from the expressions on their faces as well as through their ears. Never before has the Citizenry become so intensely interested in National Affairs.

It is as plain as the noses on their faces that they have hand-picked One Worlders as Presidential Candidates of both Parties every four years for the past forty years. They in turn have selected One Worlders as advisors, cabinet members, Supreme Court Justices, etc. We have elected YES MEN and followed them through two disastrous wars of their own making - Caucasian Christians annihilating Caucasian Christians. We now realize the folly of our efforts. Henceforth let's elect rugged individuals who cannot be bought, sold or advised - as MacArthur, Taft, T.R. or Will Rogers. We are oblivious to the fact that we are in the process of being "taken over" while basking in the bright sunshine of our False Economy as well as the various stages of our growing army of A.A.'s.

They have learned that Revolutions and Surprise Attacks are not necessary. They can accomplish the same results by means of Treaties and Propaganda. Our Constitutional Freedoms, as well as Christian American W.O.L. are being taken away from us by the process of suffocation. Each of the 200 amendments to the U.N. Treaty which come up for ratification next year is a nail in our American Heritage. In fact they have already injected several thorns into our sides. Many citizens are of the opinion that we were "taken over" in 1945 at which time the U.N. Treaty actually superceded the Constitution and became the Law of the Land.

NOT RECORDED

It is inconceivable how the Senate as well as the President, all under 1954 to uphold the Constitution, could ratify the U.N. and veto the Bricker Amendment, - which tends to prove that it is "later than we think". It is hardly believable that the Senate could "laugh off" the testimony of Dr. Wm. A. Wirt regarding this Invisible Conspiracy 30 years ago. There is no use closing the gate after the horse is gone but many Senators have acknowledged their errors of judgment as well as statements on the Senate Floor regarding those

... matters.

It is understandable how their hankering Presidents could overlook those matters as well as the testimony of Whittaker Chambers, et al.; but not the august Senate Bodies representing a cross-section of the People.

Regardless of whether you are a Republican or Democrat, Conservative or Liberal, if the Citizenry were aware of the fact that the "12 Men" who have been running us into the ground for 41 years are leaders of the International Zionist Movement; that they usurped from Congress the right to control our money; that they have profited 45 billions thereby; that they are the primary cause of our 274 billion indebtedness; that they manipulated every depression since 1913 for their own benefit; that they fostered and provoked World Wars I and II, plowing under the Sons of all parties, because of Fear, Hatred and Revenge for the Germans; they would throw them and their clique out of our Homeland. The sinking of the Lusitania and the bombing of Pearl Harbor were not as they appear on the surface. It would have been foolhardy for Germany to bring down the Wrath and Power of the United States. They warned us at the outset of both wars, that our interests were in their behalf. We are the same kind of People.

After 16 years of research, the writer has pin-pointed the root of our troubles to the "12 men" who gained control of our affairs at a meeting on Jekyll Island. I can tell you where they are, why they are there, how they act, who their stooges are, what they have done, what their motives are, etc., but I cannot tell you who they are. The Rats are just as cunning, suave, secretive and intelligent as Alger Hiss and Harry Dexter White. They will have to be "smelled" by the results and motives of their efforts. They financed Wilson's election with the proviso that he would ratify the F.R.A. They then reversed our Foreign Policy to Internationalism. FDR, HST and IKE followed the Leader.

Since 1938 the writer has expounded the Three Worlds concept as well as the move of the seat of British Government to Ottawa, (What England Should Do) - both fitting into the same pattern. If it were not for the Invisible Government, which changed our Foreign Policy from Nationalism to Internationalism; which assured W.W. that he would become President of the World under the League of Nations, as well as F.D.R. under the U.N.; which caused us to meddle in other people's affairs, where we had no business; which caused us to make Russia the Scourge of the Universe by three unnecessary wars and five unnecessary Give Away Foreign Conferences; the Three Spheres of Influence would be in effect today; viz, Europe, Asia and the Western Hemisphere, each managed by their respective Master Nation: Germany, China and the English Speaking Peoples. If we will now withdraw our troops from the Continents of Asia and Europe, the Three Worlds will come into being, just like water seeks its own level. Our first line of defense is the Western Hemisphere Perimeter, which constitutes the strings of islands just off the coasts of Asia and Europe.

Civilization is not yet ready for the One World concept, - which is the Millennium. We have ample proof of the practicability of Three Worlds because of the success of the Western Hemisphere, under the guidance of the U.S.A. and the application of the Monroe Doctrine and Good Neighbor Policy. Europe and Asia will adopt similar policies; thereby reducing the possibility of World Wars to a minimum. Since the beginning of time, man has been seeking short cuts to Utopia as Communism and One Worldism. They are doomed to fail as others have failed. They overlook God and/or Human Nature, by not providing an incentive for intensive, intelligent, creative effort. The abolition of private property, the pooling of the products of labor, the creation of the masses, the elimination of the classes and privileged few, paints a pretty picture for the lazy, the failures, who figure "What have we got to lose?", as well as the Minorities, who feel that they are being discriminated against. The dupes, morans, over-done intellectuals and over-inherited individuals do not understand the issues, do not have the proper perspective because of their backgrounds and do not know when they are well off.

The weakest link in our Great Republic is the preponderance of such voters as compared to the Red-Blooded Americans, who have made their way through their own efforts; who understand the issues; who are aware of the Invisible Steering Committee endeavoring to overthrow the Government; who appreciate the many advantages of our Free Enterprise System and who will fight to the end to uphold our Heritage.

It would be well that unlimited private capital be underwritten by the Conservatives of Both Parties immediately for the expressed purpose of Education of the People on National Affairs as well as the Free Enterprise System by means of unrelenting T.V. Broadcasts. There is still time. What is the Solution? Education and Action.

If we cannot get the TRUTH to the peoples of the World by means of normal channels, we may have to revert to dropping millions of leaflets from aeroplanes. At the present time they are even endeavoring to close the U.S. mails as a means of propagating the truth.

It would be well to circumvent all immaterial issues and strike right at the Heart of the Cancer: Wall Street, Moscow and Peiping. There is nothing to be accomplished by routing

the mice from the Government, Army, Defense Plants, etc. While Rats are in the Garret. We cannot fight Rats with perfume. Liquidation of the Rats, the Mice will be like leaves on a vine. We prospered like no other Nation in History until 1913 minus our own affairs and maintaining peace, order and safety in the Western Hemisphere. Since then we have been going down hill financially and physically under Internationalism. In my humble judgment, unless we Repeal the FRA we will continue down hill to oblivion. It would be well for every understanding American to donate one-half of his Estate for this purpose because after the 1955 Amendments to the U.N. are stuffed down our throats, our Estates will be worthless. By getting the TRUTH to the people, the members of both Houses as well as the White House will be swamped with letters, telegrams, phone calls and personal calls. They will have no alternative except repeal of the FRA. Sooner or later England will join hands with us in the building of the "Invisible New World", (published by this writer in 1941 as a Pre-War Plan). Europe and Asia need our Trade and Travel more than we need theirs, so there will be no isolationism.

By getting the TRUTH to the Peoples of Asia and Europe in language they understand and by persons in whom they have confidence, the Chinese and Russians will welcome invading armies as liberators and join them in their marches to Peiping and Moscow. Hitler was unaware of the fact that only a handful of IZ's in Moscow were his enemy. He was not a typical German - he corresponded to Al Capone. He did not realize the significance of Four Million Soldiers immediately coming over to his side, considering him their Liberator. That is ample proof that armies of Liberation are the solution. He met his Waterloo when he said "Every Russian is my Enemy". I doubt the wisdom of returning those soldiers to Joe Stalin for extermination. Europe cannot survive without a strong Germany. They will again close ranks and assert their rights as they endeavored to do twice previously, as the rightful ruler of Europe.

The same situation exists in China. Chiang Kai Shek will be their Liberator, with practically no bloodshed. He was asserting his rights as the rightful ruler of Asia, until the Sinister Hand within the White House turned the U.S.A. against him. The same Hand that turned us against Germany twice. Just to advise the People the Truth and let the World know "I'm coming on the mainland September 1st at 7:00 a.m.; you have nothing to fear, you can come with me if you so desire."

The underground, the subjected Nations, the Chinese and Russian Peoples, as well as the Red Russian and Red China Armies will recognize the Liberators after the proper propaganda. Start in the lowest level--the Precinct Meetings and carry through unrelentlessly. Do not permit One Worlders, Liberals, Communists, Anti-Anti-Communists or any off color breed into office. Think, talk, write, and act America First, Last and for All Time.

As sure as there is a God in Heaven, and the Christian Spirit is alive in man this Plan of Liberation from a mere handful of underhanded Anti-Christians will bring Peace, Prosperity and Good Fellowship to the World. I for one will welcome the opportunity to participate in the Great Crusade to make the world safe for Christianity.

Undoubtedly as long as the FRA is in effect we will never again breathe the Free Air that was once America; be free of debt; be free of Foreign Entanglements, Obligations and Influence; be free Citizens with full Constitutional Rights; but will continue to decline in Wealth and Power under the gradual process of suffocation by the stranglehold now being applied by the U.N. through the influence of the IZ's. Many plans have been formulated for the preservation of Peace, Freedom, Tranquility and Trade. In my estimation, if the Plan does not recognize the IZ's as the root of all evil, it is doomed to failure.

Undoubtedly the repeal of the FRA will correct the entire Worldwide dilemma, obviating the necessity of the Armies of Liberation. By so doing the English Speaking People will join hands in the defense of the Western Hemisphere, comprising approximately half of the Earth's surface. The two factions in China and Germany will join hands and tell the Russian Bear to go home. Their plan to divide and conquer has been successful. They also have Korea and Vietnam divided at the waists. They have divided both American Parties!

The best approach to repeal of the FRA is the Congressional Investigation Committee. They are the Peoples' Representatives and are immune from libel prosecution. The next alternative is Education of the People so that Public Opinion may bring sufficient pressure upon the Congress. The next alternative is the reassertion of States Rights. As in the past, the People themselves have devised means of accomplishing their wishes, when the Government failed to function. This would kill the main root of the insidious cancer. If unsuccessful, it would be well to launch two armies of Liberation to cut off the other two Roots in Peiping and Moscow.

The Chinese, Russians, as well as Americans are Peace-loving, God-fearing People oblivious of the fact that a handful of IZ's have "Taken them over". It is just a matter of getting the TRUTH through to them--just as simple as that.

So here we are--on the brink of disaster, just about sold down the river to a bunch of two-

...faced Aliens who pose as Americans, yet are stabbing us in the back at every turn. Communism and Socialism are merely vehicles of their vintage, on which they ride to power, on the crest of the waves. The Capitalists, Socialists, Laborers, Liberals, Progressives and One Worlders think they are charging into their own and don't realize that the tail is wagging the dog.

As an American Citizen you are under obligation to uphold the Constitution; to take a keen interest in the affairs of the Nation to preserve our American Heritage, so as to pass it on to the next Generation as we received it. Here's what you can do and advocate:

1. Wake up. Come to the party. Study the motives and results since they gained control of our affairs. You will become convinced that an Invisible Government has pushed us around. They have one purpose--to overthrow our Constitutional Government and replace same with the U.N. Charter.
2. Build the greatest Amphibious Air Corps in the world, with the most devastating stockpile of A & H Bombs. It would be well to forget about Armies, Navies, Tanks, Airplane Carriers, Air Fields, and Occupations. Build the greatest Radar Network in the world. We will not start the holocaust and I doubt if they will because many of their kind are in our midst. We should be prepared for immediate retaliation 10 for 1.
3. Constantly Think, Talk, Act and Vote. Our adversaries know what they are doing--we are confused. Within our shores, we have one hundred million dupes, morons, anti-anti-Communists, Liberals, non-thinkers and non-voters who are unaware of the fact that we are being taken for a ride.
4. Eliminate One Worlders from every office, especially the Presidency, by means of the Ballot.
5. Bring Public Opinion to bear upon our Representatives to Repeal the FRA.
6. Advocate the removal of the Government as well as Essential Industries from the British Isles to Canada. They need us and we need them. Overlook our petty differences. They are our only dependable friends and ally. Adopt the Western Hemisphere as the home area of the English Speaking Peoples--Asia for Asiatics--Europe for Europeans.
7. Get out of U.N. and U.N. out of U.S.
8. By all possible Propanda Media, especially TV, advise the American People that our Real Enemy is in Wall Street. Decentralize Money and Power, by means of States Rights, and State Banks. Advise the People what they have done to us, are doing and propose to do. "Know the truth, for the truth will make you free".
9. Bring Public Opinion to bear on our Government and Military Strategists to assist in every possible manner in the creation & expediting of the Armies of Liberation.
10. Know who your Enemy is. Do not get off on tangents which have no bearing on the main issue. We are not in an economic struggle. We are not engaged in a conflict for more land. We are not "on outs" with any Nation on the face of the Earth. Our enemy is primarily within--a small band of International Nomads.

Prior to our Date of Infamy (12-23-13) the Nation was divided horizontally at the Mason Dixon Line; Republicans to the North and Democrats to the South. Rightfully the Republican Party, the Party of Means, would favor Internationalism because of their Foreign Investments. It so happens that absent-minded Professor Woodrow Wilson (a Democrat) awakened from a dream on the wrong side of the bed with the Republican Foreign Policy of Internationalism; thereby splitting both Parties vertically into Conservatives in the West and Liberals in the East as shown below.

Millions of solid citizens, known as Over Educated Liberals, Progressives, Anti-Anti-Communists, and One Worlders are talking, writing and voting unknowingly right into the enemies hands. In case you are confused as to which side of the fence you are on, grade yourself on each of the following factors.

The Declaration of Independence, Constitution, Bill of Rights are the greatest documents of Government ever created in the minds of men. Nothing man-made is perfect, however it approaches perfection, more so than any other. It embodies the Trinity, which permeates the Universe and every phase thereof. It embodies Cardinal Principles laid down by Man, thousands of years ago. All of this as well as all of the efforts of our Forefathers has been stolen from us by a bunch of International Bandits while we smugly sip our Scotch and Soca and flaunt our inflated dollars.

It is not my purpose to alarm or frustrate anyone. I am merely endeavoring to awaken you to the fact that something is wrong in Washington, we are going downhill fast, things are not as they appear on the surface, your Free Way of Life, your Estate, Home and Family are in serious jeopardy.

In my humble opinion we sold our Birthright on 12/23/13, we killed the above Documents in 1945; we buried them in 1953 when the Bricker Amendment failed to pass; and 200 nails will be driven into the Coffin in 1955 when the U.N. Charter comes up for amendment.

To give you an idea of just what these 200 amendments to the U.N. Treaty involve.

1. At Geneva the other day the World Health Organization voted to assess Uncle Sam \$350,000.00. The Constitution states that public money can be appropriated only with the concurrence of both Houses of Congress. However, the Constitution also provide that "Treaties become the Supreme Law of the Land".
2. The Herald Express, California's largest newspaper, carried on March 30, 1954, the following unbelievable statement. We must believe it, however, because the responsibility of this great newspaper as well as the responsibility of the writer stands behind its accuracy: "The United Nations Bulletin for March 1, 1954, says (on page 96) that the United States has signed the Genocide Pact. If this is true, it is the saddest moment in the history of western civilization. For it means that the freedoms and safeguards that the English-speaking people have fought for and died for, since the days of Magna Charta, have been destroyed, stealthily and treacherously, without the voice of one American official being raised in their defense. The Genocide Pact provides for the trial and punishment of anyone accused of causing physical or mental harm to any member of a minority. It does not define what constitutes mental harm. But you can be taken, anywhere in the world, and tried, without a jury for having committed it. The pact is retroactive - you can be tried for alleged offenses committed 20 years ago. The pact would enable any President or head of a state to suppress a free press. This pact has not been ratified by the Senate, so it must have been signed by executive agreement. Is this the reason the White House fought so hard to defeat the Bricker Amendment?"

Gentlemen:

Wake up! You were asleep when the International Bankers influenced you to ratify the following un-American, unconstitutional Debaucheries, so as to further their plans for World Control:

1. Federal Reserve Act, whereby you handed them the full control of our money and policies.
2. Two Wars against Germany - our kind of people and rightful ally - for revenge and fear, so as to make their Puppet the Scourge of the Universe.
3. United Nations.
4. Truman went over your head to involve us in the Korean Debacle, while you were napping and unaware of the purposes and consequences.
5. Now you are about to kill our Last Hope. To censure McCarthy is to relinquish the Constitution.

All of our ailments stem from the Federal Reserve Act. Unless you restore to Congress their Constitutional Right to control our money, America will continue downhill to oblivion.

Respectfully yours,

The situation in Russia is typical of all countries behind the Iron Curtain. Their click represent 2% of Russia's population, yet 87% of them are in high places in government, business and professional circles.

Their plans for World Domination were laid down in 1848. They were kicked out and/or plowed under in every major country in Europe before finding a fertile field among the ignorant Russian Peons. By 1917 they were ripe for the picking. They annihilated the White Russian Government with Wall Street Capital. Jacob Schiff alone donated \$200,000,000 to their cause. That was 4 years after gaining control of our money as well as affairs through the DECEITFUL F.R.A.

Since that Date of Infamy, every war, depression, foreign conference, give away plan, treaty and covenant (League of Nations, U.N., NATO, UNESCO, NEA, ILO, ITO, NAACP, Genocide and Human Rights, etc.) have had only one motive -- destroy Uncle Sam and at the same time make Uncle Joe, their main Puppet, a World Power. They want you and I to fall into their scheme of things, under their anti-Christian Iron Heel -- and brother, they have almost succeeded. According to International Law they have accomplished their purpose.

There is one factor which they have overlooked in their foolhardy scheme; viz, the indomitable Spirit of the Freedom Loving Christian American which is everlasting. We have been asleep. The Truth has been kept from us. The TV broadcasting of Congressional Hearings was their Waterloo. One hundred million people saw with their own eyes that something is wrong. They learned from the expressions on their faces as well as through their ears. Never before has the Citizenry become so intensely interested in National Affairs.

It is as plain as the noses on their faces that they have hand-picked One Worlders as Presidential Candidates of both Parties every four years for the past forty years. They in turn have selected One Worlders as advisors, cabinet members, Supreme Court Justices, etc. We have elected YES MEN and followed them through two disastrous wars of their own making - Caucasian Christians annihilating Caucasian Christians. We now realize the folly of our efforts. Henceforth let's elect rugged individuals who cannot be bought, sold or advised - as MacArthur, Taft, T.R. or Will Rogers. We are oblivious to the fact that we are in the process of being "taken over" while basking in the bright sunshine of our False Economy as well as the various stages of our growing army of A.A.'s.

They have learned that Revolutions and Surprise Attacks are not necessary. They can accomplish the same results by means of Treaties and Propaganda. Our Constitutional Freedoms, as well as Christian American W.O.L. are being taken away from us by the process of suffocation. Each of the 200 amendments to the U.N. Treaty which come up for ratification next year is a nail in our American Heritage. In fact they have already injected several thorns into our sides. Many citizens are of the opinion that we were "taken over" in 1945 at which time the U.N. Treaty actually superseded the Constitution and became the Law of the Land.

It is inconceivable how the Senate as well as the President, all under oath to uphold the Constitution, could ratify the U.N. and veto the Bricker Amendment, - which tends to prove that it is "later than we think". It is hardly believable that the Senate could "laugh off" the testimony of Dr. Wm. A. Wirt regarding this Invisible Conspiracy 30 years ago. There is no use closing the gate after the horse is gone but many Senators have acknowledged their errors of judgment as well as statements on the Senate Floor regarding those

matters.

It is understandable how their hand-picked Presidents could overlook those matters as well as the testimony of Whittaker Chambers, et al.; but not the august Senate Bodies representing a cross-section of the People.

Regardless of whether you are a Republican or Democrat, Conservative or Liberal, if the Citizenry were aware of the fact that the "12 Men" who have been running us into the ground for 41 years are leaders of the International Zionist Movement; that they usurped from Congress the right to control our money; that they have profited 45 billions thereby; that they are the primary cause of our 274 billion indebtedness; that they manipulated every depression since 1913 for their own benefit; that they fostered and provoked World Wars I and II, plowing under the Sons of all parties, because of Fear, Hatred and Revenge for the Germans; they would throw them and their clique out of our Homeland. The sinking of the Lusitania and the bombing of Pearl Harbor were not as they appear on the surface. It would have been foolhardy for Germany to bring down the Wrath and Power of the United States. They warned us at the outset of both wars, that our interests were in their behalf. We are the same kind of People.

After 16 years of research, the writer has pin-pointed the root of our troubles to the "12 men" who gained control of our affairs at a meeting on Jekyll Island. I can tell you where they are, why they are there, how they act, who their stooges are, what they have done, what their motives are, etc., but I cannot tell you who they are. The Rats are just as cunning, suave, secretive and intelligent as Alger Hiss and Harry Dexter White. They will have to be "smelled" by the results and motives of their efforts. They financed Wilson's election with the proviso that he would ratify the F.R.A. They then reversed our Foreign Policy to Internationalism. FDR, HST and IKE followed the Leader.

Since 1938 the writer has expounded the Three Worlds concept as well as the move of the seat of British Government to Ottawa, (What England Should Do) - both fitting into the same pattern. If it were not for the Invisible Government, which changed our Foreign Policy from Nationalism to Internationalism; which assured W.W. that he would become President of the World under the League of Nations, as well as F.D.R. under the U.N.; which caused us to meddle in other people's affairs, where we had no business; which caused us to make Russia the Scourge of the Universe by three unnecessary wars and five unnecessary Give Away Foreign Conferences; the Three Spheres of Influence would be in effect today; viz, Europe, Asia and the Western Hemisphere, each managed by their respective Master Nation: Germany, China and the English Speaking Peoples. If we will now withdraw our troops from the Continents of Asia and Europe, the Three Worlds will come into being, just like water seeks its own level. Our first line of defense is the Western Hemisphere Perimeter, which constitutes the strings of islands just off the coasts of Asia and Europe.

Civilization is not yet ready for the One World concept, - which is the Millenium. We have ample proof of the practicability of Three Worlds because of the success of the Western Hemisphere, under the guidance of the U.S.A. and the application of the Monroe Doctrine and Good Neighbor Policy. Europe and Asia will adopt similar policies; thereby reducing the possibility of World Wars to a minimum. Since the beginning of time, man has been seeking short cuts to Utopia as Communism and One Worldism. They are doomed to fail as others have failed. They overlook God and/or Human Nature, by not providing an incentive for intensive, intelligent, creative effort. The abolition of private property, the pooling of the products of labor, the creation of the masses, the elimination of the classes and privileged few, paints a pretty picture for the lazy, the failures, who figure "What have we got to lose?", as well as the Minorities, who feel that they are being discriminated against. The dupes, morans, over-done intellectuals and over-inherited individuals do not understand the issues, do not have the proper perspective because of their backgrounds and do not know when they are well off.

The weakest link in our Great Republic is the preponderance of such voters as compared to the Red-Blooded Americans, who have made their way through their own efforts; who understand the issues; who are aware of the Invisible Steering Committee endeavoring to overthrow the Government; who appreciate the many advantages of our Free Enterprise System and who will fight to the end to uphold our Heritage.

It would be well that unlimited private capital be underwritten by the Conservatives of Both Parties immediately for the expressed purpose of Education of the People on National Affairs as well as the Free Enterprise System by means of unrelenting T.V. Broadcasts. There is still time. What is the Solution? Education and Action.

If we cannot get the TRUTH to the peoples of the World by means of normal channels, we may have to revert to dropping millions of leaflets from aeroplanes. At the present time they are even endeavoring to close the U.S. mails as a means of propagating the truth.

It would be well to circumvent all immaterial issues and strike right at the Heart of the Cancer: Wall Street, Moscow and Peiping. There is nothing to be accomplished by routing

the mice from the Government, Army, House Plants, etc. While Rats are in the street. We cannot fight Rats with perfume. Liquidation of the Rats, the Mice will walk like leaves on a vine. We prospered like no other Nation in History until 1913 minding our own affairs and maintaining peace, order and safety in the Western Hemisphere. Since then we have been going down hill financially and physically under Internationalism. In my humble judgment, unless we Repeal the FRA we will continue down hill to oblivion. It would be well for every understanding American to donate one-half of his Estate for this purpose because after the 1955 Amendments to the U.N. are stuffed down our throats, our Estates will be worthless. By getting the TRUTH to the people, the members of both Houses as well as the White House will be swamped with letters, telegrams, phone calls and personal calls. They will have no alternative except repeal of the FRA. Sooner or later England will join hands with us in the building of the "Invisible New World", (published by this writer in 1941 as a Pre-War Plan). Europe and Asia need our Trade and Travel more than we need theirs, so there will be no isolationism.

By getting the TRUTH to the Peoples of Asia and Europe in language they understand and by persons in whom they have confidence, the Chinese and Russians will welcome invading armies as liberators and join them in their marches to Peiping and Moscow. Hitler was unaware of the fact that only a handful of IZ's in Moscow were his enemy. He was not a typical German - he corresponded to Al Capone. He did not realize the significance of Four Million Soldiers immediately coming over to his side, considering him their Liberator. That is ample proof that armies of Liberation are the solution. He met his Waterloo when he said "Every Russian is my Enemy". I doubt the wisdom of returning those soldiers to Joe Stalin for extermination. Europe cannot survive without a strong Germany. They will again close ranks and assert their rights as they endeavored to do twice previously, as the rightful ruler of Europe.

The same situation exists in China. Chiang Kai Shek will be their Liberator, with practically no bloodshed. He was asserting his rights as the rightful ruler of Asia, until the Sinister Hand within the White House turned the U.S.A. against him. The same Hand that turned us against Germany twice. Just to advise the People the Truth and let the World know "I'm coming on the mainland September 1st at 7:00 a.m.; you have nothing to fear, you can come with me if you so desire."

The underground, the subjected Nations, the Chinese and Russian Peoples, as well as the Red Russian and Red China Armies will recognize the Liberators after the proper propaganda. Start in the lowest level--the Precinct Meetings and carry through unrelentlessly. Do not permit One Worlders, Liberals, Communists, Anti-Anti-Communists or any off color breed into office. Think, talk, write, and act America First, Last and for All Time.

As sure as there is a God in Heaven, and the Christian Spirit is alive in man this Plan of Liberation from a mere handful of underhanded Anti-Christians will bring Peace, Prosperity and Good Fellowship to the World. I for one will welcome the opportunity to participate in the Great Crusade to make the world safe for Christianity.

Undoubtedly as long as the FRA is in effect we will never again breathe the Free Air that was once America; be free of debt; be free of Foreign Entanglements, Obligations and Influence; be free Citizens with full Constitutional Rights; but will continue to decline in Wealth and Power under the gradual process of suffocation by the stranglehold now being applied by the U.N. through the influence of the IZ's. Many plans have been formulated for the preservation of Peace, Freedom, Tranquility and Trade. In my estimation, if the Plan does not recognize the IZ's as the root of all evil, it is doomed to failure.

Undoubtedly the repeal of the FRA will correct the entire Worldwide dilemma, obviating the necessity of the Armies of Liberation. By so doing the English Speaking People will join hands in the defense of the Western Hemisphere, comprising approximately half of the Earth's surface. The two factions in China and Germany will join hands and tell the Russian Bear to go home. Their plan to divide and conquer has been successful. They also have Korea and Vietnam divided at the waists. They have divided both American Parties!

The best approach to repeal of the FRA is the Congressional Investigation Committee. They are the Peoples' Representatives and are immune from libel prosecution. The next alternative is Education of the People so that Public Opinion may bring sufficient pressure upon the Congress. The next alternative is the reassertion of States Rights. As in the past, the People themselves have devised means of accomplishing their wishes, when the Government failed to function. This would kill the main root of the insidious cancer. If unsuccessful, it would be well to launch two armies of Liberation to cut off the other two Roots in Peiping and Moscow.

The Chinese, Russians, as well as Americans are Peace-loving, God-fearing People oblivious of the fact that a handful of IZ's have "Taken them over". It is just a matter of getting the TRUTH through to them--just as simple as that.

So here we are--on the brink of disaster, just about sold down the river to a bunch of two-

• faced Aliens who pose as Americans, are stabbing us in the back at every turn. Communism and Socialism are merely vehicles of their vintage, on which they ride 100% power, on the crest of the waves. The Communists, Socialists, Laborers, Liberals, Progressives and One Worlders think they are coming into their own and don't realize that the tail is wagging the dog.

As an American Citizen you are under obligation to uphold the Constitution; to take a keen interest in the affairs of the Nation to preserve our American Heritage, so as to pass it on to the next Generation as we received it. Here's what you can do and advocate:

1. Wake up. Come to the party. Study the motives and results since they gained control of our affairs. You will become convinced that an Invisible Government has pushed us around. They have one purpose--to overthrow our Constitutional Government and replace same with the U.N. Charter.
2. Build the greatest Amphibious Air Corps in the world, with the most devastating stockpile of A & H Bombs. It would be well to forget about Armies, Navies, Tanks, Airplane Carriers, Air Fields, and Occupations. Build the greatest Radar Network in the world. We will not start the holocaust and I doubt if they will because many of their kind are in our midst. We should be prepared for immediate retaliation 10 for 1.
3. Constantly Think, Talk, Act and Vote. Our adversaries know what they are doing--we are confused. Within our shores, we have one hundred million dupes, morons, anti-anti-Communists, Liberals, non-thinkers and non-voters who are unaware of the fact that we are being taken for a ride.
4. Eliminate One Worlders from every office, especially the Presidency, by means of the Ballot.
5. Bring Public Opinion to bear upon our Representatives to Repeal the FRA.
6. Advocate the removal of the Government as well as Essential Industries from the British Isles to Canada. They need us and we need them. Overlook our petty differences. They are our only dependable friends and ally. Adopt the Western Hemisphere as the home area of the English Speaking Peoples--Asia for Asiatics--Europe for Europeans.
7. Get out of U.N. and U.N. out of U.S.
8. By all possible Propanda Media, especially TV, advise the American People that our Real Enemy is in Wall Street. Decentralize Money and Power, by means of States Rights, and State Banks. Advise the People what they have done to us, are doing and propose to do. "Know the truth, for the truth will make you free".
9. Bring Public Opinion to bear on our Government and Military Strategists to assist in every possible manner in the creation & expediting of the Armies of Liberation.
10. Know who your Enemy is. Do not get off on tangents which have no bearing on the main issue. We are not in an economic struggle. We are not engaged in a conflict for more land. We are not "on outs" with any Nation on the face of the Earth. Our enemy is primarily within--a small band of International Nomads.

Prior to our Date of Infamy (12-23-13) the Nation was divided horizontally at the Mason Dixon Line; Republicans to the North and Democrats to the South. Rightfully the Republican Party, the Party of Means, would favor Internationalism because of their Foreign Investments. It so happens that absent-minded Professor Woodrow Wilson (a Democrat) awakened from a dream on the wrong side of the bed with the Republican Foreign Policy of Internationalism; thereby splitting both Parties vertically into Conservatives in the West and Liberals in the East as shown below.

Millions of solid citizens, known as Over Educated Liberals, Progressives, Anti-Anti-Communists, and One Worlders are talking, writing and voting unknowingly right into the enemies hands. In case you are confused as to which side of the fence you are on, grade yourself on each of the following factors.

The Declaration of Independence, Constitution, Bill of Rights are the greatest documents of Government ever created in the minds of men. Nothing man-made is perfect, however it approaches perfection, more so than any other. It embodies the Trinity, which permeates the Universe and every phase thereof. It embodies Cardinal Principles laid down by Man, thousands of years ago. All of this as well as all of the efforts of our Forefathers has been stolen from us by a bunch of International Bandits while we smugly sip our Scotch and Soca and flaunt our inflated dollars.

It is not my purpose to alarm or frustrate anyone. I am merely endeavoring to awaken you to the fact that something is wrong in Washington, we are going downhill fast, things are not as they appear on the surface, your Free Way of Life, your Estate, Home and Family are in serious jeopardy.

In my humble opinion we sold our Birthright on 12/23/13, we killed the above Documents in 1945; we buried them in 1953 when the Bricker Amendment failed to pass; and 200 nails will be driven into the Coffin in 1955 when the U.N. Charter comes up for amendment.

To give you an idea of just what these 200 amendments to the U.N. Treaty involve.

1. At Geneva the other day the World Health Organization voted to assess Uncle Sam \$350,000.00. The Constitution states that public money can be appropriated only with the concurrence of both Houses of Congress. However, the Constitution also provide that "Treaties become the Supreme Law of the Land".
2. The Herald Express, California's largest newspaper, carried on March 30, 1954, the following unbelievable statement. We must believe it, however, because the responsibility of this great newspaper as well as the responsibility of the writer stands behind its accuracy: "The United Nations Bulletin for March 1, 1954, says (on page 96) that the United States has signed the Genocide Pact. If this is true, it is the saddest moment in the history of western civilization. For it means that the freedoms and safeguards that the English-speaking people have fought for and died for, since the days of Magna Charta, have been destroyed, stealthily and treacherously, without the voice of one American official being raised in their defense. The Genocide Pact provides for the trial and punishment of anyone accused of causing physical or mental harm to any member of a minority. It does not define what constitutes mental harm. But you can be taken, anywhere in the world, and tried, without a jury for having committed it. The pact is retroactive - you can be tried for alleged offenses committed 20 years ago. The pact would enable any President or head of a state to suppress a free press. This pact has not been ratified by the Senate, so it must have been signed by executive agreement. Is this the reason the White House fought so hard to defeat the Bricker Amendment?"

Constructively yours,

The U. S. Senate
Washington, D. C.

Gentlemen:

Wake up! You were asleep when the International Bankers influenced you to ratify the following un-American, unconstitutional Debaucheries, so as to further their plans for World Control:

1. Federal Reserve Act, whereby you handed them the full control of our money and policies.
2. Two Wars against Germany - our kind of people and rightful ally - for revenge and fear, so as to make their Puppet the Scourge of the Universe.
3. United Nations.
4. Truman went over your head to involve us in the Korean Debacle, while you were napping and unaware of the purposes and consequences.
5. Now you are about to kill our Last Hope. To censure McCarthy is to relinquish the Constitution.

All of our ailments stem from the Federal Reserve Act. Unless you restore to Congress their Constitutional Right to control our money, America will continue downhill to oblivion.

Respectfully yours,

W. B. Vennard

DEC 8 - 1954

Big-hearted, gullible Uncle Sam fought the last three wars without purpose. We had no enemies then, as well as now, from Without. Then and Now our Enemy was and is Within -- the International Zionists, who have steered our Ship of State from Wall Street, by means of Money Control. The adopted name, Federal Reserve System, would lead one to believe that it is a Government Monetary Protective Agency. It is nothing of the sort. It is a Private Corporation of International Bankers. Their motto is, "Give me the power to issue a nation's money; then I do not care who makes the laws." It is very easy to shrug your shoulders and say, "fantastic". It will require extensive research to arrive at that conclusion. You may take confidence in one who has done so.

We are not deserving of the name "Christian Americans", to sit behind rose colored glasses and permit a handful of 12's to tear down 1954 years of constructive civilization. Their plans have been laid down and carried out half way to date, to control the world through the control of money. Because they own all Propaganda Media it is difficult to get the TRUTH through. What would your reaction be to awake to the fact that you are no longer an American Citizen with Constitutional Rights, but a Citizen of the World with rights as prescribed by the U.N. The Supreme Court of California has already so ruled.

They believe that they are God's chosen people and destined to lead the World. They believe that they have superior intellects regarding money matters, politics, science, research, etc. I will have to admit that I never saw a dumb one. However, their intelligence is misguided. They are continually conniving. They are anti-everything for which we stand. They fit into no part of our Way of Life.

The situation in Russia is typical of all countries behind the Iron Curtain. Their click represent 2% of Russia's population, yet 87% of them are in high places in government, business and professional circles.

Sooner or later England will join hands with us in the building of the "Invisible New World", (published by this writer in 1941 as a Pre-War Plan). Europe and Asia need our Trade and Travel more than we need theirs, so there will be no isolationism.

By getting the TRUTH to the Peoples of Asia and Europe in language they understand and by persons in whom they have confidence, the Chinese and Russians will welcome invading armies as liberators and join them in their marches to Peiping and Moscow. Hitler was unaware of the fact that only a handful of IZ's in Moscow were his enemy. He was not a typical German - he corresponded to Al Capone. He did not realize the significance of Four Million Soldiers immediately coming over to his side, considering him their Liberator. That is ample proof that armies of Liberation are the solution. He met his Waterloo when he said "Every Russian is my Enemy". I doubt the wisdom of returning those soldiers to Joe Stalin for extermination. Europe cannot survive without a strong Germany. They will again close ranks and assert their rights as they endeavored to do twice previously, as the rightful ruler of Europe.

The same situation exists in China. Chiang Kai Shek will be their Liberator, with practically no bloodshed. He was asserting his rights as the rightful ruler of Asia, until the Sinister Hand within the White House turned the U.S.A. against him. The same Hand that turned us against Germany twice. Just to advise the People the Truth and let the World know "I'm coming on the mainland September 1st at 7:00 a.m.; you have nothing to fear, you can come with me if you so desire."

The underground, the subjected Nations, the Chinese and Russian Peoples, as well as the Red Russian and Red China Armies will recognize the Liberators after the proper propaganda. Start in the lowest level--the Precinct Meetings and carry through unrelentlessly. Do not permit One Worlders, Liberals, Communists, Anti-Anti-Communists or any off color breed into office. Think, talk, write, and act America First, Last and for All Time.

As sure as there is a God in Heaven, and the Christian Spirit is alive in man this Plan of Liberation from a mere handful of underhanded Anti-Christians will bring Peace, Prosperity and Good Fellowship to the World. I for one will welcome the opportunity to participate in the Great Crusade to make the world safe for Christianity.

Undoubtedly as long as the FRA is in effect we will never again breathe the Free Air that was once America; be free of debt; be free of Foreign Entanglements, Obligations and Influence; be free Citizens with full Constitutional Rights; but will continue to decline in Wealth and Power under the gradual process of suffocation by the stranglehold now being applied by the U.N. through the influence of the IZ's. Many plans have been formulated for the preservation of Peace, Freedom, Tranquility and Trade. In my estimation, if the Plan does not recognize the IZ's as the root of all evil, it is doomed to failure.

Undoubtedly the repeal of the FRA will correct the entire Worldwide dilemma, obviating the necessity of the Armies of Liberation. By so doing the English Speaking People will join hands in the defense of the Western Hemisphere, comprising approximately half of the Earth's surface. The two factions in China and Germany will join hands and tell the Russian Bear to go home. Their plan to divide and conquer has been successful. They also have Korea and Vietnam divided at the waists. They have divided both American Parties!

The best approach to repeal of the FRA is the Congressional Investigation Committee. They are the Peoples' Representatives and are immune from libel prosecution. The next alternative is Education of the People so that Public Opinion may bring sufficient pressure upon the Congress. The next alternative is the reassertion of States Rights. As in the past, the People themselves have devised means of accomplishing their wishes, when the Government failed to function. This would kill the main root of the insidious cancer. If unsuccessful, it would be well to launch two armies of Liberation to cut off the other two Roots in Peiping and Moscow.

The Chinese, Russians, as well as Americans are Peace-loving, God-fearing People oblivious of the fact that a handful of IZ's have "Taken them over". It is just a matter of getting the TRUTH through to them--just as simple as that.

So here we are--on the brink of disaster, just about sold down the river to a bunch of two-

...faced Aliens who pose as Americans, are stabbing us in the back at every turn. Communism and Socialism are merely vehicles of their vintage, on which they ride in power, on the crest of the waves. The Communists, Socialists, Laborers, Liberals, Progressives and One Worlders think they are coming into their own and don't realize that the tail is wagging the dog.

As an American Citizen you are under obligation to uphold the Constitution; to take a keen interest in the affairs of the Nation to preserve our American Heritage, so as to pass it on to the next Generation as we received it. Here's what you can do and advocate:

1. Wake up. Come to the party. Study the motives and results since they gained control of our affairs. You will become convinced that an Invisible Government has pushed us around. They have one purpose--to overthrow our Constitutional Government and replace same with the U.N. Charter.
2. Build the greatest Amphibious Air Corps in the world, with the most devastating stockpile of A & H Bombs. It would be well to forget about Armies, Navies, Tanks, Airplane Carriers, Air Fields, and Occupations. Build the greatest Radar Network in the world. We will not start the holocaust and I doubt if they will because many of their kind are in our midst. We should be prepared for immediate retaliation 10 for 1.
3. Constantly Think, Talk, Act and Vote. Our adversaries know what they are doing--we are confused. Within our shores, we have one hundred million dupes, morons, anti-anti-Communists, Liberals, non-thinkers and non-voters who are unaware of the fact that we are being taken for a ride.
4. Eliminate One Worlders from every office, especially the Presidency, by means of the Ballot.
5. Bring Public Opinion to bear upon our Representatives to Repeal the FRA.
6. Advocate the removal of the Government as well as Essential Industries from the British Isles to Canada. They need us and we need them. Overlook our petty differences. They are our only dependable friends and ally. Adopt the Western Hemisphere as the home area of the English Speaking Peoples--Asia for Asiatics--Europe for Europeans.
7. Get out of U.N. and U.N. out of U.S.
8. By all possible Propanda Media, especially TV, advise the American People that our Real Enemy is in Wall Street. Decentralize Money and Power, by means of States Rights, and State Banks. Advise the People what they have done to us, are doing and propose to do. "Know the truth, for the truth will make you free".
9. Bring Public Opinion to bear on our Government and Military Strategists to assist in every possible manner in the creation & expediting of the Armies of Liberation.
10. Know who your Enemy is. Do not get off on tangents which have no bearing on the main issue. We are not in an economic struggle. We are not engaged in a conflict for more land. We are not "on outs" with any Nation on the face of the Earth. Our enemy is primarily within--a small band of International Nomads.

Prior to our Date of Infamy (12-23-13) the Nation was divided horizontally at the Mason Dixon Line; Republicans to the North and Democrats to the South. Rightfully the Republican Party, the Party of Means, would favor Internationalism because of their Foreign Investments. It so happens that absent-minded Professor Woodrow Wilson (a Democrat) awakened from a dream on the wrong side of the bed with the Republican Foreign Policy of Internationalism; thereby splitting both Parties vertically into Conservatives in the West and Liberals in the East as shown below.

Millions of solid citizens, known as Over Educated Liberals, Progressives, Anti-Anti-Communists, and One Worlders are talking, writing and voting unknowingly right into the enemies hands. In case you are confused as to which side of the fence you are on, grade yourself on each of the following factors.

The Declaration of Independence, Constitution, Bill of Rights are the greatest documents of Government ever created in the minds of men. Nothing man-made is perfect, however it approaches perfection, more so than any other. It embodies the Trinity, which permeates the Universe and every phase thereof. It embodies Cardinal Principles laid down by Man, thousands of years ago. All of this as well as all of the efforts of our Forefathers has been stolen from us by a bunch of International Bandits while we smugly sip our Scotch and Soca and flaunt our inflated dollars.

It is not my purpose to alarm or frustrate anyone. I am merely endeavoring to awaken you to the fact that something is wrong in Washington, we are going downhill fast, things are not as they appear on the surface, your Free Way of Life, your Estate, Home and Family are in serious jeopardy.

In my humble opinion we sold our Birthright on 12/23/13, we killed the above Documents in 1945; we buried them in 1953 when the Bricker Amendment failed to pass; and 200 nails will be driven into the Coffin in 1955 when the U.N. Charter comes up for amendment.

To give you an idea of just what these 200 amendments to the U.N. Treaty involve.

1. At Geneva the other day the World Health Organization voted to assess Uncle Sam \$350,000.00. The Constitution states that public money can be appropriated only with the concurrence of both Houses of Congress. However, the Constitution also provide that "Treaties become the Supreme Law of the Land".
2. The Herald Express, California's largest newspaper, carried on March 30, 1954, the following unbelievable statement. We must believe it, however, because the responsibility of this great newspaper as well as the responsibility of the writer stands behind its accuracy: "The United Nations Bulletin for March 1, 1954, says (on page 96) that the United States has signed the Genocide Pact. If this is true, it is the saddest moment in the history of western civilization. For it means that the freedoms and safeguards that the English-speaking people have fought for and died for, since the days of Magna Charta, have been destroyed, stealthily and treacherously, without the voice of one American official being raised in their defense. The Genocide Pact provides for the trial and punishment of anyone accused of causing physical or mental harm to any member of a minority. It does not define what constitutes mental harm. But you can be taken, anywhere in the world, and tried, without a jury for having committed it. The pact is retroactive - you can be tried for alleged offenses committed 20 years ago. The pact would enable any President or head of a state to suppress a free press. This pact has not been ratified by the Senate, so it must have been signed by executive agreement. Is this the reason the White House fought so hard to defeat the Bricker Amendment?"

Constructively yours,

Would you willingly relinquish the finely balanced power between our Three Branches of Government to ONE MAN, who would be all-powerful, who could hand-pick the Presidential candidates, pack the Supreme Court, and by-pass the Congress, whereby the destiny of our Nation, our Way-of-life, as well as our very lives, could be dependent upon his whims, fancies, ambitions, motives, integrity, and his alone?

If he saw fit to mismanage our affairs for personal reasons, he would have the power to do so, and so disguise his acts that it would be next to impossible to uncover the "sheep in lamb's clothing."

Would it surprise you to learn that we have been under just such a form of Dictatorship for 42 years? Yes, sir -- the Federal Reserve System affords just such a set-up.

This process of Cold Revolution is so stealthy, stifling and conniving that we will never know just when we have been taken over. If he has not as yet usurped 100% control, he can and will do so in time, because the means to that end has been established.

Is there still time? It behooves us to put down our scotch and soda for a moment, take off the rose-colored glasses, indulge in some unpleasant deep thought, create Public Opinion, demand Action, or forever hold to our Passive Resistance or Co-existence.

To appreciate what this means, it is necessary to have some understanding of Corporate Structure, Monetary Structure, as well as the structure of the Constitution as compared to the United Nations. The chain of events and principles which brought about this Revolutionary change in our affairs are as follows:

1. Money is Power. Money talks. He who holds the Purse Strings has all of the PULL and pulls all of the strings. "Let me control the money of any Nation, and I care not who makes the Laws."

2. The all-powerful "whip handle" in national affairs is obtained through the Printing, Evaluation and Control of Money. Our Founding Fathers well knew this Potential Power, and so set out in the Constitution that the Congress alone should have those authorities.

3. In every Corporation one man ultimately gets control.

4. A Private Corporation was formed when the U. S. Senate, under the guidance of Wilson, House and Baruch, handed over those sacred, all-powerful privileges to the Money Group on a silver platter.

5. Through the influence of interlocking Boards of Directors our Foreign Policy was changed overnight from Monroe Doctrinism to Interventionism to better serve the "vested interests" as well as other ulterior motives. The International Investors, Bankers and Nomads, the "12 men" who run this country, the Invisible Conspiracy, the Federal Reserve Conspiracy, the Hidden Hands behind our Government are all Birds of a Feather, one and the same, and hereinafter referred to as "They."

6. The Internationalists have just about accomplished their purpose -- to change us from U. S. citizens under the Constitution to Citizens of the World under their brain-storm, the United Nations.

Until December 23, 1913, America prospered like no other Nation in history. Why? Because our EVERY move was in accordance with the Constitution and the purposes for which this Great Nation was founded.

Since our Date of Infamy, the skids have been under our Ship of State. We have been going downhill mighty fast. Never before has Uncle Sam been in such extreme jeopardy; not militarily, even though we have squandered and scattered our Forces to the four corners of the Earth without avail and for ulterior purposes; not financially, even though we

are 275 billion in debt; but because of the loss of or the giving up of our National Heritage, Pride and Humility. Why? VOLUMES could be written relative to the causes, effects and motives of the hundreds of Un-American and Un-Constitutional Acts, Wars, Secret Give-away Conferences, Peace Conferences, Executive Agreements, Treaties into which we have been steered by a mere handful of men posing as staunch Americans, but actually the most insidious traitors of all time.

On that unforgettable, regrettable date an alien (Paul Warburg) from Eastern Europe secretly concocted the Federal Reserve Act, concealed the real motives in 4,000 pages of fine print, pushed it through the U. S. Senate, and had himself elected Chairman of the Board. The title is a subterfuge. It is a Private Corporation of International Bankers. As in all Corporate Structures, he owned it, controlled it, and manipulated it as he wished. Through the control of money they have controlled all of our elections and policies; engaged us in mortal combat with our First Cousins; made it appear as though we had been attacked; created Bull Markets; brought on financial crashes, etc. The control of our money should not be delegated to a Private Corporation because it places too much power in the hands of and at the discretion of ONE MAN.

They financed Woodrow Wilson's election, with the proviso that he ratify the F. R. A. They then financed the Russian Revolution. They then reversed our Foreign Policy from Nationalism to Internationalism. Through their cunning manipulations the U. S. became involved in THREE WARS, where we had no business, in which we could gain nothing. We were told that the Kaiser was out to conquer the World; whereas he was only asserting his rightful position as the Master Nation of Europe as we did in the Western Hemisphere. We were told that Hitler could and would cross the Atlantic; whereas he was not even successful in crossing the English Channel. We were forewarned by both, that the English speaking peoples were not their enemy. We were told that the Chinese Reds were Agrarian Reformers; to withdraw our troops from Korea as well as our aid from Chiang Kai-Shek.

In each instance they had their reasons for involving U. S. in those Un-American debaucheries. It is well documented that the Lusitania, Pearl Harbor, and Agrarian Reformer Incidents were manipulated, preconceived fomentations. They accomplished their purpose by making their Puppet (U. S. S. R.) a World Power with one-half of the peoples of the world under their control. Considering their infiltration and influence in the Free World, Bolshevism controls two-thirds today. We are now beginning to see the errors of our ways after spilling the flower of our manhood on Flanders Field. Then they dreamed up the League of Nations. Thank goodness, we had some staunch Americans in the Senate to vote it down. They resurrected the same deal in 1945, and caught a bunch of weak sisters napping in the Senate, and pulled the fine print of the United Nations Charter over their eyes, in the same manner by which the F. R. A. was ratified. Senator McCarran recently said, "Until my dying day, I will regret signing the United Nations Charter." There is no use closing the gate after the horse is gone. We will have to go out and catch those two horses (F. R. A. and U. N.); put them back within the confines of the stable (Constitution) and lock them in forevermore (by repealing both Acts). Instead of reading, studying and ferreting out the real motives, the great majority of our Representatives simply voted as a Party or as influenced.

They are so suave that they have been able to use the following fronts as vehicles on which to ride into power, and yet make the Fronts feel that they will reap the end benefits, viz., Communism, Socialism, Satelites, Minorities, Schools, Churches, Labor, Christianity, Judaism, Colored People, Stooges, Puppets and Dupes.

It is well known WHERE, WHY and HOW they are, but not one in a million knows WHO they are. Their stooges, hand picked politicians and lieutenants, are fairly well known. Many years and many thousands of dollars were required to "put the finger" on two of their lieutenants, Alger Hiss and Harry Dexter White. Even so, the Courts were unable to prove Treason. Just as surely as the sun will rise tomorrow morning, the Congressional Investigating Committee will find the Big Rats in the Rafters of the Federal Reserve Act. Not only all of our troubles, but all of the World's troubles stem therefrom.

Our Founding Fathers were not a bunch of smug, complacent, over-rich, over-stuffed, bleary-eyed cocktail sippers like the present bunch of soft figureheads. In

addition, they were makers, men of intelligence and of purpose. When they incorporated in the greatest document of Government ever conceived by man (the Constitution), that the Congress shall have control of the printing of our money and the evaluation thereof, they were well aware of its fundamental importance, potential and consequences, yet this generation hands over those vulnerable privileges to one man - an alien of very short citizenship - the foulest betrayal in the history of Civilization - an International Strait-jacket.

The United Nations is an off-shoot therefrom; both are controlled from the same root.

Russia is not our enemy. China was not our enemy in the Korean War. Germany was not our enemy in World Wars I and II. Japan was not our enemy. We are now endeavoring to make allies of Germany and Japan. Not so many years ago we gave our Allies, Russia and China, each Thirteen Billion Dollars. On every turn our State and Intelligence Departments have been barking up the wrong tree. Our enemy is WITHIN our shores; within the confines of ONE street (Wall Street); within the scope of ONE Corporation (the Federal Reserve System); within the mind, heart and hands of ONE man (the Chairman of the Board).

It has been proven without doubt that we were provoked, jockeyed, and pushed into the last three wars through the back door. The sinking of the Lusitania, Pearl Harbor, and withdrawal of support to Chiang Kai-shek were premeditated traps, set by an Invisible Handful of International Bankers and/or International Nomads behind our Government. They had ulterior purposes. They carefully prepared the above events so as to make it appear to the masses that Uncle Sam had no other alternative except to fight for our National Honor due to aggression against us. We just had to make the world Safe for Democracy, and other globolony. On two occasions they caused Christian Caucasians to fight Christian Caucasians, so as to make their slavish athiestic puppet the scourge of the universe, because of fear, revenge and hatred of and for the Germans. We were bled white, Germany was devastated and divided; then they endeavored to put over a plan to demilitarize and de-industrialize Germany forever (concocted by Morgenthau and Harry Dexter White). They further planned to divide Germany, the bulwark of Europe, into small farms, as a means of making peons of astute Christian peoples.

It matters not that we have become head over heels in debt. In fact, it would be healthy for all of us to go flat broke, so as to get a fresh start on a rock bottom. It would jolt us into the realization that there is something radically wrong in our affairs. We would then come to our senses and lose that smug, complacent, high-hat attitude.

However, there is no wrong to equal the plowing under of millions of fine, upright, courageous, patriotic boys for purposes other than that which they were led to believe. I say to you that every boy who gave up his life in those wars did so in vain. They were thrown to the four winds of the Earth by the Invisible Conspiracy, in order to further their plans to control the World through the control of money.

This clique hid out on Jekyll Island until they devised the most insidious steal in history -- the Federal Reserve System. The title and the propaganda led the Citizenry to believe that this was a necessary, Government, Non-Profit Agency, designed purely and simply for the protection of our economic and monetary system. It is nothing of the sort. It is a private corporation of International Bankers designed specifically to usurp the Constitutional Rights of Congress to print and evaluate our money, so that they can control our affairs and ultimately the affairs of the World. The original capital stock was 147 millions; whereas today it has pyramided to 45 Billions. Originally the Treasurer ex-officio was an appointed member of the Board. This was discontinued in 1935. It is apparent that it was not necessary to relieve the Congress of their Constitutional Rights, Privileges and Responsibilities regarding the printing, evaluating and controlling of our money; the Government has nothing to do with it; it was established for Profit, and finally it is not an Agency, but is a Private Corporation.

They have hand-picked Internationalists or One-Worlders for Presidential candidates and other high offices of both parties. The people clamor for a change of administration; they vote for it; but when the smoke clears away we have the same old Internationalism

and/or Interventionism. Wilson, F. D. R., H. S. T., ADLAI were placed on the Democratic ticket while Landon, Wilke, Dewey and Ike on the Republican ticket -- all one-Worlders. How can they lose? How can we get a conservative, red-blooded American in office? They hold the whip-handle. They own the propaganda media. They control the armed forces and ammunition. What has become of the State Militia?

They crucified the only two Conservatives or "America Firsters" who slipped through their net. They took 300 million out of circulation and shipped billions of gold to Europe, so as to cause the 1929 Crash, pinned it on Hoover, then bought up what they wanted for 20 cents on the dollar. They spent millions to tell the American dupes that Taft could not win because he lacked color. Sure enough, millions flopped over to their Puppet. Even so, Taft came within an ace of being elected; which would have meant that McArthur would now be President; and Knowland, Secretary of State, or vice versa. We need rugged men in such positions who cannot be influenced and will not dance to the tune of advisers. Our self-appointed, Presidential advisers, viz., House, Hopkins, Sidney, Eleanor, Milton Eisenhower and Baruch, etc. have been the downfall of this Nation.

If a brigand should break into your home, steal your money, corrupt your way of life and take over your affairs, would you stick your head in the ground like an ostrich; or use all means within your power to eradicate him; or would you endeavor to teach him your way of life, the folly of his, and the advantages of co-existence?

That is exactly what has happened to this Nation. We have already been taken over. When the austere Senate Body, as well as the President, while under oath to uphold the Constitution, ratified the United Nations Treaty and vetoed the Bricker Amendment, I would say that we have ceased to be American Citizens under the Constitution, but legally and actually have become Citizens of the World under the United Nations Charter. F. D. R. and H. S. T. laughed it off. Like an iceberg, it is a small matter on the surface, but nine-tenths is submerged -- that is where the danger lies. From 1938 to 1948 the F. B. I. and the Justice Department smelled a rat (Hiss); but it took the Congress to smoke him out. The regular Government Departments failed to function. After much time, effort and money they could only pin perjury onto him. Likewise for Harry Dexter White; and they are mere mice fronting for the Big Boys pulling our Purse Strings. Let's chase the money-changers from the Temple.

They found a loophole in our Constitution, viz., "A Treaty supersedes the Constitution." According to the California Supreme Court, the Law of the Land since 1945 is the U. N. Charter. Our way of life is steadily being transformed by means of Treaties, Executive Agreements, Foreign Entanglements, and Amendments to the U. N. Charter. Alger Hiss sat between Stalin and the U. S. Presidents during the Yalta, Potsdam, Quebec and Teheran secret conferences. Harry Dexter White represented U. S. at Dumbarton Oaks. NATO, SEATO, SOFT (Status of Forces Treaty), ILO, ITO, NEA, UNESCO are now in effect. The Genocide Covenant, Covenant of Human Rights and 200 other amendments have been prepared for U. N. ratification in 1955. We cannot withdraw after this year.

History will prove that the F. R. A., League of Nations, United Nations, Russian Revolution, two World Wars, Korean War, 1929 Crash, etc., were their brain children, established for purposes contrary to the best interests of the United States.

We will never again breathe the free air that was once America so long as the Federal Reserve Act is in effect. All other issues are immaterial, irrelevant and beside the point. As soon as the cancer is cured, all of the Un-American activities which stem from that root will wither like leaves on a vine. Sen. Jerry Voorhis made a similar statement several years ago on the Senate floor. When he came up for re-election, millions were spent for his defeat, and Senator Richard Nixon replaced him. Twenty years ago Professor William A. Wirt of Indiana University was invited to a supper which was arranged by and for the International Nomads, at which time their plans for World Control were made known. Many Senators attended. They evidently judged him to be a Liberal because of his occupation. He publicly told the Senate Body of the conniving plans to overthrow our Government. Those Senators who attended denied the truth of his remarks. After the death of Professor Wirt, those same Senators rescinded their statements. One in particular, Rep. John J. O'Connor (N. Y.), a member of the Bulwinkle

Congressional Committee (1934), established for the purpose of hearing Dr. Wirt disclose his personal knowledge of Traitors in High Government Circles. They ridiculed Dr. Wirt and refused to hear witnesses he promised would corroborate his story. Rep. O'Connor advised our stalwart Senate Body, "On the 6th anniversary of the purging of Dr. Wirt before a Special Congressional Committee, of which I was a member, I desire to relieve my conscience of a matter which has long burdened it. Maybe, in our hearts, we knew the plot was not idle gossip. Many times privately I have apologized for my part in turning the thumbscrews, and I take this occasion to do so publicly. May Dr. Wirt's honest, patriotic soul rest in peace."

Rep. O'Connor was formerly a dupe, but he had the courage to admit his error. Uncle Sam has learned much from such as Whittaker Chambers, Elizabeth Bentley and Budenz. In 1940 Rep. O'Connor admitted that he had, in effect, unknowingly done the work of the Communist Party in helping to pillory Martin Dies. We will hear many such confessions regarding the pillorying of two Great Patriots -- Sen. Joe McCarthy and State Senator Jack Tenney (Calif.).

By means of the control of our money, they have sufficient power to hand-pick candidates for public office, buy votes, use influence during elections, and manage our Domestic as well as Foreign affairs.

In comparison, all other issues are unimportant. Just like water seeks its own level -- if we will return to Congress their Constitutional Right to print and evaluate our money, all other matters will rectify themselves. As it is now, they authorize the printing of Federal Reserve Notes -- the Government issues Bonds, which are used as collateral to borrow the money; and we pay interest on our own credit.

The welfare of this Great Nation, your Family and Yourself is based upon one word - MOTIVE - the motive of one man. That sounds fantastic in the Land of the Free and the Home of the Brave. It is true, to the best of my knowledge and belief, with the benefit of twenty years of research -- the compilation of documentary evidence, the correlation of facts as well as ideas from various perspectives and channels, reading between the lines, analyzing the causes and effects, with concentration on motives.

In order that the Citizenry may understand this insidious cancer that is bleeding us white physically, financially, morally and otherwise, they must understand the purposes, motives and incentives behind Corporate Structure. In order to bring to light by analogy, the difference between the Congress managing our monetary affairs as set forth in the Constitution as compared to a Private Corporation of International Bankers, I will outline the results attained over the past 100 years by Legal Reserve Mutual Life Insurance Companies as compared to Stock Companies, respectively.

It boils down to a matter of Motive or Incentive. Approximately two-thirds of all insurance in force today is in Twenty Mutual Companies, which comprise 20 of the 25 oldest and largest in the land. Comparatively speaking, there have been no Mutual Companies to retire from business or merge; whereas during the same period of time, approximately 2,000 Stock Companies were founded, of which 1,000 have retired from business. Only five Stock Companies have made the grade, i.e., progressed to the 25 largest and oldest in the business. In other words, approximately two-thirds of all insurance in force has been purchased from 1% of the companies -- an outstanding fact which portrays the good judgment of the American Businessman when it gets close to home. The Mutual Company by far has proved to be the SAFER type of management.

The Mutual Company is operated not for profit. All profits are returned to the policyholders as dividends. As this Government is a non-profit organization of, by and for the People; so the Mutual Company is a non-profit organization of, by and for the Policyholders. Annually the Policyholders elect a Board of Directors, who in turn elect the officers, stipulate their salaries, and manage the general welfare of the Company. No one has a penny of capital investment, so no one could gain through mismanagement, so the incentive is not there. This Board is analogous to the U. S. Congress.

A Stock Company is a proprietary concern. One man ultimately gets control, as is true of any Stock Company established for any purpose. He has the power to sell, manage,

mismanage or manipulate as he sees fit. If he is unethical, he can gain from mismanagement -- the incentive is there. That is just what the Federal Reserve System is, and the man who has control is the most powerful man in the Western Hemisphere, if not the Whole World, because Wall Street is the financial center of the World.

Through the Power of Money as well as the Power of the Press, they have been able to corral all of the Communists, Socialists, Liberals, Reds, Pinks, Blacks, Dupes, Morons and the Solid South into one camp which comprises the majority in both the Democratic and Republican Parties. Because of the preponderance of numbers, and the lack of facilities to get the Truth through to the people, the indications are that the situation will get worse rather than better. We have just seen the Liberal Element gain control of the 84th Congress.

It would be impossible to get in the shape we are in, or to commit the hundreds of Un-American and Un-Constitutional blunders without having traitors in important positions.

The President's oath of office obligates him to uphold the Constitution. We presume that he will do everything within his power to preserve our American Heritage as well as the well established Doctrines (Monroe) laid down by our Founding Fathers. What do we come up with?

1. A ONE-WORLDER; an Internationalist who advocates that we give up our American Heritage, our American way-of-life under the Constitution, so as to become Citizens of the World under the U. N. Charter.
2. He vetoed the Bricker Amendment which had no other purpose than a vote of confidence for the Constitution. How does that fit in with his Oath of Office, to uphold the Constitution. He is controlled by the Hidden Government.
3. He fired Clarence Manion because he advocated the Bricker Amendment.
4. He continued giving to Britain, who was trading with Red China during the Korean War. He advocated debate on Red China joining U. N., whereas West Point and Annapolis voted it down.
5. He vetoed the bill to outlaw Communism. Any citizen whose allegiance is not primarily, fundamentally and wholeheartedly based upon the Constitution, the Star Spangled Banner, and Washington, D. C., is like "The Man Who Came For Dinner," or the bandit who breaks into your home, or the two-faced hypocrite appearing to be your friend yet underhandedly disrupting your home life.
6. He vetoed the Bill to discontinue Diplomatic Relations with Russia.
7. A middle-of-the-roader; a Moderate-Progressive; Conservative in some instances, Liberal in others. When selected as a candidate, he was undecided as to whether he should run as a Republican or as a Democrat. Just try driving your car down the middle of the road. It is against the traffic, against the law, and contrary to all logic and reason.
8. He said, "I believe the Federal Government has a continuous, definite obligation to study our standing abroad." Who among us cares an iota regarding our standing abroad after we have spent our substance in their behalf during our 42 years experiment in Interventionism? Try to find a friend, or appreciation, or cooperation among them. It would be better to study our standing at Home, for we are about to fall flat on our face.
9. He kept the Truman lid on information requested by the Congressional Investigating Committees, after going into office on the "clean-house" premise.
10. He needs and uses an Adviser to lay down the major policies. After a speech in California, he turned to Baruch and said, "I hope that I said nothing to displease you."

11. He held back American troops until Russia could occupy part of Berlin. He admits in his book that he made the decision to not close the 7 mile Gap at the Battle of the Bulge, then had Patton withdraw, even withholding his ammunition and fuel.
12. He returned four million Germans to Stalin for annihilation.
13. Here are his words regarding Communists - "They are part of America, and even if they think ideas that are contrary to ours they have a right to have them, a right to record them, and a right to have them in places where they are accessible to others." I, for one, don't care for access to their doctrines as a means of better knowing what the enemy has to offer. Ike is not soft towards Communism, but he is oblivious of the importance of this perilous issue.
14. Ike said, "One of the World's problems is our lack of appreciation of Russian culture and History." I, for one, would not care to contaminate my small brain with the ideals, teachings and recording of such backward spineless people who will sit idly by, under the iron heel of a mere handful of International Brigands.
15. Ike has a tendency to trust Russia and co-exist, leading to trade and acknowledgment of Red China.
16. He is averse to the recommendations of Knowland and Radford that we blockade the China Coast as a means of releasing the eleven airmen now imprisoned as spies.
17. His State of the Union message made no mention of Subversion, which happens to be the number One matter of importance, for it alone tends to destroy our Government and Way-of-life. In 1952 he talked boldly regarding "liberation" in his address to the American Legion Convention in New York. Encouraged, the East Germans tried to liberate their homeland. He then replied at a Press Conference, "I sympathize with them, but we are not going to help them." In 1954 Ike stated, "I shall never be a partner to the enslavement of any peoples." Thirteen million Vietnamese are wondering about his integrity. Apparently the self-styled Leader of the Free World will abandon them if necessary, in order to maintain "co-existence" with Soviet Tyranny and/or Communist Internationale.
18. Ike said he would not participate in a quarrel yet he invited Senators Flanders and Watkins to the White House to congratulate them upon winning a quarrel against a staunch American. The condemning of an individual is of no specific importance. It means that the Senate as well as the Executive Department has given a vote of confidence to the One World Scheme; to lay off of the Commies; to continue Russian Recognition; to accept Co-existence; to allow all of the Hisses, Whites, Peresses, Latimores, etc. continue their insignificant dirty work; to give up our National Sovereignty; to accept the United Nations Treaty as the Law of the Land. Rather than censure McCarthy for using harsh words against Commies and Commie-coddlers, it would be well to censure Marshall for his bungling of China and Pearl Harbor; Frankfurter for his promoting of White; Acheson for his promoting of Hiss; and the Senate as a whole for ratifying the F.R.A. and U.N.O. Why did he ask Congressman W. L. Hays to wreck the Congressional Committee headed by Senator Reese, investigating Tax Free Foundations?
19. Ike claims to be Conservative, but actually he is simply carrying forward the New Deal-Fair Deal welfare state under a Republican label. He has carried forward the Foreign Policy of W. W., F. D. R. and H. S. T. - Internationalism, Meddling, One-Worldism, U. N., Give-Away, etc. He has carried forward the lenient policies of his predecessors by withholding information from Congress regarding security risks in Government. He has carried forward the unbalanced principle of the All-powerful Executive

Branch, especially regarding Treaties and Executive Agreements. He has sustained the "packed" Supreme Court and by-passed Congress.

20. By his own terms, he is "Conservative with the money" and "Liberal with Human Problems." He evidently has his wires crossed, because when you get down to brass tacks the Dollar Value is NIL in comparison to Life Value. That must be the military concept. America today would be sitting on top of the World had we maintained the policy of Conservatism with both Dollars and Boys. We are now paying for our blunder of blowing hot and cold by maintaining a policy of Isolationism, synonymous with Conservatism as far as Foreign Troops entering the Western Hemisphere; yet we did to others as we would not have them do to us. There is no such animal in the forest - half zebra and half leopard. It is just against the laws of Human Nature. The closest proximity is the mule - a hybrid; freak of nature; neutral; neither; useless; a man-made misfit.
21. As far as Foreign Policy is concerned, Ike shows not the slightest inclination to get out from under the Roosevelt-Truman Legacy. He continually reassures our "allies" that the future Foreign Policies of the U.S. will be based upon the U.N. F.D.R. and his advisers were the proud daddies of this booby-trap. We enjoy the melancholy distinction of being the carpenters of our own coffin.
22. Fundamentally President Eisenhower is for America first, last and all of the time. Had Taft lived Ike would be in the Conservative Camp today. His leaning to influence from advisers, his leanings toward the Liberal and One-World concept are due to either his military background or commitments prior to election. He now has the opportunity as well as qualifications to become the Savior of America, by standing four-square on his own feet and throwing off the shackles of Corporal and taking on the stature of General. All he has to do is think for himself - divest himself of the One-World, Liberal Schemers surrounding him.

Ours is fundamentally a Christian-Republic. We came to the New World and fought two wars to establish it as such. We then opened our doors to immigration. All Nationalities, colors, classes and creeds have flocked to our shores. Many have inter-married and assimilated into our Way-of-life, and have become patriotic, solid citizens.

Every Citizen has the right to the Religion of his choice, but if he does not meet us halfway by being willing to uphold the Constitution; willing to engage in combat to defend same; willing to integrate and fraternize so as to further the Brotherhood of Man as well as the American Way-of-life; willing to put the Stars and Stripes above the Blue Flag of the U.N. Charter or that of a Foreign land; willing to put Washington, D.C. ahead of Lake Success; willing to be a Citizen under the U.S. Constitution rather than a Citizen of the World under the U.N. Charter, he is not entitled to the benefits of this Great Nation. There is no such thing in the cards as being an Internationalist, or a member of an International Race or Religion, and at the same time labelling one's self as an American, and enjoying all benefits thereof. There is no such thing as blowing hot and cold; straddling the fence; or following the middle of the road. Just try driving down the middle of the road. "If the shoe fits you, lace it up," because your walking papers are coming sooner than you think.

Prior to 1917, Russia was similar to America in many respects. A sleeping majority was taken over by an inspired, determined minority by means of a "hot" war. In that same year we changed our Foreign Policy from Nationalism to Internationalism. The same clique turned both thumbscrews. We deviated from the Principles and Doctrines laid down by Washington and Monroe. That same inspired, determined minority is taking the U.S. over by means of a "cold" war -- the slow process of strangulation. They have learned that they can accomplish the same result without firing a shot by means of Treaties (U.N. Charter with the multiplicity of Covenants and Amendments); Executive Agreements (Yalta, Teheran, Potsdam, NATO, SEATO, etc.); Money Control (Federal Reserve Act, Dumbarton Oaks, etc.); Propaganda Control (Newspapers, T.V., Radio, etc.); Division (Germany, China and Korea, as well as the Republican and Democratic

parties splintered into Conservatives and Liberals); Infiltration (Government, Defense Plants, Services, Churches, Schools, etc.); Subversion, Underground Espionage, Confusion, Revolution, etc. Everything looks rosy on the surface in the midst of our false economy and cocktail parties. We are being taken for a ride and are sound asleep at the switch. The Rats, Mice and Termites are boring from WITHIN while we cannot be bothered with such trivialities - "let George do it" - ridiculous - fantastic - Red Herring - etc.

While our pockets bulge with money, we feel FIXED for life, as well as the next generation. The morons, dupes, liberals and anti-anti-Communists will call this treatise radical, fascist, rabble-rousing, etc.; however, the picture is portrayed as close to the TRUTH as I am able to conceive. We are all going down in this Boat together. My only concern is that our Foundation may be more undermined than it appears on the surface - is there still time - do we have means of getting the TRUTH through to the people - is it later than we think?

Many books have been written proving by documentary evidence that the Foreign Conferences, Wars, Peace Treaties, etc., which have been held since our Date of Infamy were not for the best interests of America. They prove beyond doubt that there is an all powerful Invisible Conspiracy manipulating our affairs. They are all rooted in one focal point, the Federal Reserve System.

Our former allies (Russia and China) are now our mortal enemies, while our former enemies (Germany and Japan) are now our allies. France and England do not know which side their bread is buttered on. All we have to do is give the Constitution a vote of confidence, by repealing the F. R. A. and U. N., ratifying the Bricker Amendment, and return to minding our own business in accordance with the Monroe Doctrine.

The One-World Concept is the Millenium. Civilization has not yet attained that stage of perfection.

In my estimation Civilization IS ready for the Three World Concept, viz., the Western Hemisphere, Europe and Asia. The English speaking peoples have been the Master Nation and maintained the peace for generations within the Western Hemisphere Periphery under the Monroe Doctrine. Our first line of defense is the strings of islands off the coasts of Europe and Asia. Likewise Germany is the rightful ruler of Europe and China of Asia under Good Neighbor Policies and Monroe Doctrines similar to ours. The writer advocated this Plan in 1941 - entitled, "The Invincible New World."

Attlee's handshakes in Moscow and Peiping, approving co-existence, trade and recognition after they slaughtered English and American boys in Korea, while holding thirteen prisoners of war as spies, is a duplication of Chamberlain's appeasement at Munich. Both would have done better had they come to Washington and joined hands with us in the establishment of the Invincible New World.

"Eventually, why not now?" The die has been cast. We have endeavored to organize the "Free World" into a solid front against Russian aggression without success. We had no cooperation in Korea, NATO, SEATO, etc. The balance of the Free World is definitely not sparked with any Nationalistic spirit or will to defend themselves.

It behooves us to now devote our entire attention to our Home Area in accordance with the Constitution and Monroe Doctrine, using the strings of islands off the coasts of Europe and Asia as our First Line of Defense. It just doesn't add up for Dulles to address the Pan-American Union in Caracas on Monday on Hemisphere Solidarity, then fly to Paris on Tuesday preparing for Interventionism.

Germany and China will rise up of their own free will if we will just cease knocking them down. The two factions of each will join hands, throw out the Russian Menace and create Monroe Doctrines of Europe and Asia.

Airports outside the Western Hemisphere periphery is money thrown away -- one A or H bomb per airport renders them useless. The cumbersome, vulnerable airplane carriers and battleships are just as outmoded as the bow-and-arrow. One airplane torpedo

on their own will cause them to run around in circles like "sitting ducks." Remember the St. Venhorst? Airports and airplane carriers are not only costly and vulnerable but unnecessary. Airplane landing gears are costly and heavy. Amphibious planes can and will be perfected to meet the water impact as well as speed requirements.

We must admit that Perfection on Earth and the Brotherhood of Man is extremely remote. Our American Heritage is a balance or interlacing of Christianity and Materialism. The Trinity permeates our Government, viz., Executive, Legislative and Judicial. As Mme. Currie said, "Every day, in every way, we are getting better and better." Based upon faith in Humanity and the Hereafter, it follows that each generation approaches infinitesimally closer to the footsteps of the Master, even though we sometimes take two steps forward to one step back.

In the eyes of God, and rededicated by our Founding Fathers, we are all created equal. The Brotherhood of Man is our Goal. America is a melting pot comprised of all classes, races, creeds or color. All should have equal opportunity for health, wealth and the pursuit of happiness, as well as equal rights as Citizens. However, business prestige and social standing are values which must be earned or attained through accomplishments and culture; and must be acknowledged, accepted and wanted by others of their own free will and accord.

The pattern of Life is the Segregation. Peoples throughout the world congregate into neighborhoods, so that those of like principles can enjoy constructive social and business intercourse, tranquility, happiness and purposeful living.

By the natural course of events, the leader in every Precinct, Village, City, County, State, Nation and Federation of Nations, is the person or Nation with the best background for accomplishment. It is logical and it has proven satisfactory for the English speaking peoples to be the Master Nation in the Western Hemisphere. For those and many other reasons it would be advantageous for the British to join hands with us in the New World. In 1938 the writer advocated moving the seat of Government from London to Ottawa, as well as moving the bulk of their Industries and Population, entitled, "What England Should Do." It was predicated on the futility of World War I and the possibility of World War II. We need England and England needs us regardless of our idiosyncrasies.

Undoubtedly a Police Force is necessary at this stage of Civilization. The City, State, Federal, F. B. I., etc., all work together as one unit. If not for them, bandits would pillage the countryside. Under this System there has never been an invasion of the Western Hemisphere. The Three World concept will reduce the possibility of World Wars to a minimum.

There is no form of disorder so malignant as Treason because the life and property of all citizens are involved. Unless our Congressional Investigating Committees and Justice Department put the Traitors out of the country and/or out of circulation in time of Peace or War, the Heritage for which we have fought many wars will go for naught. If the Federal Government does not correct the situation there will be a strong swing back to States Rights, State Banks, and State Control of Money and Press.

We have been involved in three wars in three Democratic Administrations, from which we accomplished nothing but Death, Debts and Taxes. In retrospect, we have now learned that Traitors in high office caused the Holocausts. Undoubtedly the Justice Department has been derelict in its duty. Regardless of WHO or WHERE they are (F. R. A., U. N., State Department, etc.) no stone should be left unturned in getting them out of our affairs completely, forever and a day. The Congressional Investigating Committees will get to the root of it if the Executive Department will remove the LID.

It is neither morally right nor Constitutionally sound to take advantage of the Youth of the land; lead them to believe they are laying down their lives for America, under the protection of the Constitution and the Star Spangled Banner; engage them in combat without an Act of Congress; in a War they cannot win; while on the battlefield they learn that they are under the Blue Flag of the United Nations, carrying 19/20ths of the load; and when the final price is paid to be buried with the Blue Flag and without the White Cross.

That is the only issue of importance. It matters not if we all go flat broke or if we are attacked tomorrow morning. We will then know where we stand and do something about it. It is just not in the cards to send American troops onto the Continents of Europe and Asia where we have no Allies and no Business.

Regardless of Party, Politics, Special Interests, Monied Interests, Foreign Investments, etc., let's tell the boys the Truth, the Whole Truth and nothing but the Truth. All of them are willing and glad to stand up and fight for the welfare of America, First, Last and All of the Time in our Home Area, the Western Hemisphere Periphery, comprising one-half of the Earth's surface, in accordance with the Monroe Doctrine, and under the Constitution and the Star Spangled Banner. That is not Isolationism - it is Americanism. F.D.R. made the word "Isolationism" sound like a plague. They tell us that we "can't live alone" or "go it alone." We prospered under those policies for 137 years. They tell us that the airplane has shrunk time and space, therefore we now have to lead and feed the World instead of administering just one-half of the World. T.R. said, "Speak softly, but carry the Big Stick," whereas F.D.R. seemed to advocate "Speak loudly, rule the World, even if it is beyond our capacity."

12

It matters not if the Invisible Conspiracy pulls the wool over our eyes and robs us of our worldly goods, but don't let them continue to push our boys around.

Abe Lincoln had the following conversation with Governor Curtin regarding the Money Changers: L - "What do you think of those fellows in Wall Street who are gambling in gold at such a time as this?" C - "They are a set of sharks." L - "For my part, I wish every one of them had his devilish head shot off."

What has become of the dignity, humility, individuality of the august Senate Body? Where are the LaFollettes, Borahs, Roots, Reeds, Hiram Johnsons, Wheelers, who voted down the League of Nations? Grandpa Lodge as compared to Grandson Lodge gives us an inkling of our plight. The former killed the League of Nations, whereas the latter runs the U.N.

It is safe to say that not one U.S. Citizen in a million has read the F.R.A. We are too busy and smug in our false economy to bother with reading, deep thought and unpleasant matters. This treatise is a concise resume - just touching the high spots of twenty years of diligent research, reading, listening, reasoning, study of motive, etc., in a conscientious endeavor to ascertain the truth regarding the Decline of America.

Either the Senators were taking a nap on the floor, or they were too busy with social functions and committee meetings, or they were playing Party Politics instead of National Welfare, or the majority leaned to influence, when the following 100 Un-American and/or Un-Constitutional matters were brought to their attention:

1. Deviation from the Constitution to formulate the Federal Reserve Act.
2. Taking advantage of a weak spot in the Constitution to formulate the League of Nations and the U.N. Treaty. The Constitution provides, "All Treaties shall become the Supreme law of the land." Both are schemes of the Internationalists One Worlders.
3. Taking advantage of the Fifth Amendment to cover up Treason.
4. Getting back into Foreign Entanglements - NATO, EDC, SHAPE, ANZUS, SOFT (Status of Forces Treaty), whereas our purpose for coming to the New World was to get away from same. Today we have troops in fifty countries and cemeteries around the Globe.
5. Reversion of our Foreign Policy by Wilson to aggression and interventionism after 137 years of successful operations under the MD and minding our own affairs within the WH.
6. It is well established that they brought about the 1929 crash for their own purposes by simply withdrawing money from circulation.

7. They concocted Encroaching Socialism and Graduated Income Taxes to kill initiative and Free Enterprise.
8. They sent Plates, Paper and Ink for the printing of American currency in Russia.
9. The Marshall Plan and Lend Lease were part of their Give-away program.
10. The Supreme Court was packed, the Congress by-passed, and the Executive Department upset the Constitutional checks and balances by usurping all power by means of Treaties and Executive Agreements.
11. Labor leaders have been glorified.
12. Promotion of Financial and Military crises for personal aggrandizement as well as to usurp our Constitutional Rights.
13. Whitewash of the Amerasia Case. The Tydings Committee placed Party above U. S. and were blinded as to the extent and consequences of the Invisible Conspiracy.
14. Middle-East policy - which alienated 400 million Moslems, Hindus and Arabs.
15. "White Paper" - which turned over 450 million Chinese to the so-called Agrarian Reformers.
16. The Morgenthau Plan to de-militarize and de-industrialize Germany forever by reducing them to minute farming areas was written by HDW.
17. The Baruch Proposal, to stock-pile our A and H bombs in the hands of the UN.
18. The Nuremberg Trials, which gained us nothing but hatred and established a dangerous precedent. The World's leading Christian Nation being the first to drop Atom Bombs on innocent civilians established another dangerous precedent.
19. Involvement in three unnecessary wars on the continents of Europe and Asia, where we had no business. We're now endeavoring to make allies of our former enemies.
20. Sell-outs at Yalta, Potsdam, Teheran, Bretton Woods, Dumbarton Oaks, and last but not least, San Francisco. Our Ambassador to Poland said, "As I looked over the Yalta Agreement I could not believe my eyes. Every line spoke of complete surrender to the Communists."
21. Pigeonholing of the Wedemeyer Report. Four Generals testified that they were not allowed to win the Korean War. Government officials testified that signed orders were forgeries.
22. Court-martialing of Gen. Billie Mitchell - now vindicated. What became of the 1-1/2 million word transcript of the historical treasonable trial?
23. Demoting of Col. Charles A. Lindbergh - now reinstated.
24. Why did F. D. R. and H. S. T. ignore the FBI reports on infiltration? Why did H. S. T. close the files?
25. Why the rifts between the Justice Department and the FBI?
26. Why the anti-American and anti-Christ Propaganda throughout the schools, churches, comics, newspapers, movies, radio, TV, etc.?
27. Why the Centralization of Power in Washington, thereby usurping our States Rights, by means of the New Deal, Fair Deal, and multiplicity of Bureaus?

28. Why did we recognize Russia in 1933, which laid us open to espionage?
29. Why recognize Red China by giving them permission to attend the Big Five Geneva Conference?
30. Why were we influenced against Chiang Kai-shek in China and Mihailovitch in Yugoslavia?
31. Treasury Department Order No. 43, dated 12/15/41 (I. E., a week after Pearl Harbor) and signed by Secretary Morgenthau: "On and after this date, Mr. Harry D. White, Assistant to the Secretary, will assume full responsibility for all matters with which the Treasury Department has to deal, having a bearing on Foreign Relations."
32. On 2/25/43 Secretary Morgenthau supplemented the above by the following directive to HDW: "Effective this date, I would like you to take supervision over and assume full responsibility for Treasury's participation in all economic and financial matters, in connection with the operations of the Army and Navy and Civilian Affairs in the foreign areas in which our Armed Forces are operating or likely to operate. This will, of course, include general liaison with the State Department, Army and Navy, and other departments or agencies and representatives of foreign Governments on these matters."
33. Why was HDW the Treasury Representative on many of the most significant wartime committees from the OSS Advisory Committee, to the Board of Economic Warfare, to the National Munitions Control Board?
34. Why was HDW the dominating figure at the Bretton Woods Monetary Conference that launched the International Bank and Fund? If the Senate wishes to really censure someone, here's an opportunity.
35. On 4/8/47 Secretary of Treasury John Snyder wrote HDW as follows: "It is hardly necessary to say that your efforts while with the Treasury were responsible in no small measure for the creation of the International Bank of Reconstruction and Development of the International Monetary Fund."
36. In 1939 Lauchlin Currie (named a Communist under oath) was appointed Administrative assistant to the President, with special duties in Economics. Until his separation from the Government on 6/30/45, he handled Far Eastern Affairs for the White House. Twice he was our special envoy to China. He arranged the famous trip that Henry Wallace made to wartime China and Siberia under the guidance of Owen Lattimore, John Carter Vincent and John N. Hazard. Within the White House, Currie also handled the affairs of the IPR which had its own close interest in Far East matters. The sub-committee on Internal Security reported: "The IPR was a vehicle used by the Communists to orientate American Far Eastern policies toward Communist objectives. The effective leadership of the IPR used IPR prestige to promote the interest of the Soviet Union in the United States. In 1941 Currie arranged Owen Lattimore's appointment as the President's special envoy to Chiang Kai-shek. Currie arranged for Earl Browder, head of the Communist Party in the U.S., to confer with the State Department, so that he might guide the betrayal of China."
37. We have had a taste of the slow process of suffocation of our Liberties by the Genocide Covenant, the Covenant of Human Rights, UNESCO, NEA, ILO and the other 200 Amendments to the UN which have been written and are ready to be stuffed down our throats in 1955. The Herald-Express, California's largest newspaper, carried on March 30, 1954, the following unbelievable statement. We must believe it, however, because the responsibility of this great newspaper as well as the responsibility of the writer stands behind its accuracy: "The United Nations Bulletin for March 1, 1954, says (on page 196) that the United States has signed the Genocide Pact. If this is true, it is the saddest moment in the history of western civilization, for it means that the freedoms and safeguards that the English-speaking people have fought for and

died for, since the days of Magna Charta, have been destroyed, stealthily and treacherously, without the voice of one American official being raised in their defense. The Genocide Pact provides for the trial and punishment of anyone accused of causing physical or mental harm to any member of a minority. It does not define what constitutes mental harm. But you can be taken, anywhere in the world, and tried, without a jury for having committed it. The pact is retroactive - you can be tried for alleged offenses committed 20 years ago. The pact would enable any President or head of a state to suppress a free press. This pact has not been ratified by the Senate, so it must have been signed by executive agreement. Is this the reason the White House fought so hard to defeat the Bricker Amendment?" 200 more are ready for ratification.

38. Tabling of the Bricker Amendment.
39. Unsound Keynes theory of manipulated currency.
40. Tax Free Foundations controlled by International Bankers and their ilk.
41. Opposition to Congressional Investigating Committees and closing FBI files to them.
42. Loans to England, who are trading with our enemy in time of war, while we were carrying 19/20ths of the load physically and financially.
43. Infiltration of the F. R. S., Government, Defense Plants, Services, Central and South America.
44. Why did we fall from the pedestal in 1913 as the Shining Light of the World and continue our decline ever since?
45. Why did it take us seven years and three months to complete the H Bomb, whereas Russia only required four years? Did Oppenheimer have his finger in the pie?
46. Why did we give Nationalist China vast supplies of guns and other weapons, but no ammunition? Then we opened Kalgan Mountain Pass into Manchuria so that USSR could arm Communist China. A large shipment of ammunition and supplies set sail for Chiang Kai-shek. Before arriving, messages from the White House diverted all material except two rolls of barbed wire.
47. Why were the supplies to Patton held up?
48. Why was the ammunition to our armies in Korea held up?
49. In 1949, Herbert Hoover stated that the arms of 71 of 89 American Divisions had disappeared.
50. Why were our armies held up at the Gates of Berlin for days to await Russia's arrival to take over?
51. Why were we given a part of Berlin without Ingress or Egress?
52. Why were the decoded Japanese messages withheld from the Navy prior to Pearl Harbor? General Marshall, Secretary of Defense, testified that he was not aware of his whereabouts the day before Pearl Harbor. There's another opportunity to censure.
53. Why did we not retaliate in kind 10 for 1 immediately after Pearl Harbor, rather than be drawn into a foot-soldier war, to their own liking in their own territory?
54. Why were the Army Reports lost which identified the Soviets as perpetrators of the Katayn Forest Massacre?

55. Why did Acheson declare Korea outside of our Defensive Area, withdraw our troops, then immediately send them back in for our third largest casualty list, without an Act of Congress?
56. Why should we consider a duplicate stalemate in Indo-China?
57. Why did we hand Poland, the Balkans, the Kuriles, Outer-Mongolia and other Satellites to USSR?
58. Why did we give 13 billions to each, Russia, China and Europe, with no strings attached?
59. Why did F. D. R. wait until his dying day to realize and advise Joe Stalin that he had been betrayed? Why was a Russian woman painting his picture on his death bed? Why did she disappear so rapidly? Is it possible that Stalin did not want the World to know that F. D. R. had finally seen the light of day?
60. Where did we get the idea that America is destined to be the World's Leader, Regulator, Policeman, Breadbasket and Financier?
61. Why was MacArthur, our greatest military leader, recalled? Why was Van Fleet stopped? Why was Clark retired?
62. Gen. Bedell Smith advised that America's post war policy for Italy was to connive to bring Communists into the Italian Government, and to return Togliatti from Moscow.
63. Why did the White House rule that members of the Communist Conspiracy could act as radio operators on commercial or naval vessels?
64. Why the secret Army Directive authorizing the granting of commissions in the U. S. Army to members of the Communist Conspiracy?
65. Why the order to destroy the files on military personnel where the files showed one to be a Communist?
66. Why did Acheson grant a 90 million dollar loan to the Communist-controlled Government of Poland, while his law firm represented the Communists?
67. In 1945 Nationalist China needed guns and ammunition to fight off the Communists. At that time we had mountains of captured guns and ammunition. Gen. Eisenhower ordered this material sent to Chiang Kai-shek. Then an order written by Lauchlin Currie on White House stationery rescinded same.
68. Why would the acting chairman of the loyalty program of the Government Printing Office testify under oath that he was ordered not to discharge any employees merely because they were Communists? This order evidently applied to every Federal Agency because it came from the Chairman of the entire Loyalty Program (prior to 1952).
69. Why was the 7th Fleet ordered (1) sink any ship which attempts to go from Formosa to help those who are fighting the Communists in China, but do not molest or in any way interfere with the ships helping the Communists; (2) do not let the Chinese Navy on Formosa sink any Communist shipping?
70. Why did a Federal Grand Jury release the following 12/2/52: "Almost without exception these same subversive employees with the United Nations were formerly employed in various Departments of our own Federal Government. They were transferred from one Federal Department to another, finally ending up in key positions in the United Nations. The evidence shows this is not coincidental but part of a definite, planned pattern. It appears to result from the contrivance of certain highly placed officials who have surrounded themselves in each Government agency, and then in the United Nations, with personnel who share their disloyal convictions."

71. If we were able to ascertain the truth we would find that not more than one out of twenty read the 4,000 pages of fine print covering the Federal Reserve Act. Undoubtedly this method was devised to conceal the real tenets and purposes.
72. Likewise regarding the United Nations Charter, Amendments, and Covenants.
73. Who permitted the U. S. to be pushed into World Wars I and II through the back door?
74. Who permitted the U. S. to lose its advantage as World Leader by means of the "give aways" in the Peace Conferences and Secret Foreign Conferences?
75. Who permitted the U. S. to become involved in the Korean War without an Act of Congress?
76. Who permitted shipment of Six Divisions to Europe without the Great Debate?
77. The majority in the august Senate Body failed to ratify the Bricker Amendment, whereas by their oath of office they were obligated to uphold the Constitution.
78. The Secretary of State insultingly ordered Finland to give in to the Russians.
79. The U. S. approved the forceful seizure of a large part of Poland.
80. Spain helped us materially during the War and returned over 1,100 pilots. Now the U. S. Liberal Element is urging the overthrow of the Franco Government.
81. The U. S. was the first Nation in History to drop Atomic Bombs on civilians. What a cross and precedent to bear! Furthermore, it was absolutely unnecessary and uncalled for, because the war had been won.
82. It was unnecessary to bring Russia into the War, after we had defeated Japan, just so they could participate in the Peace Negotiations.
83. Our request for the return of our ships which we leased to Russia for a dollar was ignored; likewise, our request for an accounting of Lend-Lease.
84. By what force, coercion, or power were we influenced to recognize Russia in 1933?
85. The U. S. dealt wholeheartedly with Russia as an ally, whereas we had documentary evidence of 20 years of treason.
86. This Nation has gone down in History as never before, - "In the generations of Nations at War, never has there been a case similar to ours, whereby the Victor received so little, after sacrificing so much."
87. By means of Propaganda Media owned and controlled by subversive elements the U. S. is permitted to remain in U. N., as well as U. N. in U. S., knowing that it is infested with spies and people who have hatred for our beloved country.
88. Who permitted the creation of the everlasting precedent of the MALMEDY Trials? They have a direct bearing on the 13 pilots and 944 G. I. 's now in the hands of the Chinese Reds. The U. N. cannot legislate morals. The "Big Stick" is the only authority they understand. The best defense is a strong offense.
89. Many Government officials withhold the truth from the citizenry, for fear they may be out of a nice fat job come next election. Is that Americanism?
90. Why did we censure one of our own Conservative, America First Compatriots for the misuse of words while the big shots who are endeavoring to destroy America are not called on the carpet?

91. Why not censure the man who promoted Harry Dexter White, who gave our money plates to Russia, and advocated that the bulwark of Europe be demilitarized, de-industrialized and cut up into small farms so as to make peons of the most Nationalistic Nation on the face of the Earth? We know who he is.
92. Why not censure the man who promoted and protected Alger Hiss? We know who he is.
93. Why not censure the man who permitted Lattimore and Glasser to change China from Friend to Foe? We know who he is. The Chairman of the Congressional Un-American Activities Committee has staked his career on the fact that Lattimore's interests are not in our behalf.
94. Why not censure our Secretary of Defense who knew of the coming events at Pearl Harbor, yet did not so advise the officers in command? We know who he is.
95. Why not censure the man who engineered the give-away programs at Yalta and Potsdam after we had established ourselves as the outstanding World Power because of decisive victories? We know who he is.
96. Why not censure the man who engaged this Nation in one of our bloodiest wars without an Act of Congress, then recalled the Commanding General? We know who he is. Why not censure the War Department for refusal to win the Korean War according to the testimony of four Generals?
97. Why not censure the man who promoted Peress? We can find out who he is.
98. Why not censure the man or clique responsible for our making Russia the scourge of the Universe. We know who they are. It is a strange World; the very Nations that just a few years ago we spent thousands of boys and billions of dollars to defeat (Germany and Japan) are actually rearming to protect us from our close friends, the Russians and the Chinese. We now know that recognition of Russia in 1933 was wrong. Why not correct the wrong by severing relations?
99. Why is it that every time a patriotic American gets close to Home Base he is immediately crucified, viz., Prof. William Wirt, Rep. Martin Dies, Sen. Jack Tenney, Forrestal, Mahalovitch, Huey Long, Sen. Jerry Voorhies, Sen. Joe McCarthy, etc.
100. Why have the Tax Exempt Foundations been permitted to administer and manipulate billions, contrary to the Free Enterprise System? Purposefully or not, they tend to convert America into a Socialistic State.

Our Political, Financial, Domestic and Foreign affairs are worse than the Public wants to think, or cares to admit.

What have we got to fight with after they kill the Congressional Investigating Committees? They hold the Purse Strings. They dominate the politics. They control the National Guard, Armed Forces and Ammunition. They own the Propaganda media. They have usurped our Constitutional Rights by means of the F. R. A. and U. N. It is difficult to combat that combination with pop guns and short sticks. Throughout History the people have devised means of correcting situations when the Government did not function in accordance with their wishes.

If we are unable to enlighten the People of the Pitfalls of the F. R. A. and U. N. we still have the alternative of invoking States Rights.

One of these days we will be jolted (possibly by means of a financial crash) into the realization that something is radically wrong - that all is not as smooth as it seems on the surface - that there is an all powerful underhanded invisible conspiracy pushing us around.

Then we can correct the situation by means of the ballot.

When American citizens say, "Everything is on the up and up" - "We are getting along fine" - I am reminded of what Maxie Baer said when his seconds told him that his opponent wasn't laying a glove on him - "Well, keep your eye on that referee, because somebody is knocking the hell out of me."

If the Invisible Conspiracy had not gained control of our affairs through the F. R. A., Germany would be the Master Nation of Europe and China of Asia under Good Neighbor Policies, similar to our own. Africa would remain neutral. If we will stop knocking them down and meddling in their affairs this Plan will come into effect.

What is the solution to our dilemma?

1. Repeal the Federal Reserve Act. All subversive issues and individuals will fall of their own weight when the right to print and evaluate our money is restored to Congress.
2. Withdraw from the United Nations and remove same from our shores.
3. Pass the Bricker Amendment.
4. Restore States Rights.
5. Restore the State Militia, State Banks, State control of Communism, Money and Press.
6. Propagate the truth to the People by means of newspapers, magazines, radio, TV, etc.
7. Take the lids off of all secret Treaties, Agreements and Subversion for the benefit of the Congressional Investigating Committees as well as the People.
8. Build the greatest Amphibious Air Corps in the World with the largest stockpile of A and H bombs, ever alert for instantaneous retaliation ten for one. Occupation troops, Trench warfare, tanks, battleships, airplane carriers, are things of the past. The enemy will first destroy our air bases and runways.
9. Construct the most extensive Radar Net Works possible. To every action there is an equal and opposite reaction.
10. We should eliminate from our minds the raining of bombs from the sky. Our enemy is WITHIN. Russia has her hands full trying to digest that which she has bitten off. They fear our wealth, inventive and productive ability, and our power of retaliation. They are satisfied with the results obtained by Cold War subversion.
11. There will be no THIRD PARTY. Under our form of Government the TWO PARTY system is a pre-requisite.
12. We need another Abe Lincoln to rise up of his own free will and accord, who is not a hand picked puppet of the International Bankers, who cannot be influenced against his better judgment.

To one who is not familiar with the issues involved and the methods of the Invisible Conspiracy, the conclusions and solutions herein may seem fantastic. After giving due consideration to the Pros and Cons of every issue, after twenty years of research and study of documentary evidence, after double checks based upon Truth, Reason and Motive, every one of our trials and tribulations glaringly stem from one fact, viz., he who controls our money controls the U. S. He automatically becomes all-powerful. He has the power and authority to manipulate, manage, mismanage, etc., as he so desires. Through that unlimited power of wealth he can buy votes and candidates for high offices who will lean to his will. He thereby becomes more powerful than the President of the United

States. He can thereby influence our Domestic and Foreign Policies as he so desires. He thereby upsets the even balance between the Executive, Legislative and Judicial Departments. He can thereby regulate the printing and evaluation of our money, so as to cause a Depression, Collapse, or even sell-out if it fits his scheme of things. He can cause our Armed Forces to fight any enemy of his choice, because he can trump up false charges, he can manipulate attacks to make it appear that we have no other alternative because he owns and controls all propaganda media. He can foster Revolutions anywhere on the face of the Earth.

It has been well documented that this was true in the following cases: Russian Revolution, 1929 Crash, World War II, Nuremberg Trials, Dumbarton Oaks, United Nations, Korean War, etc. The World will probably never have documentary evidence relative to the sinking of the Lusitania. However, in retrospect; in view of the fact that we were amply warned to keep our ships out of War waters; that we were advised by Germany that our interests were in common; that they are our first cousins; that they are Christian Caucasian people; that it would be impossible for them to cross the Atlantic to attack us; that they had their hands full combatting all of Europe; that to bring down upon their shoulders the wrath and wealth and power of the United States would surely spell defeat; that they were merely asserting their right to become the Master Nation in the European Sphere of Influence as we did in the Western Hemisphere; that we now realize that we should have been fighting with Germany instead of against her; that we should not have knocked Germany down twice (Rudolf Hess so advised us) in order to make Russia what it is today, and to lose the Peace in each instance; it now appears, based upon Logic, Motive, and what meager evidence we have, that the Germans did not sink the Lusitania.

It matters not whether all of our pitfalls in the past stem from the Chairman of the Board of the Federal Reserve System and his 12 Henchmen (International Bankers) because there is no use crying over spilt milk. However, henceforth, if we wish to continue as a predominantly Christian Republic under the Constitution we will have to repeal the Federal Reserve Act. We have been in a steady decline and tailspin ever since that Act was put into effect. If not so in the past, with this situation existing, an unscrupulous two-faced Alien could jockey or buy himself into that spot, and become a Dictator, or supersede our Constitution with the U. N. Charter and thereby become Dictator of the World under the International Scheme. Therefore, it behooves us to do away with it.

Regardless of whether or not you believe the truth of this concept, we cannot laugh off the fact that America is in dire circumstances; that there is documentary evidence to prove most of the issues; that Motive, Reason and Logical Deduction substantiate some issues; and that the results speak for themselves.

The Power of the Press is enormous. Martin Dies, William Wirt, Jerry Voorhies, Jack Tenney, Robert Taft and Joe McCarthy were politically annihilated for standing up for their rights and telling the TRUTH to the populace. The gullible public was told that Taft could not win because he lacked color to his personality, so millions flopped over on the band wagon. Even so, he came within an ace of winning. Had he been elected, we would today have a General in the President's chair who would be dedicated to the righting of our Ship of State, instead of a Corporal whose prime interests seem to be golf, bridge and farming. It is very seldom that we get a candidate like Hoover, MacArthur and Taft, not hand-picked by the powers that be. Undoubtedly they would again have manipulated another financial crash and pinned it on him as they did Hoover.

With the Power of Money aligned with the Power of the Press, as it is today, we will never again have an opportunity to elect an individual of the Washington, Jefferson, Lincoln, Theodore Roosevelt, Bob Taft, or Will Rogers type. The Power entrusted in the hands of one man (and his henchmen) through the F. R. A. overshadows the finely balanced power integrated in our Executive, Legislative and Judicial Departments.

W. W., F. D. R., H. S. T., and IKE were and are staunch Americans at heart, however, their backgrounds were conducive to leaning to influence instead of independent thought and action. Instead of electing an Idealist, absent-minded Professor; or a Power-Happy Cripple with a silver spoon in his mouth; or a Party-Happy glad-hand boy carried along on Pendergast's coat-tails; or a Career Military Policeman who has never been off of Uncle Sam's payroll; we should vote for a Plain-Vanilla American, who has been through

the stations of life, paid off mortgages, and pulled himself up by his own bootstraps.

For some reason or other, the Nation has been extremely slow to recognize the Communist Menace, as well as the International Bankers and their Stooges who simply use Communism as a means to ride into power. The FBI made detailed reports to the Executive and Justice Departments in the early twenties. Professor William Wirt advised the Senate of a secret meeting he had attended, where the underhanded Plans were laid down. Whittaker Chambers advised Berle, who in turn advised F.D.R., who said, "Take a jump in the river" - "I like Uncle Joe" - and then recognized Russia in 1933. He permitted Commie Radio Operators to man our ships. On the final day of his life he came to the conclusion that Stalin had betrayed him.

H. S. T. called it a "Red Herring." Staunch Americans were crucified, ridiculed and wiped out for mentioning the menace; for getting close to their Home Base. It took Nixon to smell a rat, and with the benefit of the best legal counsel, the verdict of Treason could not be obtained for Hiss. The eyes of John Q. Public were finally opened to the fact that something is wrong in Washington, when they saw the expressions on their faces during the McCarthy Army Hearings. We then clipped the wings of the one man not afraid of losing his job, or even losing his life, for alerting us to the Perils from within.

The Governor of the Lone Star State is aware of the Peril. He advocated taking the life of all Traitors, in time of Peace and War, who advocate or belong to an Organization that advocates the overthrow of this Government by Force and Violence. It would be well for all states to outlaw the Communist Party. The Federal Government has failed to function in this instance. It is not a Party; it is not a Religion; it is not an Economic System; it is International Banditry. It is later than we think.

To my way of thinking, it is not a question of HOW to get out of jeopardy; it is a matter of CAN we get out. In my small way, I have endeavored to alert the members of Both Houses, Government Officials, and Business Leaders during the past 18 years by mailing 20,000 pamphlets regarding this encroaching menace. Only about 200 have seen fit to reply. Some care not to read, think or talk regarding deep, complicated or unpleasant matters. Some are gagged because of the possibility of losing their jobs, or having a note called, or losing business, or losing friends. Some say that it sounds too fantastic, it couldn't be so. Some say, why should we worry, we have Government Agencies for that purpose. They are unaware that those Agencies failed to function. Some say that the aeroplane has shortened time and space to such an extent that we now have to give up our "old fogie" ideas regarding the Monroe Doctrine, Bill of Rights and Constitution so as to join hands with all Peoples in the One World Plan under the United Nations; in other words, the millenium has arrived. Some say that 25,000 card-carrying Communists comprise a negligible quantity. For every Conservative who understands the importance of preserving this Great Republic, there are 100 morons, dupes, liberals, anti-anti-Communists, Progressives, Socialists, minorities, laborers (influenced by the boss), Foundation employees, etc. who unwittingly play into the hands of the Communists.

81 Congresses have authorized investigations in our History, including every department of the Executive Branch, every war except the Spanish-American, all sorts of election scandals, railroads, shipping, oil, banking, housing, insurance, utilities, industries, Teapot Dome, Credit Mobilier (1872), Facist and Nazi Groups, Alger Hiss along with the Silvermaster, Perlo and Ware espionage cells, Defense Plants, McCarthy-Army Hearings, etc.

Just why none have seen fit to investigate the F. R. A. is a mystery. It has been well established that money talks; money is all-powerful. With any knowledge of Corporate Structure, it is apparent that ONE MAN and his clique has more power than the Three Branches of Government when it comes to the formulation of our Policies and administration of our affairs. Therefore, it behooves the Congressional Investigating Committee to bring these matters to light and restore to Congress the Power created through the Printing, Evaluation and Control of our Money. If this is done promptly, our Ship of State will right itself and we will have smooth sailing for many years to come. If we do not repeal the F. R. A., withdraw from U. N., and pass the Bricker Amendment, within five years, we will cease to exist as Christian American Citizens with Freedoms

as provided under the Constitution, and will be within the Communistic Orbit without ever firing a shot. Is there still time to alert the Populace? By what means can we alert them? Is there any Propaganda Media by which the Truth may be brought to the People?

According to the U. N. Charter, which was ratified by the U. S. Senate, 1955 is the last year during which we can sever our relationship. Don't forget that the U. N. Charter was prepared and expedited by Alger Hiss. Don't forget that Russia has three votes to our one. Early in 1955 the Bricker Amendment will again be submitted. During 1955 the 200 prepared amendments to the U. N. Charter will be submitted. Each amendment is a lethal dose to finish off the strangulation process; otherwise called a "Cold War." This is the year for action, or else. This picture is being painted no blacker than this writer sees it; in fact, he is pulling a few of his punches.

The writer bears no ill will towards anyone. All men and women on this Earth are my brothers and sisters, regardless of Race, Creed or Color; with one exception - the underhanded, two-faced Bandits or Traitors, who are living in our Home Area under false pretenses. Unless one's every thought and act are constructive, stemming from God, Constitution, Monroe Doctrine, Star Spangled Banner, and the Golden Rule, he is not entitled to bask in the good ole American sunshine and enjoy the benefits thereof. The present Administration fired 8,008 employees, of which 2,096 were branded as subversive. Nothing is accomplished by firing them or jailing them temporarily, to have them turn up somewhere else to carry on their dirty work. It is just not in the cards to call one's self an American Citizen and hold allegiance to an International Movement.

We just cannot get away from the fact that America of today and tomorrow is far adrift from the Plans and Visions of our Founding Fathers. We, ourselves, opened the doors to immigration and even sent boats to haul some in. If we made mistakes, we will have to pay for them. Instead of a Pure Caucasian Race we have evolved into a Mongrel Race. As unpleasant as it may sound, thousands of years from now, all minorities will be amalgamated into the Race. However, we have set the pattern; we have adopted certain Cardinal Principles; we have a definite and unique Way-of-Life; we are primarily a highly Religious Peoples; we believe in our Free Enterprise System; we believe that everyone has equal opportunity; but those who do not wish to integrate and weld themselves into the pattern, those whose allegiance is different from ours, those who desire to tear down that which we have constructed, are enemies of the State and should not be permitted to circulate and participate.

Undoubtedly Germany has attained Nationalistic Standards higher than any Nation on Earth. Because of same, and their Pure Caucasian Breed, their Religious and Cultural Background, it has been proven next to impossible for subversive elements to infiltrate them. On the other hand, it is very easy to infiltrate backward peoples like Russia and China; and gullible, money-mad, smug peoples like ourselves. The Kaiser allowed a sealed trainload of Bolsheviks to pass through Germany for the intended purpose of taking over the Soviets, so that he would not have to fight on two fronts. Financed from Wall Street, they ousted the Czars in short order. The Soviets and Chinese are God-fearing, Peace-loving Peoples like you and I. They are not our enemy. If Hitler had understood the significance of four million Soviets joining his ranks when he invaded Russia, he would today be the hero of the Age. Instead, he said, "No, every Russian is my enemy." He could have marched straight through to Moscow, and the Populace would have hailed their Liberator. Adenauer and Chiang Kai-shek could make the same Crusades today, simply by advising the Citizenry that "a mere handful of Bolsheviks control, I'm coming through to liberate you." The Germans and Chinese are a great deal more Nationalistic than we are. They are divided today on account of U. S.; because the "12 men" who run this country wanted it so. If we will simply mind our own affairs, in our own Home Area, Germany and China will not be divided long and they will tell the Russian Bear where to go jump.

It is remarkable how a mere handful of Communists can get control of one-half of the World's population in the short span of 42 years. It is remarkable that they have been able to influence the majority of the American Citizens to thinking, talking, acting and voting in the palm of their hands. Years ago Patrick Henry said, "Give me Liberty, or give me Death." Today the majority of Americans are unaware of the consequences, but are striving headlong into One-Worldism under the U. N. rather than the Liberty and

Freed m provided in the Constitution. How would you like to be like the Russian peons - no fr:edom of speech, religion or travel - no opportunity to create and accumulate - no free enterprise?

Some say, "It can't happen here." Well, it has already happened. The pending a-mendments to the U. N. Charter will nail the cover on our Constitutional coffin.

Some say, "I don't have time to study the issues; how do I know these matters to be facts?" It is only necessary that the following events and axioms be accepted as Facts; and the average, wide-awake citizen is aware of their TRUTH:

1. We engaged in 3 wars against the principles of the Monroe Doctrine, from which we accomplished nothing.
2. Our former allies are now our mortal enemies and vice versa.
3. We have bled ourselves white physically and financially without avail.
4. Money talks - "Let me control the money of any Nation, and I care not who makes the Laws."
5. A Corporation is a proprietary concern. One man owns and controls each cor-poration.
6. The Constitution provides that the Congress manage the printing of our money and the evaluation thereof.
7. All will admit that our affairs have been mismanaged either through incompe-tence or subversion.
8. When a Nation is ill and shows symptoms of mismanagement and/or subversion, it is natural to seek the root of the evil, so that an operation may be performed.
9. Since money is all-powerful, it is logical to investigate the printing, evaluation and control of our money. What do we find?
10. The Federal Reserve System usurped those prerogatives from Congress in 1913. The name implies a Governmental Protective Agency to guard our Reserves and monetary matters. Actually, it is as different as night and day. It is a Private Corporation, controlled by International Bankers. In 1935 they severed all re-lations with the Government by discontinuance of the appointment of Govern-ment Official to the Board. The original capital stock was 147 millions; today it amounts to 45 billions. This set-up automatically makes the Chairman of the Board and his Henchmen more powerful than the President, Cabinet, Supreme Court, Congress, etc. Doesn't this startle you? Suppose a Commu-nist or Communist Sympathizer of the Alger Hiss or Harry Dexter White vintage should be jockeyed into that spot? Those Traitors were merely 1st Lieutenants. He would overnight become a Dictator. There is nothing so important in our affairs as the repeal of this Act, even if that unlimited power has not been taken advantage of up to the present time.
11. IT is the opinion of this writer that this Act was connived by a Subversive Ele-ment - Enemies of the State - who have definitely laid down and published plans for the control of the World through the control of money. They accomplish their purpose by means of creating Wars, Revolutions, Riots, Depressions, Chaos, Barriers between Peoples, Division. They use all of the "isms" as vehicles. The 100 treasonous Acts enumerated herein stem from this source. The U. N. was concocted by the same gang. They cover it up with soft soap, the Potential Influence of the Press and the Power of the Purse.

Some will say, "How are we going to correct the situation, and what can I do about it with my limited capacity?" The following methods may be used to repeal the F. R. A.:

1. A Great Debate in the Se regarding F.R.A., U.N., and the Bric Amend-ment.
2. F.B.I. Report to the Attorney General.
3. Congressional Investigating Committee.
4. States Rights, State Banks, States Control of Treason, State Militias.
5. American Legion, Sons of American Legion, Business Organizations can bring sufficient pressure to bear.
6. Election of a President who will not lean to their influence. If they hand-pick candidates on both ballots, there is such a thing as "Write In."
7. In the past the People have devised means of correcting situations when the Government failed to function properly.

It is not my purpose to alarm you unduly, however, I feel it is my duty as a citizen to alert you of the Dangers from within. Based upon 20 years of research, this is a concise resume of the volumes of documentary evidence. It would be well for each member of Both Houses to read every word in the F.R.A. and U.N.O. In fact, they only have to realize that the very nature of Corporate Structure and the Power of the Purse places more Potential in the hands of the Chairman of the Board (F.R.S.) than the Three Branches of Government combined.

It is an odd situation for Big Business of the Tom Dewey, Will Clayton vintage to be in the same boat with Labor, charting a course under the Blue Flag (U.N.) to the One World Paradise, oblivious of their fellow travelers. Big Business is thinking in terms of selfish interests, regardless of consequences. Labor, with vacuums under the Tin Hats, doesn't realize that their sons were squandered in 3 wars, protecting the interests of Big Business and that they are just being taken for a ride. The International Bankers and Big Business have interests in common, regardless of whether they are Republicans or Democrats. That is the reason for the division in Both Parties. Since they control the money and press they have been able to swing Labor, Dupes and Middle-of-the-Roaders into their camp. Big Business is by no means antipathetic to Communism; the larger B.B. grows, the more it approximates Collectivism. Some will ask, "What is the motive of the International Bankers to gain control of the World and lose the economy and incentive of the individual?" It is primarily a matter of greed and lust for power through riches, oblivious to consequences. James P. Warburg testified as follows before the U.S. Senate on 2/17/50: "We shall have World Government, whether or not we like it. The only question is whether World Government will be achieved by conquest or consent."

We will not be attacked. There will be no World War III. Russia was taken over by conquest. We were taken over by consent when the U.S. Senate ratified the U.N. Treaty in 1945. This generation may not feel or experience the "take-over", but when the U.N. completely brainwash our children through the schools and churches our Christian Republican Concepts will have "Gone With the Wind" when they step into our shoes.

Some will ask, "How can a Government of this kind maintain itself in power?" The East German patriots were helpless fighting tanks with their bare fists. Did not Hoover and Patton awaken to the fact that his armies were without ammunition? The Plan is now to turn over to the U.N. all A and H bombs as well as information. Has anyone ever heard of State Militias in the past 42 years?

Rather than endeavor to analyze and study motives, we have sufficient documentary evidence that we are being "pushed around from Within." They are not only suave, but highly intelligent. They have definite plans laid down in 1848 which are being carried out to the letter. Including infiltration and subversion in the so-called Free Countries, as of the present time approximately two-thirds of the World's population have either adopted the Communist Movement of their own free will or by force.

There will be wars and rumors of wars. Because of the imperfection of the Human

Being it is impossible to create Heaven on Earth or to invent a Peace Plan that will hold water. However, if we think the matter through to a logical conclusion, we can eliminate pitfalls, so as to have one war per generation instead of four. It matters not, what the International Bankers do with our dollars. As far as this writer is concerned, they can throw them to the four corners of the Earth; but the squander of a G.I. Joe, outside of the Western Hemisphere, for greed is an entirely different matter. I want no harm to come to the International Bankers; and they can retain all of their wealth accumulated through the F. R. A. I have only one purpose in mind - the REPEAL of the F. R. A. By sodoing our boys will have less chance of becoming involved in wars every ten years on Foreign Continents, for ulterior reasons.

The International Bankers in Wall Street call the shots around the Globe, for New York is the financial center of the World. Washington will not act until they get the green light from N. Y.; Moscow and Pieping likewise. There is only one Nation on the face of the Earth which throws the fear of God into them, for reasons of their own - Germany. They are the only race which cannot be infiltrated and made to dance at their beck and call. We have no enemies from Without, as far as Peoples are concerned. Our only chance of involvement in a World War III would be for the I. B. 's to again hoodwink us and inveigle us into knocking down Germany again for the third time. They well know that a strong Germany is their Waterloo, because Germany understands their soft-soap, double-talk, and Worldwide Plans.

The warnings of Paul Revere were simple in comparison. Our foe was from without, readily understandable, sought out and conquered. It is next to impossible to put these Left-Wing Birds in the cage after winging them. There is hardly a case history with greater documentation regarding the treacherous China Betrayal than that of Lattimore, yet the courts have not been able to pin it on him. When men like Hiss and H. D. W. represent you and me at Yalta, Potsdam, Dumbarton Oaks, San Francisco, etc., making such momentous decisions for U. S., putting U. S. in U. N. and vice versa; and giving Russia 3 votes to our ONE; something is radically wrong in Denmark. The selection of Paul Douglas and Fulbright to investigate the F. R. S. will not even scratch the surface.

Circumstances and situations forced Hitler into power, to chase the money-changers from the Temple and assert Germany's rights as the Master Nation of Europe. He was a far-cry from the Bismarks and Hohenzollens; however, he was not all wrong. In "Mein Kampf" he advised that he would always hold inviolate the Catholic Church and the British Empire. He could have annihilated the British Army at Dunkirk, but would not allow his troops to pass a certain canal.

America was born and raised in Isolationism, if the Western Hemisphere can be so described. We came to the New World to carve out of the wilderness our own Civilization, Government, Religion and Way-of-life, without Foreign influence and entanglements. When we opened our doors to indiscriminate immigration and Russian Recognition our original concepts ceased to exist. It would be well to close both doors today. The Powers That Be through their Big-Mouthpiece (FDR) made the word "Isolationism" sound like walling ourselves within our shores, stewing in our own juice. They have lead us to believe that airplanes have so shortened time and space that the Atlantic and Pacific are no longer natural moats. Civilization and World Affairs just don't change overnight. The English Channel and Formosa Straits are still formidable barriers. In fact, we will now have our hands full, maintaining peace and order, in Central and South America after 42 years abroad.

If Collective Security were the answer to World Peace, if we had received cooperation in E. D. C. - NATO - SEATO, if our so-called Allies had carried their proportionate share of the Korean War, the U. N. would be in position to announce to the World that "on March 1st at 7:00 A. M. we will land troops on the Continent to march through to Moscow and Pieping as your Liberators, to clean out the Bandits, and set up Governments of the People's choice." The Russian and Chinese would welcome them with open arms, and march with them. Remember - 4 million Russians joined hands with Hitler as their Liberator, when he crossed the line. Had Hitler understood the significance of that gesture, he would today be the Hero of the World. The manhood of this generation would now be administering World Affairs, instead of sleeping forever under false pretenses.

Before landing troops in Korea, had the Chinese Nationalists joined, had Chiang Kai-shek dropped millions of leaflets advising the above purpose, our boys would have been met with handshakes instead of bayonets. Why was this not done? Because the same clique controls our affairs. The only war in our History which was not carried through to victory. Victory was not in the cards from start to finish (so state 4 Generals). The primary purpose was to bleed us white physically and financially so as to hasten the overthrow of Government, and the acceptance of the One World Scheme under the U. N.

Let's wake up and face the fact that Worldwide Communism is not a Party, Creed, Religion or Belief. It is a Criminal Conspiracy which should be outlawed in every municipality, State and Nation throughout the Globe. If you feel injured, or if you feel that these remarks are aimed at you - if you will look at yourself in the mirror, you will notice a decided leaning to the Left. If you will make a conscientious search of your mind, you will find longings for another way-of-life, another type of citizenship, yet you cloak yourself with the Star Spangled Banner, call yourself an American, and desire to enjoy the fruits thereof. You are a man without a country, in Truth with no one.

Instead of criticizing the culprits for evasive answers, the Public as well as the Senate criticize and censure the investigators. The Traitors hide behind clauses in the Constitution, the very instrument they're endeavoring to destroy. We are blissfully ignorant of who and where the menace is - we've spent our substance in the wrong places. Nations rise and fall when they become complacent in their own riches and false values. Communism is founded on hatred - no emotions except fear, rage and triumph. They claim that the workers will eliminate Capitalism by revolution; then the productiveness of Labor will belong to Society as a whole. Their objective is to liberate all who are oppressed. They claim, "Why should we divide ourselves into Countries?" Their fight is not National but Worldwide. They endeavor to wash away the "old fogie" ideas about Truth, Church, Family, National Heritage, etc.

Here is the conflict. The U. S. is the first and only Republican form of Government strictly and constitutionally dedicated to the protection of the God-given unalienable rights of men. Karl Marx, who laid down the plans for Worldwide Communism said, "The Democratic concept of man is false, because it is Christian. The Democratic concept holds that each man is a sovereign being. This is the illusion, dream, and postulate of Christianity."

We have had it. Historians will record National Suicide - due to strangulation, brought on by ONE MAN CONTROL, through Corporate Structure, Power of the Purse and Press, Treaties, Executive Orders, Presidential Directives, Cocktail Parties, False Economy and Complacency without ever firing a shot. The Amendments to the U. N. Charter in June of this year will tack down the lid forevermore on what was once the Land of the Free and the Home of the Brave.

MacArthur's gesture to eliminate wars is noble, but all peace movements will fail, because the International Money Power will see to it that they fail. Armament, industry and industries associated with it are money-making affairs both for Labor and Capital. Christianity, the greatest of all Peace Movements has failed to chase the Money Changers. There is only one way to bring about Peace and make wars fewer and farther between, and that is for the People to print and control money. The Congress must have the sole right to issue money, free of interest, as stipulated in the Constitution. This fundamental prerogative must be in the hands of a strictly non-political, non-profit Body. Until this is done there will be no freedom for the People, individually or collectively.

The Individual Citizen is under obligation to his Nation, family and self to study all issues, think it through to a logical conclusion and then ACT as follows:

1. Attend all meetings and express his views - precincts, schools, churches, organizations, etc.
2. Take a keen interest in all elections by means of the ballot.
3. Talk and write, as a means of alerting your Representatives in Government as well as your friends and associates.

4. Make donations to organizations established for the purpose of subduing Un-American activities.
5. Bring Public Opinion to bear for the Bricker Amendment.
6. Demand the Repeal of the F. R. A. and U. N.
7. Demand that we devote all of our attentions to the Home Area under the Monroe Doctrine.
8. Demand good government at all levels.
9. Eliminate subversive elements from your school, church, business, etc.
10. Keep fighting until the end.

The 10,000 Bureaucrats (many spies) comprising the U. N. O. , drawing tax-free salaries, have created vast projects, seven hundred of them (and 200 more ready to be stuffed down our throats); and more than a billion dollars have already been poured down those various rat holes. Washington said, "There can be no greater error than to expect or calculate upon real favors from nation to nation. It is an illusion which experience must cure, which just pride ought to discard." In the same Farewell Address he said, "Real Patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious; while its tools and dupes usurp the applause and confidence of the people, to surrender their interests."

What has come over the U. S. ? Is there a hidden hand, master-mind, invisible conspiracy, un-American adviser who is off-color socially, religiously, economically, geopolitically, etc. , a politboro who has been calling the shots for 42 years? Until 1913 the American citizen walked with unsurpassed Dignity, Rights, Humility and Faith in God, Country, Family and Home. We are being brainwashed into relinquishing those precepts, so as to accept the Way-of-life of the multitudes of former Christians now behind the Iron Curtain. The process is so gradual that only one in a million is aware of what is happening to the U. S.

Originally the Nation was divided Horizontally at the Maxon-Dixon line -- Republicans to the North and Democrats to the South; whereas, now the Nation is divided Vertically as shown below -- Conservatives in the West and Liberals in the East. It so happens that both the Republican and Democratic Parties are split into Conservative and Liberal camps. In time the Conservatives of both Parties will join hands under the Republican banner and the Liberals of both Parties under the Democratic banner. The weakest point in our System is the fact that the vote of the ignorant citizen on relief, whose vote can be bought or influenced, has the same value as a Solid Citizen who knows what the score is; and for every one of the latter, there are 100 of the former. There are more Have-nots than Haves. It is not that the Have-nots have no money, but that they have no brains. It is apparent that Education, Freedom of Speech, and Freedom of the Press are most important factors.

If you are confused as to which side your bread is buttered on; if you blow hot and cold; if you are not posted on all issues; if you are unable to think this matter through to a logical conclusion, you may grade yourself on the following issues which dominate our affairs and influence the welfare of your Home, your Church, your Nation and your very life. This appeal is directed to the millions of Middle-of-the-Roaders within our shores, who hold the balance of power as well as our Destiny within their Opinion and Ballot.

Kefauver's annual ballyhoo is on the road again for headlines and 1956 Presidential votes. He is planning a Big war on Little crime - chasing mice while the rats are prancing under his nose. When playing politics, one must consider how many and whose toes are being stepped on. He says, "I am simply an anti-racketeer, not a politically unpopular brand of bluenose." It is not necessary that he tell us who he is; his actions speak louder than words. If he is for America, I know not the significance of the word. Just another one of the influence peddlers.

Nixon became known for his "scent" in ferreting out Alger Hiss. After three years in the White House, alternately nesting under the Left and Right Wings of the Middle-of-the-Roaders, he has lost his scent, as well as his sense. Just another change-over by association.

Since Woodrow Wilson (Democrat) awakened from a dream on the wrong side of the bed with the Republican Foreign Policy the Platforms have reversed and split. The Republican Party had been the Party of Wealth, Special Interests and International Affairs. Even though their interests are Worldwide, they could see the handwriting on the wall, and rather than ride in the same boat with International Communism, they adopted the policy of Nationalism and Conservatism. The Conservative Party is the Minority Party because the many issues are so complicated very few are capable of thinking the matter through; and because the organizations are few and inactive, viz., For America, American Legion, Sons-of-American Revolution, Christian Nationalist Crusade, Minute Women, etc. Whereas the Liberals are organized to the hilt, viz., Communism, Socialism, A.D.A., I.P.R., C.I.O., A.F.L., I.L.O., I.T.O., etc.

The U.S. participates in 172 multilateral International Organizations which are imposing super-statism, and moving both our National Government and Foreign Policy in directions which the old time policymakers could and would have avoided. Undoubtedly the decisions of our State Department, regardless of which party controlled the Government, have been of obscure origin.

The basic issue confronting us today is simply the issue of the kind of Government under which the American people wish to live. Regardless of whether you consider the uneasiness, fear, turmoil and jeopardy in our affairs, of a Religious, Economic, Social, Political or Physical nature, the alignment is the same, the effect is the same, and the same solution will cure all -- Repeal of the F.R.A.

Fellow Americans, all we have to do is THINK. Think the matter through, and express your OPINIONS to your State and Washington Representatives. Go to the Precinct, County, State and National meetings and take your friends with you. Likewise to School Board and Church meetings as well as the Polls. We have made our bed and will lie in it. We cannot legislate morals. However, by thinking and talking and voting we can revert to Good Constitutional Government. All of our ailments seem to stem from certain minorities who do not assimilate into our way-of-life. We can deport undesirables; screen the immigrants; and bar them from high offices, especially first and second year aliens. All we have to do is to exercise our God-given and Constitutional Rights to think, talk, write and act for America, fear nothing, and have absolute faith in our Way-of-life here and hereafter.

"Co-existence" is a coined word of the extreme left suggesting a Middle-of-the-Road policy not only between U.S. and U.S.S.R. but also between the extreme Right and Left. Through their enormous power of Press Control, the extreme Leftists are brainwashing the dupes to believing that the extreme Right is Nazism and just as dangerous to the welfare of America as the extreme left. It is equivalent to saying that to be too good, or too staunch in your leanings FOR AMERICA is not for the best interests of America.

A recent Gallup Poll disclosed that a great segment of our population are Middle-of-the-Roaders, with the balance evenly divided between the Conservative and Liberal camps. Naturally, there is a strong play for the Middle Busters because they hold the balance of power. Unless the Conservatives make a concerted effort, future elections will be walk-aways. We had a sample of it two months ago, when they took over the control of Congress. Furthermore, our efforts will be double tough because the Power of Purse and Press is aligned against us. However, where there is life, there is hope. Unless the Conservatives use their wealth to enlighten the Middle-of-the-Roaders, soon their wealth will be valueless.

Dear Mr Hoover:

Let me be the first to congratulate you upon your election to the Board of Directors of Acacia. I have been the Houston Manager for 24 years.

Of course I know not if you have read my Book entitled "The Federal Reserve Corporation" which I mailed to you last year. My 1956 additions along with the Third Edition will be mailed to you July 1st. You have been on my mailing list - during past 20 yrs. I have mailed out many thousands of mimeograph copies entitled "The Invincible New World" - "Three Worlds" - & finally the above mentioned Book, which is the end of the road as far as I am concerned. That length of time was required for my unrelenting research to track down the real culprits, the reasons for the downfall of this Great Christian Republic - viz. the International Bankers, operating thru the Secret Societies of Europe & America, Zionism and/or Illuminism, who have gained control of our affairs, jockeyed as into Wars, Financial Crashes, strikes etc. thru the power derived thru the printing, evaluation & control of our money, derived by means of the Federal Reserve System - a Private Corporation an International Straitjacket. They secured those privileges from Congress on 12/23/13 while most of the Senators were home for Christmas Holidays & took advantage of a weak spot in the Constitution (2/3 rds of those present) & blackmailed Woodrow Wilson who said afterwards "I am a most unhappy man - over"

2 "unwittingly, I have ruined my country." All of our ailments stem from this - R.S. Root. I am ^{the} "repealed" - then all subversive issues will wither like leaves on a vine. I expect 140,000 copies of my book to be mailed to prominent Citizens in 1955-6.

Somehow I feel that I could accomplish more towards saving the Republic, if in your organization. I can present the facts to the Congressional Investigating Committee. I am afraid that the Packed Supreme Court will rule some Black Monday that the UN is the Law of the Land - then we have "had" it. Three Insidious Bills are now in Senate Committee - is - Suicide Covenant - Covenant of Human Rights - & Alaska Mental Health Bill H.R. 6216 (which passed the House of Representatives unanimously). The Liberal Left Wing House & Senate & the Middle of the Road White House are anxious to follow Foster Dulles, the father of Fed. Council of Churches, World Council of Churches. In 1942 Dulles, Miss, Acheson & Stassen founded the Fed. Council of Churches in Cleveland Ohio at which time they proposed to ditch the Constitution, give up our Sovereignty to a One World Scheme of Joint Bankers (he is kin to Rockefeller) - place our armed forces into a One World Police force - have one unit of exchange have Freedom of Immigration + Trade + Revise the Bible to deprecate the Divinity of Christ. They then wrote the Nest of Treason - U.N.

Gen. Douglas MacArthur is the only living American, with sufficient knowledge, experience & background, to grasp the imagination of the People to save the Republic. I have requested that he lead a Crusade March on Washington - of Patriotic Citizens + wives - armed with the Constitution, Bible + Star Spangled Banner & remain til mission accomplished - Repeal of the F.R.S. He has not replied. Gov. J. Bracken Lee agreed to lead such a Crusade but I doubt his ability in that respect. I feel confident that a Communist Cell worked my son ^(John) over on the L.S.U. Campus. He is 7 yrs of age - a good-hearted well rounded boy. They evidently wrote letters in my hand-writing & that of

3 his mother who "turned him against us" became so confused & I realized that he couldn't study or concentrate. Of his own accord, he decided to volunteer into the Marine Corps, thinking he would "get shed" of that element & upon his return he would be more matured & could pass Geology more readily. We agreed that his decision was well founded. ^(Camp Pendleton) During his 3 mos. Basic Training, his letters were his old self. He enjoyed the training & gave the Corps his best & felt that he had developed into a good soldier. In the interim between Basic & Combat Training, he did not come home, but evidently had some leave preferring to remain in Calif. Then all of a sudden the same situation which confronted him at L.S.U. contacted him in Calif. He was bewildered. They even turned him against his best friend & sweet-heart. They knew all details of his Double Dating & other events. He was disturbed at bite injury to his heel tendons, & teeth. We did inspect his teeth & found the rear molars chipped or chiselled to points like the eye teeth. He went to the F.B.I. & his Lt Col & was given no satisfaction. He talked over the phone to us twice while on leave - once 77 min. He would say "what's going on around ~~here~~ ^{here}, what's it all about." All other incidents I could attribute to imagination, or slight nervous break-downs due to pressure of highly technical College work, with a poor High School background - or even the Corps training to see how much a boy can stand without divulging military secrets to the enemy.

but the teeth damage + retired for Parents just spells
2? vision. He was a 'standing' golfer in
H.S. + College - He represented Texas (2 from
each State) in 3 National Golf Tournaments in
Michigan + Oregon. He was always hunting or fishing
when not golfing - so he just skinned by in H.S.

Somehow I feel that the De-Segregation issue
in Louisiana on the LSU Campus had something
to do with his turmoil. He is a devout Christian
but not sufficiently matured to know that the
Pattern as established by the Master is Segregation -
that Social + Business Intercourse has to come
from invitation + not by force or legislation.
I do not look down upon or hate any member of
God's family - but I firmly believe in Purity of
Race + Species as exemplified by dumb animals
+ birds in the forests. John accepts them as a
brother + feels that any other manner is un-Christian.
By association with them, or by association with
Communists evidently he has been branded a
Communist. They would like to get him to join their
cell or at least alienate him from his family as
a means of retaliation against me.

I could tell by his telephone conversation that
he feared returning to that mess + intended going AWOL.
I impressed upon him his obligation to return to camp. Two
days later he wired from Fresno Calif to his Banker
for 100.00 + bought an aeroplane ticket Home. I im-
mediately went to marine Headquarters + requested
that they come to the house in an automobile for
him which they did. They placed him in Naval
Hospital 3 days then Ellington Field Hospital 3 days.
My wife + Dr. called upon the J. - Psychiatrist

5 for a little chat. He ran down the Hall when his
Sec. advised th^t he wished to talk with " " " "
fact with the N----- M.P.s the ladies asked the
Capt in Charge of the Marine Office if there were
any Americans out there. Well - he returned
to Camp Pendleton of his own volition + seems
to be his old self again. His sister asked him to
return the first day he arrived here - he said
"would you if they clipped your teeth." I have
written full details 20 pgs to Maj. Gen. J. C.
McQueen.

There has been no misanthropy in the family on
either side. I have an older son in USA in Korea.
Those two boys have withstood many hardships
in precarious predicaments battling climatic conditions
that have cost many others their lives. They can
take anything the Corps dishes out, but John
does not understand subversion.

While here he called upon the Naval Intelligence
Officer, who advised me, that John asked for
"clearance". I presume he wanted credentials
advising that he was not a Communist.

John told us that if a Court Martial is held,
a Priest will have to be the witness. Could
the Priest possibly be a Communist.

He has been in conflict on Religion. His mother
is a Catholic + his Father an Episcopalian. All 3 children
were Christened Catholics. The Older Son changed
over to Protestant Faith at Texas A & M. ~~He~~
My Wife + I attend his Church, in fact I joined
it because Berakah Church is an independent
Church, having no membership in the World

to Council of Churches. We attend 4 times weekly; for
- in , teacher is a young + U.S.A.F. + preaches
good Gov't along with Christianity + he sticks
closely to the Word in the New Testament. His
sermons were sent weekly to my two boys. One
sermon on Spirituality was kinda deep for John. He
may have taken it to the Priest, who in turn
ran down the Protestant Minister for trying to
win over one of his Catholic Boys; for John
even remarked ~~that~~ "Whose side is he (the
Protestant Minister) on?"

I presume you are the Clearing House, Mr
Hoover, for any & all information picked up
at Camp Pendleton as well as LSU. I intend
to do everything in my power to uncover
subversion at both places, not only for my boys'
sake, but for the welfare of all boys as well
as my Beloved Country.

Respectfully yours

Meador Publications, Boston, Massachusetts, sent the Director a copy of "The Federal Reserve Hoax" and "Meador Publications, Alphabetical Lists, Authors and Book Titles." These publications were received on February 23, 1960, accompanied by a note which states "The Federal Reserve Hoax" is presented as a public service with the compliments of the Author, Wickliffe B. Vennard, Sr., Houston, Texas.

Files reflect nothing derogatory on Meador Publishing Company. Vennard is described in Bufiles as a "super patriot," and we have received numerous inquiries regarding his writings. He has written pamphlets in the past which have been extremely critical of the Federal Reserve System, the United Nations and various operations of the Federal Government including the current administration.

Vennard's book was reviewed by the Crime Research Section (See Jones to DeLoach memo "The Federal Reserve Hoax" by Wickliffe B. Vennard, Sr., Book Review, 2-17-60) and while there are several references to the FBI and/or the Director none of them are of a derogatory nature.

RECOMMENDATION:

In view of the controversial nature of Vennard's writings, receipt of this book not be acknowledged.

Dear Mr. Hoover:

I have ~~trying~~ to read every thing I can get my hands on which I think may have a bearing on the future of our country. I have had the pleasure of reading your book, "Masters of Deceit", I think this book should be read by every senior in high school.

As you know it is hard to interest people in the plight of their country. The abuse the constitution of the U.S. has taken, the left wing practices of many government officials and the Commie coddling politicians.

Have you read or has your department had the opportunity to classify the book written by Wickliffe B. Vennard Sr. "The Federal Reserve Corporation"? Who is this fellow? Do you concur in most of his expressions?

So many times we can get off base. I happen to have every confidence in you and I would like to hear from you regarding the above book. If you think it is alright I would like to purchase copies and pass out to my friends and customers. Please feel free to advise me as I try to be open minded regarding these subjects.

I realize that you are a busy man, however there are few places that I know of where the truth may be secured,

Two booklets were received June 4, 1962, from the Forum Publishing Company, 324 Newbury Street, Boston 15, Massachusetts. One was captioned "Congressman Louis T. McFadden on the Federal Reserve Corporation--Remarks in Congress, 1934," and the second, written by Vennard is titled "The Enemy Within."

Both of these booklets concern the Federal Reserve Corporation and charge a world-wide conspiracy by the International Bankers to control world finance and thus the activities of all the governments in the world. "The Enemy Within" mentions the FBI on page 4, stating "The FBI, CIA, etc., are aware of our extreme jeopardy, but the Government to which they turn over their gathered information---is in the service of the international interlopers---."

Bufiles indicate that Vennard has not been the subject of an investigation by the Bureau. We have received numerous inquiries concerning his writings since much of his material has been extremely critical of the Federal Reserve System, the United Nations, many operations of the Federal Government and the various Presidential administrations including the present one. He is described as a "super patriot." We previously received unsolicited his booklet "The Federal Reserve Hoax" which was reviewed in the Crime Research Section. Although the FBI and the Director were mentioned several times in this booklet, none of these references were derogatory in nature. Receipt of this booklet was not acknowledged due to the highly controversial nature of Vennard's writings.

These booklets are additional material pertaining to Vennard's opposition to the Federal Reserve Corporation and allegations of a world-wide conspiracy. The Bureau and the Director are not involved in the discussion nor mentioned except for the passing reference set forth above.

RECOMMENDATION:

That receipt of these booklets not be acknowledged.

HELP SAVE AMERICAN CIVILIZATION !

Fellow American:

Richard Arens, Director of the House un-American Activities Committee, advised recently that "the United States is losing the Cold War with Russia both internationally and domestically. Our American civilization is now going down the drain, and not more than a handful of people are concerned about it."

General Mosely said: "Historians of the future will marvel most of all at the non-resistance of those who had most to lose."

General MasArthur said: "This evil force caused many Christian Nations abroad to fall, and their own cherished freedoms to languish in the shackles of complete suppression. As it happened there, it can happen here."

"The responsibility for World War I rests solely upon the shoulders of the International Financiers. It is they upon whose head the blood of millions of dying rest."

—Document No. 346, United States Senate Committee report.

I am appealing to the State Legislators as well as the People to formulate Bills to Repeal or Re-purchase the Federal Reserve System.

Kindly pass the book to other patriots.

NOTE: Correspondent is not identifiable in Bufiles. The book, "The Federal Reserve Hoax," by Wickliffe B. Vennard was reviewed by the Crime Research Section. The book is highly critical of the Federal Reserve System and, although it mentions the Director and the FBI, it is not in a derogatory vein. The author is the subject of an "appears mental" card maintained in the Correspondence and Tours Section as the result of the rambling letter he wrote to this Bureau in 1956. (62-96648)
